Pacifists will be finally lialled to sleep by the call of the navy during the week of April 9-14th. The six days have been called "Navy Week" and a concentrated effort will be made in every city and town to obtain the 35,000 young and healthy Americans now so necessary to bring this country's first line of defense up to its full strength of 100,000 men.

Recruits in New York city, has distributed thousands of photographs illustrating the Jackies at work and at play on the big sea fighters. Photographs for patriotic window displays and hundred of tons of literature for propaganda purposes have been spread over the land.

The average enlisted man in Uncle Sam's sea service today is a man of high ideals and attainments. The service has no place for wayward youths. It wants no man of vicious mind and it will accept no one as a punishment.

Enlistment in the navy is for four years, and the work promises rapid advancement for the ambitious youth. Men who enlist now will receive certain necessary training before being sent to sea. It is certain that each one will be of more real value to the country after a year's service, than ten untrained men.

Display Historic Emblem

In the national museum at Washington, among the many other patriotic relics and emblems, are displayed 30 historic American flags. On the labels, the history of each is recorded; a number from famous sea fights, and others were flown over garrisons or forts by distinguished American officers.

The series of flags show very well the periodic changes, which have taken place in our flag. From the time of the revolution the Stars and Stripes in the flag have varied. There were 13 stars during the revolution, 15 in the war of 1812, 25 in the Mexican war, 33-35 in the civil war, 45 in the Spanish war, and 48 today.
