FIRST OF AMERICAN MEDICAL UNIT THERE

Party Reaches London After Quiet Trip—No Submarines Bothered Them

London, May 18.—The first contingent of the United States army medical unit arrived in England today, according to official announcement.

The officer in charge of the medical unit said the members were "crazy to get into action," that while tired after their sea voyage, they were anxious to hurry on the French battle front.

"Those at home are anxious to come," he continued, referring to other medical units now forming in the United States.

The army medical unit was welcomed on the deck of the vessel on which they arrived by a British general, the American consul, Colonel Brailley, representing the American embassy, and other officials. Both the Stars and Stripes and the Union Jack were flown on the vessel and on decorations in the city in the American's honor.

All British newspapers admiringly commented on the fine appearance of the khaki-clad men.

Major Gilchrist, U. S. A., in charge of the unit, said he and his party had "a pleasant trip across and did not meet any submarines."

The vessel on which the party traveled was met a considerable distance from port by a convoy and escorted to anchor.

Bids for paving the Siskiyou highway, from the summit of the mountains to the California line, will be advertised for soon.

Ask Banks to Take Over Half Their Subscriptions

Washington, May 18.—Banks and trust companies were today asked by Secretary McAdoo to make preliminary purchases of short time treasury certificates to at least 50 per cent of their anticipated subscriptions to Liberty loan bonds.

These certificates are then to be used in making payments for bonds—converting certificates back into the treasury.

This practice, it is said, will prevent violent derangement of the money market and facilitate floating of the immense loan with minimum economic disturbance.

Prior to the \$5,000,000,000 long time Liberty loan bond issue, \$2,000,000,000 worth is authorized, designed to break the shock of the greater loan and prepare the financial world for the great war issue.

CREST OF SPOKANE FLOOD HAS PASSED

River Has Dropped Six Inches at Spokane—Coeur d'Alene River Falling

Spokane, Wash., May 18.—The crisis is past. After creeping up to a point where each inch increase added thousands of dollars to the damage, the crest of the greatest flood since 1894 passed today. All danger is believed ended.

The Spokane river has gone down six inches within the last 24 hours and the Coeur d'Alene river is reported to have dropped two and six tenths feet, although both are still raging dangerously. Coeur d'Alene lake dropped one tenth of a foot early today.

Water is coursing through Spokane streets today, and municipal and traction company employees are still building dikes to curb the water. The big plant of the Spokane Toilet Supply company is surrounded by a lake. The basement of the Spokane and Inland Empire railway shops are submerged. Two centrifugal pumps in the basement of the city hall are gaining slightly on the lake in the basement. Four feet of water in the boiler room in the Coeur d'Alene put the fire out, one of the city's biggest hostilities, has paralyzed the heating system and two electric pumps can just hold their own in a race with the seepage.

Five hundred thousand dollars worth of lumber has been washed away from Inland Empire mills, according to conservative estimates. Wallace and Kellogg are still cut off from Spokane and Oregon-Washington railroad officials here said today that the line to that part of Idaho would be tied up indefinitely.

NATIONAL GUARDSMEN WILL GO INTO CAMPS

Those Not Already Called On—ly Affected, First Call Is July 15

Washington, May 18.—The national guardsmen affected by today's order are those who have not already been called into federal service. They will be kept in their home armories about two weeks and then will be sent to the training camps.

The states called out July 15 are: New York, Pennsylvania, Ohio, Michigan, West Virginia, Wisconsin, Minnesota, Iowa, South Dakota, North Dakota, Nebraska.

The following will be called on July 25:

Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, District of Columbia, Virginia, North Carolina, South Carolina, Tennessee, Illinois, Montana, Wyoming, Idaho, Washington, Oregon.

The following will be called August 5:

Indiana, Kentucky, Georgia, Alabama, Mississippi, Arkansas, Louisiana, Oklahoma, Texas, Missouri, Kansas, Colorado, New Mexico, California, Arizona, Utah.

The militia division estimates that from six weeks to two months of intensive training will suffice to put these units into war condition. When they are out of the way, the new selective service army can occupy these camps.

While no announcement is made as to the disposition of the national guard at the close of their intensive training, the assumption previously expressed is that very soon thereafter they will be utilized for European service.

Seven Per Cent of Port Orford Enlist

Marshfield, Ore., May 18.—Seven per cent of the population of Port Orford, the principal town in Curry county, and westernmost town in the United States proper, boarded the train here today for Portland to enlist in the army.

One-third of the male population of the town already has answered the call to the colors. No Port Orford applicant has been rejected. With the departure of the soldiers-to-be today—11 in number—the last young men of conscription age left the town.

A notable addition to the library shelves this week is the 10-volume set "Abraham Lincoln," by John G. Nicolay and John Hay. This work is more than a biography; it is a history of the United States from the birth of Lincoln to his death.

Warrenton is to have a shipyard with capacity for building six ships at the same time.
Two mad dogs were killed at Lakeview within the past week, and it is feared an epidemic of rabies is to be feared.
The revolver with which Joseph Redenbaugh, alias Edward Hamilton, killed Mrs. Alice McQuillan Dunn and Patrolman George H. Conery, at Minneapolis, in April, according to confessions said to have been made to the San Francisco police, has been found in a Portland pawnshop by Detective Captain Baty and Detective Leonard.

question was whether or not this was final passage, which requires a constitutional majority of 31. Judge Bingham ruled that the bill was passed legally.
Macleay this evening will be the scene of a parent-teacher's association meeting, which will be attended by County School Superintendent Smith and M. S. Pitman, of the Monmouth state normal school, who will deliver the address of the evening. Miss Eugenia McInturf will sing. Mrs. Cora Reid and Mrs. W. M. Smith will also attend the meeting.

COURT HOUSE NEWS

On appeal from the decision of Judge Bingham that the Bean bill, which provides for placing the Oregon and California grant lands on the tax rolls after the United States congress has declared that title vests in the government, is to go on the ballot in June at the special election, the supreme court will hear the arguments on the case Monday afternoon at one thirty o'clock. Sitting in Portland, Judge Bingham rendered the decision that will place the bill on the ballot, when the action was brought to keep it off the ballot and thus avoid complications. The attack on the bill was made on the ground that it was not legally passed by the legislature, when the house concurred in a senate amendment to the bill with a vote of only 28 to 26. The
