The Red Cross and its work does not belong entirely to the women. Here's some inside advice for the good housekeeper. Buy your sugar and coffee now. In casting around for something to tax, it is a safe guess that congress will tax sugar and coffee and various cooking compounds. It is the ultimate consumer that will have to pay the tax as the jobbers and commission men will pass it on to the retailer and the retailer will of necessity pass it on to the consumer. This hunch on the market conditions comes from a man who has recently been guessing about 100 per cent right on what was going to happen to the market. He says buy coffee and sugar now.

## One Thousand Attended Champoeg Celebration

Wittenberg-King company will come before the city council at its meeting this evening asking the privilege of closing Market street between Front and the river. The company has recently bought two blocks along the river front just north of Mill creek and Market street extends directly through their property. As the buildings of the company will extend the length of the two blocks, they ask the privilege of closing the street. It is the general opinion of business men that the coming of the evaporating plant of Wittenberg-King company is one of the biggest things from a business standpoint that has ever happened to Salem, as it gives the farmer an outlet for all his produce at a contracted price.
