COUNCIL HAS SCRAP TO STOP FOODSTUFFS REACHING GERMANY

Ward Defends Incumbent—Motion to Indefinitely Postpone Defeated

That the attempt of Councilman Urub to repeal the ordinance authorizing the office of police matron was whittled away for and that it was aimed to get Mrs. E. J. Dorsey, incumbent, out of the position and put Mrs. Myra Shank, former matron, back into the office again were statements made this morning by Councilman Ward, who fought the measure when it came up for final passage last night at the special meeting of the council.

Councilman Ward also said that the statement of Councilman Urub regarding the work of Mrs. Dorsey, in that she did not work after 6 o'clock and said she would do no work after that hour, were utterly without foundation and ridiculous to any one acquainted with the facts.

When the matter was proposed to be laid on the table last night, Councilman Ward objected because he thought that it would give an opportunity to have it brought up again when the cars were stacked against the measure and its friends were absent.

The motion of Councilman Wilson to have the measure indefinitely postponed was lost when Councilman Bechner, Johnson, Melton, Millet, Roberts and Urub voted against it. Those voting to indefinitely postpone, and so finally dispose of the matter at that time were Elliott, Hoover, Higdon, Ward and Wilson.

Says Urub Fooled Them. Councilman Ward said this morning that some of the councilmen were fooled by Councilman Urub's talk about the police matron not doing any work so that they consented to vote no on indefinite postponement. A bill to table the measure was voted down after Mayor Keyes had stated that he was not in favor of holding the ordinance to repeal as a club over the head of Mrs. Dorsey.

Councilman Urub declared that he had accomplished what he intended to do in that Councilman Ward should not indefinitely postpone the bill. After stating that he was a personal friend of Mrs. Dorsey and was raised in the community in which she lived, he moved that the bill come to a final vote and not passed. The bill was defeated.

Councilman Ward stated that Councilman Urub is also a personal friend of Mrs. Shank and that they often walk together. He also said that he knew that Councilman Urub supported Mrs. Shank for police matron in January and that both were bitterly disappointed when Mrs. Shank was not elected. He also said that statements to the effect that "We'll get Mrs. Dorsey before the year is out," were known to have been made by them.

In his attack on Mrs. Dorsey last night, Councilman Urub declared: "Since the bill was introduced, Mrs. Dorsey has been on the street as late as 11 o'clock at night, and at times has done a considerable amount of good work. Prior to that time she never worked after 6 o'clock and said she didn't intend to, and didn't think it was necessary. I think it is a good thing to have this bill on the table as a club so that the matron may know she has to work."

Says Methods a Joke. To these statements Councilman Ward replied: "Mr. Urub's methods in this affair have been a joke from the start. Mrs. Dorsey has the records in her office to show what she has done. His idea that a club has to be held over her head is ridiculous."

PURITY AND POWER

Necessary to Overcome Impure Blood and Weak Conditions. The recent trying weather, exposure to storms, the grip, hard colds, pneumonia, fevers, diphtheria and other blood-poisoning, prostrating diseases leave the whole system sub-normal—below par—weak and slow—blood depleted and thin, with that tired feeling, poor appetite, delicate digestive power or almost none at all.

The ideal treatment is Hood's Sarsaparilla—to be taken before meals—thoroughly to purify the blood and expel poisons, and Peptonin Pills—to be taken after meals—to put power into the blood, give strength, increase red corpuscles and restore normal health-tone. Hood's Sarsaparilla has for 40 years won and held the favor of the people.

Peptonin Pills are named from pepton and iron—and include lax and other good blood and stomach tonics. Be wise and begin on this sensible, reliable course of medicine today.

Washington, April 21.—Measures to prevent food and supplies reaching the enemy through peace time American trade channels to the Scandinavians are under preparation by the administration, the United Press learned today.

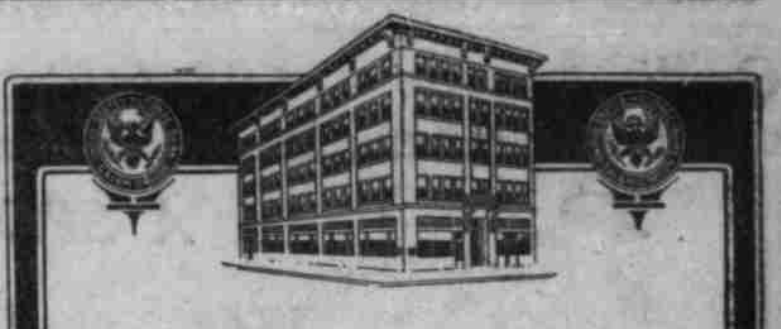

The problem is one of a general series of "trading with the enemy" restrictions being worked out by the special trading with the enemy committee appointed by the cabinet and composed of a representative each of the state, justice and commerce departments.

While the United States went on record against the principle of the commercial blacklist, some means, it was stated, must and will be found to prevent Swedish and Danish merchants from acting as go-betweens for Germany.

The government also faces the problem of preventing German-American traders here from shoving supplies through the Scandinavians via German or quasi-German confederates here.

That this country will refuse to enter into any general blacklisting of German merchants in neutral countries—just because of their nationality—is believed certain, however.

"We must work out a plan to prevent our supplies from reaching Germany, with as little unjust discrimination against law abiding merchants as possible," was the statement of a high official today.

PATRIOTISM WITHOUT PROFIT. Whatever you are called upon to do—whatever you choose to do—whatever your conscience advises you to do—for your Country and the whole of Mankind in the present crisis—is believed you will do gladly and willingly—and without a thought of profit to yourself.

United States National Bank Salem Oregon

Engineers and Experts to Aid in Solving Transportation Problems. (United Press Staff Correspondent.) Washington, April 21.—In the belief that Russia affords the most delicate, as well as the most important problem before the United States and allied governments, the greatest attention is today being centered on the selection of a commission to be sent to Petrograd for conference with the Russian government heads.

Elihu Root, Oscar Straus, Professor Harper of Chicago University, Colonel Roosevelt and Charles E. Crane are among those being seriously considered to represent the United States in its movement to vitalize the new Russian regime.

In addition to the regular commissions, there will be a supporting body of engineers, railroad experts and economists, who will take up with the Russian government plans for putting the transportation system and finances of the country on rock foundation.

This problem will constitute one of the biggest to be taken up by the international commission in Washington. It is probable announcement of the commission to Russia will await the first conference here between officials of this government and those of the entente allies.

The personnel of the American commission to Russia is expected to be completed within the next week. Harper is regarded as one of the most eminent authorities in the United States on Russian affairs.

Charles E. Crane also is a student of eastern Russia. He is in Russia at the present time on some mission, the nature of which has not been disclosed. Both men are well acquainted with Russian officials and dominating that government.

Details of a big loan to Russia are now being completed. This is expected to range from \$50,000,000 to \$1,000,000,000, the bulk of which will probably be used in re-establishing Russia's disintegrated transportation system. All these matters will be thrashed out at the coming international conferences here.

Court House News

The jury in the case of Gertrude Brown against W. E. Stanton, an action brought to recover \$125 alleged to have been paid on a contract for instruction in beauty treatment, brought in a verdict yesterday in favor of the defendant.

An amended complaint was filed in the circuit court by Amelia E. Cassaman against Joseph N. Cassaman for divorce. She alleges cruel and inhuman treatment and desertion. The complaint states two children have been born to them.

Marriage licenses issued yesterday by the county clerk are as follows: Clarence L. Simmons, a farmer of Salem, and Katherine L. Dougherty, a school teacher of Salem; Leo J. Rock, a mail carrier of Stayton, and Josephine Duchateau, of Stayton; Robert E. Kelly, a miner, of this city, and Minnie Hill, also of Salem.

Information has reached Sheriff Needham that the jewelry store of E. W. Hoffman at Hubbard was broken into last night and four rings worth about \$20 were taken. The safe was carried outside of the building and was about to be blown open when the burglars were frightened away.

E. M. Pierce was sleeping in the rear of the store when three men entered. They started into move the safe and he woke up. He made a stir and they found out he was inside. One of the three men came into the room where he was, shoved a gun in his ribs, and compelling him to hold his face to the wall.

The other two put the safe in a wheelbarrow and wheeled it away from the store and across the railroad tracks. After being held in bed an hour Pierce got away and gave the alarm. A posse of several men was immediately formed but no trace of the three men could be found. The safe was not injured or broken open.

Ralph Maloney, who was arrested at Gardiner recently charged with threatening to kill the superintendent of schools at that place, a few days ago walked leisurely out of the jail yard at Roseburg and disappeared. Maloney was a member of the "honor" gang.
