Wall Street Listless Waits On Washington

New York, April 14.—The New York Evening Sun financial review today said: Today's stock market was rather a colorless affair, more typical, perhaps, of the Saturday's short session than most of these sessions have been in recent weeks.

WASHINGTON WINS IN THREE CORNERED RACE

Oakland Estuary, Cal., April 14.—Washington won the annual three-mile triangular intercollegiate crew race by four lengths over the Stanford crew on the Oakland estuary this morning.

California was a bad third, finishing two and a half lengths behind the Stanford shell.

Washington's unofficial time was 17 minutes 29 2/5 seconds. This is slower than the time made by the Stanford crew in last year's victory over California, Stanford winning 16:37 by eight lengths.

The start was considerably delayed by the wind, the California crew in particular having trouble in lining up for the start.

The Washington crew won the freshman race, finishing two lengths ahead of the California crew. Stanford was a bad third, being fully eight lengths behind California.

The times were: Washington, 16:24; California, 16:35; Stanford, 16:53.

Representative Keating, Colorado; La Follette, Washington, and Huddleston, Alabama, voted for the Tower amendment.

GERMAN RESISTANCE GETS MORE DESPERATE City of Lens Ablaze Indicating Germans Are Ready To Abandon It

By William Phillip Simms. (United Press staff correspondent.) With the British Armies Afield, April 14.—Another mile of the Hindenburg line was taken by the British onslaught today.

The Arras position, on which the Germans swung pivot-like in the retreat to the Hindenburg line, is now turned to a distance of nearly eight miles south-east of Arras.

Lens, most important of France's coal cities, is likely to fall at any moment. British troops are encircling it on two sides.

Advance posts of the British forces were today pushed a considerable distance toward Queant and Prouville.

The British forces were slowly but steadily closing in around France's great mining capital today.

When I left the Canadian sector, I saw from the Vimy ridge the city of Lens ablaze. It was puzn the Germans intend to sack and destroy the town as they sacked and destroyed Bapaume and Peronne.
