TWENTY KILLED BY CYCLONE YESTERDAY

Meager Reports From Missouri and Illinois Tell of Deadly Work

St. Louis, Mo., May 31. — Reports from Cape Girardeau to the United Press over long distance telephone today indicated that more than a score of persons were killed and a hundred injured by a tornado which swept through southeastern Missouri and western Illinois late yesterday.

Reports reaching St. Louis over badly crippled communication lines showed that Mineral Point, 68 miles from here, was hardest hit. Forty five were injured at Mineral Point and property damage is estimated at more than \$250,000. Two hundred persons are homeless.

Four are reported dead at Graniteville and two at Bismark.

Several are reported dead at Bonne Terre and Marquand, but all communication to those points is cut off. The twister also swept Salem, Amunthou, Lennox, Maple, Licking, Edgar Springs and Ethah, causing fatalities and injuries but no word from those towns is available this morning.

Many More Dead
 Popular Bluff, Mo., May 31.—Fourteen persons are reported dead at Chautau, a small town of 300 population, east of here, and several more are dead at Zelma, tight miles east, as the result of a tornado which practically wiped out the two towns late last night according to reports here late today.

Four were killed in the north part of Texas county. Marion Jackson, a well known politician, his housekeeper and two children are known to be dead. Reports are meager because of communication facilities being interrupted.

HOUSE GETS BUSY ON PUBLICATIONS TAX

Has Limited Sum To Be Raised to \$1,500,000 — Details Nearly Completed

Washington, May 31.—Having determined on most of the basic changes in the \$1,800,000,000 war tax bill passed in the house, the senate finance committee today took up the publications tax.

Postmaster General Burleson held a long conference with Senator Simmons, chairman of the committee, yesterday and urged a flat increase in second class postage rates to correspond with the increases in first class rates. Burleson does not believe the house "zone system" of increasing tax on publications is fair to the publishers. He does think that a gradual increase in the second class rates from year to year could be satisfactorily met with publishers.

The committee has agreed to limit the sum to be raised by taxes to slightly less than \$1,500,000,000. As the bill now stands in committee, most of the taxes will come from excess profits, liquor, tobacco, special consumption and stamp taxes and increases in the income tax. Committee sentiment is strong in favor of retaining the double tax adopted by the house on distilled spirits and beers. It would act, the committee believes, both as a revenue measure and as an encouragement of war prohibition.

and that leaves 28 cloudy days; for 27 days the wind was from the south or eading towards the southwest and the other four it came from the north; the highest temperature was when the mercury in the thermometer climbed up to 72 on the 27th of the month; the lowest on the first of the month with a record of 38; Decoration day was sunshiny and the close was perfect, and the range of temperature was from 65 to 53. These records are official as given by the official weather reporter at the office of the Oregon City Transportation company. Individual thermometers may differ from the one at the O. C. T. dock, but the government accepts the dock record as official.

THE MARKETS

The following prices for fruits and vegetables are those asked by the wholesaler of the retailer, and not what is paid to the producer. All other prices are those paid the producer. Corrections are made daily.

Decorations day is holding and all markets are closed. Hence no market changes are noted today.

SPLENDID PREMIUMS FREE

Every subscriber of the Daily Capital Journal who receives the paper in the city by carrier will be presented with a new and complete

World's War Atlas

When he pays six months subscription to the paper (\$2.50) at one time.

Every mail subscriber who pays one year's subscription (\$3.00) will receive the war atlas free.

This offer applies to old and new subscribers alike.

Beautiful Needle Book

Those subscribers not wishing the war atlas may have in its stead a handsome beautiful leatherette needle book, filled with a wonderful assortment of needles, crotchet hooks, etc. It is a valuable and very handy premium.

The terms are the same for both premiums: six months' subscription by carrier in the city, or one year's subscription by mail.

 SALEM, OREGON

RED CROSS DOINGS

The Woman's Relief Corps of Sheridan wanted to work with the Willamette chapter of Salem but they were not given this privilege as the Willamette chapter includes only the auxiliaries located in Marion and Polk counties.

The Jolly Neighbors' club was organized as an auxiliary this afternoon by Mrs. F. A. Elliott. The Jolly Neighbors live on the Jefferson road.

The people of the northern part of the city organized at the Grant school house. This auxiliary will include many who paid their dollar for membership but did not affiliate with any auxiliary, waiting until one was organized in the northern part of the city.

Mrs. E. E. Fisher went to Clear Lake this afternoon to organize an auxiliary in that neighborhood and to explain the workings of the Red Cross.

While the Willamette chapter of the Red Cross includes Marion and Polk counties, the Portland chapter will include all those organized in Multnomah, Clackamas, Tillamook, Yamhill, Washington and Columbia counties.

Mrs. Etta Squire Seelye announces that the present membership of the Willamette chapter is 2,987, and that she expects within a month or so this number will be at least 5,000.

In the organization of the Red Cross in this country, the base hospitals are established in large cities such as Denver, Chicago or San Francisco. Then comes the chapters, such as Willamette with two counties or the Portland chapter with six counties. And below the chapters are the auxiliaries. The auxiliaries come to the chapters for work and all work of each chapter is forwarded to a base hospital, which for Salem and the northwest, happens to be San Francisco.

Mrs. Harry E. Clay announces that she is preparing questions for those who have about finished the first course of lectures in the preparations of surgical dressings, for a written examination. A short review of the work will be given before the examination is taken. Those who make an average of 75 per cent are entitled to a certificate to the effect that they are qualified as instructors and may, upon recommendation, be appointed Red Cross instructors in the preparation of surgical dressings. A card certifying to this will be issued by the Bureau of Nursing Service.

According to Henry W. Meyers, who has kept a record of Red Cross purchases, the Willamette chapter has used the following materials: 5,000 yards of cloth, including gauze, muslin, toweling, sheeting, outing flannels and sergeries; 100 pounds of knitting yarn; 12 boxes of knitting cotton; 100 rolls of tape for hospital garments and surgical dressings. This material has been issued by requisitions to the auxiliaries through the surgical dressing rooms at the postoffice.

Henry Hanzen May Be McNary's Private Secretary

Much speculation has arisen over who will receive the job of private secretary to Senator McNary, who leaves Salem this afternoon for Washington to take up the duties of his new office. That it will go to Henry Hanzen, Salem correspondent of the Portland Telegram, is believed certain, as Mr. Hanzen has been a close friend of Senator McNary and managed his campaign for him when he ran for supreme judge. However, Senator McNary says he will not announce the name of his private secretary until after he has arrived at the national capital, and has gotten on to the ropes to a certain extent.

In addition to Mr. Hanzen, the name of George Palmer Putnam has been mentioned as a possible successful candidate. Should Mr. Putnam be selected, it is believed Mr. Hanzen would be made private secretary to the governor.

THE MONTH'S WEATHER

Let's talk about the weather, especially the kind we have been having during the past 31 days. The total amount of rainfall is only 1.00 of an inch, which may be considered greatly under the normal; there has been only two really clear days, one all foggy
