ROAD BOND CAMPAIGN HOLDS FINAL RALLIES

Many Meetings Planned For Today Throughout Marion County

WALTER L. TOOZE, Secretary. Marion County Road Bonds Committee. The good roads campaign in Marion county ends tonight with meetings at Donald and Liberty. Hon. Chris Schobel, ex-representative from Clackamas county, and Walter L. Tooze, with a contingent of Woodburn orators and boosters, will fill the Donald appointment which promises a big turnout of good roads enthusiasts. Ex-Senator I. L. Patterson and Geo. F. Rodgers address the voters at Liberty and a big outpouring of citizens is assured. Both of these gentlemen are splendid speakers and thoroughly posted on all the provisions of the proposed law. The decision now rests with the voters of Marion county and the state. On a correct conclusion depends the progress and prosperity of all our people. If you desire good roads now and an increased business activity in this and all other cities and towns in Marion county and more money for rural roads, you will vote YES, No. 314, on the ballot next Monday, June 4. Not one cent additional tax nor one dollar more in auto license fees will it cost you. The success of this measure means the paving of the Pacific highway from Aurora to Jefferson and the employment of hundreds of working men at good wages. It means \$20,000 saved annually for present repairs on the Pacific highway that will be diverted to the improvement of county roads. Vote for it and place Oregon along side of Washington on the north and California on the south, in the great march of development and commercial activity. Vote for this measure because it is your patriotic duty as a citizen, so to do. The United States secretary of war asks you to build this highway for possible military exigencies of the future. What is your answer? You will be a favorable vote build for the city, county, state and nation, and add millions to our material resources without the additional cost of one dollar to yourself. Every patriot requests this service at your hands. Your state and national government advises our citizens to take this action. Senator George Chamberlain and Governor Withycombe earnestly urge the voters to support this meritorious measure which is the greatest piece of legislation promulgated during the entire history of Oregon. Women of Oregon, preparing bandages and knitting socks for our Oregon and other brave soldier boys is most commendable and to vote for this measure is equally so and may be vastly more important to Oregon citizens. Vote "YES," No. 314. Employees at Salem and throughout

RUSSIA BITTEN BY

(Continued from page one.) that a number of rioters were killed and wounded. The provisional government will endeavor to obtain revocation of the vote of the council of workmen and soldiers yesterday, assuming control of the fortress of Kronstadt, principal defense of Petrograd. The journal of the workmen and soldiers delegates announced today that confiscation of property may be made necessary owing to the slow progress made in obtaining subscriptions to the Russian liberty loans.

Due to Misunderstanding. By William G. Shepherd. (United Press staff correspondent.) Petrograd, June 2.—Nicholas Romanoff may find out from personal experience the rigors of the punishment he used to mete out so freely to Russian political offenders. The workmen's and soldiers' council today adopted a resolution approving the removal of the former czar of all the Russian from his winter palace at Tsarskoe-Selo to the great fortress of Peter and Paul. The delegates were convinced that the autocrat of other days is carelessly guarded under the present arrangements. Officials emphasized today that the action of the soldiers and workmen in Kronstadt in assuming control of the fortress did not indicate friction between the provisional government and the soldiers but merely a misunderstanding. The fortress has been in charge of a committee and it was assumed here personal differences between duma representatives and the soldiers and workmen members were responsible for the latter's determination to assume control. Peter and Paul fortress has housed many a victim of Russia's secret police of the other days. Its gloomy corridors date from the very foundation of Petrograd itself. The fortress is situated on an island in the Great Nova river, in the city limits.

New England states and the rest of the east are equipped and ready for the draft. In Pennsylvania boy scouts and girls and women defense leagues will make house to house canvasses in Philadelphia and other cities to rout out the young men. Stock exchanges in Boston, New York and other eastern cities will close June 5. The exchanges have urged their respectable members and clerks to register. Virginia is prepared. Governor Stuart is a proclamation making June 5 a state holiday. The authorities have enlisted negro ministers to spread the word among their flocks that the colored boys must register. In Detroit special secret police will keep careful watch on 2000 suspected anti-conscriptors and I. W. W.'s of draft age. Manufacturers will demand to see each employe's registration card
