

# It's toasted

THE slice of toast that is made on your modern gas range is pretty good. But do you remember when they made it over the coals of the kitchen stove, with a long toasting fork? Browned just right, crisp, and buttered hot. Those were the days.

We've gone right back to this fine, simple old idea to make Lucky Strike, the real Burley cigarette. Yes, sir! The tobacco—it's toasted.

We made this discovery after five years of experiment. Before this you couldn't have a ready-made Burley cigarette; flavor wouldn't hold. And you certainly wanted it; look at the sixty million pounds of Burley you poured out of those green, red and blue tin boxes last year. "Blame good tobacco!"

So now go to it; Lucky Strike Cigarettes, delicious, toasted Burley. It's a new flavor—you'll enjoy the idea of the buttered toast.

### How to open the package

Tear off part of the top only, as shown. Cigarettes in paper package of 20 are carried more handily this way, and keep better, less likely to spoil, in your pocket.

## MITCHELL SAYS CUBS WILL BE IN THE LEAD

### This in the Face of Five Straight Defeats—Says Team Playing Good Ball

By H. C. Hamilton  
(United Press staff correspondent)  
New York, May 24.—Fred Mitchell, firm believer in golden destiny for the Cubs, after five straight defeats, is today still certain his National league surprise party has only started and is just getting its breath for another job. Mitchell points with some satisfaction to the fact that, despite losses in Philadelphia and defeat in the first Giant tilt, his team was playing good baseball in every game but one. He declares his pitchers are pitching winning against the Cubs.  
The breaks are always with a winning baseball club. The only exception is that a team wins by making the breaks. That was true of the world's champion Braves and it has been true of most championship clubs. When the Cubs were joy riding on the crest of their ten straight spree, they were making the breaks come to them. Mitchell is unshakable in the belief that the breaks will come again, because his team, he declares, still has the heart.  
Considerable dependency is placed by Mitchell in his pitching staff. His hope lies in his pitchers being able to hold the opposition to a few runs, for at best, the Cubs will not be able to make very many more rallies than there is an actual need for.  
Ernie Koob got his first hit since 1915, but the Red Sox beat him.  
Jim Vaughn's bid start was the best look the Giants have had for some time.  
An error turned the tide for the White Sox.

## Southern Pacific May Have Strike In June

San Francisco, May 23.—A strike of railroad men on the Pacific coast is feared as the result of merger negotiations in on the strike vote now being drifting in on 8000 employees of the Southern Pacific company.  
L. L. Sanborn, general chairman of the Brotherhood of Locomotive Engineers stated today that early reports indicate the men will support their organizations in their demands. The strike vote has been in progress for nearly two weeks. All ballots will have been in by June 10, and an official announcement will be made June 11.  
"The men are asking nothing new," Sanborn declared. "We are asking only that which the Southern Pacific agreed to give us in the agreement signed in 1912. We ask official recognition, the rate of pay that was agreed upon and other conditions."  
"Of course, a strike will not necessarily follow the declaration of the men, but if the Southern Pacific refuses to negotiate after it has learned the attitude of the men, it is the logical move."  
More than 8000 Southern Pacific employees are voting. All are members of the four brotherhoods. The strike vote concerns only the Southern Pacific.

## Cigarette Made from Toasted Tobacco

In this present day of great developments the cigarette manufacturers are not being behind hand—witness the cigarette made from toasted Burley tobacco. For a long time cigarette makers have been rolling their own tobacco, but there was no such thing as a ready-made Burley tobacco cigarette.  
The tremendous popularity of Burley tobacco is evidenced by the fact that 35 billion cigarettes were rolled in 1916 while only 21 billion ready-made cigarettes were sold. Increasing demand for Burley tobacco has been under close scrutiny by cigarette manufacturer for a number of years. Naturally they are taking advantage of such a growing market they have been constantly experimenting to develop a satisfactory Burley cigarette.  
The obstacle to such a result was that tobacco when shredded for ready-made cigarettes lost its flavor. The problem was to discover a method of handling Burley tobacco that when used in ready-made cigarettes it would remain in good condition. This has now been accomplished by the application of a new principle in cigarette-making. Under this new principle the tobacco is toasted, thus accomplishing the one necessary thing to hold the Burley flavor in cigarette form. The new Lucky Strike cigarettes now being introduced are the first successful application of this new principle of cigarette-making.  
This new process of handling tobacco meant the installation of new machines known as "Toasting machines" in the cigarette factories. These toasting machines are of great size, being about 175 feet in length and from 10 to 12 feet in width. Running the entire length of the machine is an endless belt of wire mesh which carries the tobacco over steam coils placed beneath the belt, which toasts the tobacco in transit.  
This new toasted Burley tobacco cigarette has attained tremendous popularity in the east and now Pacific coast smokers will be given a chance to enjoy its rare flavor.  
**A Symbol of Health**  
The Pythagorians of Ancient Greece ate simple food, practiced temperance and purity. As a badge they used the five pointed star which they regarded as a symbol of health. A red five pointed star appears on each package of Chamberlain's Tablets, and still fulfills its ancient mission as a symbol of health. If you are troubled with indigestion, biliousness or constipation, get a package of these tablets from your druggist. You will be surprised at the quick relief which they afford. Obtainable everywhere.

**CHARGED WITH ARSON**  
Medford, Or., May 24.—Mrs. Alice Garwood of Seattle and Mrs. Strickfadden and Mrs. Driefus, of Ashland, are under indictment here today on charges of arson. Local authorities declare they are members of a ring which has operated extensively along the Pacific coast. Mrs. Garwood is said to be the leader and her arrest, it is declared, will stop the ring's operations.

## Fight In To Congress to Determine Scope of Food Control Bill

By J. P. Yoder  
(United Press staff correspondent)  
Washington, May 23.—The big fight in congress to determine the scope of food control by the government during the war was launched today.  
Both in the house and senate the first of the two administration food bills were reported.  
Both provide a thorough survey of all food products in the country, money for seeds, provisions for prevention of wastes and an appropriation to eliminate plant and animal parasites.  
Total appropriations under the measures are \$15,000,000.  
According to the formal report by the agricultural committee to house and senate the bill presented today is designed to "stimulate increased production of foodstuffs with a view to relieving the present emergency, both national and international."

A WORLD MADE BY ROBERT WARWICK and MOLLIE KING in "All Man"

Expensive all star casts do not appear to worry the producers of World-Brady Pictures much. They have been appearing in the last few releases with surprising regularity. The most recent release, "All Man," presents another exceptional cast. Two young ladies who are both big favorites, and each have large personal followings, have big parts which they present perfectly. These girls are Gerda Holmes and Mollie King.  
The two young ladies mentioned above would ordinarily be enough to carry any story of the five thousand foot length. In this play, however, an even bigger star appears. This star is a man for whom the public is daily clamoring and who evidently cannot make pictures fast enough to suit the popular demand—Robert Warwick.  
If you enjoy a splendid story, splendidly acted, do not miss seeing the unbeatable combination here offered which will be at the Ye Liberty theatre on tomorrow and Saturday.
