King Coming Down Causes Stocks To Go Up

New York, June 13.—The New York Evening Sun financial review today said: There were several developments of the past 24 hours which operated to make the short interests nervous in today's stock market and which caused active covering, with prices on a rising scale practically through the list in consequence. The steel issues were notably strong under the stimulus of the announcement of the steel corporation in advance of its dividend payments. Steel and equipment shares gained one to three points or more and in lesser degree in the entire industrial list with few exceptions. Another bullish factor was the de-thronement of King Constantine of Greece. However, the market remains in the hands of the professional traders to a large extent. Trading was active today but commission houses took little part, being engaged for the most part in helping along the war loan.

Rich Must Respond To Red Cross Call or Movement Will Fail

The particular and especial contribution to America of capital is the way in which the big campaign for the \$100,000,000 war fund for the Red Cross is generally sized up. Such an amount will never be raised throughout the country, unless men and women with capital are roused to their privileges and obligations in the matter. That this is generally recognized on the part of moneyed men is evidenced by the character of the contributions already pouring into the fund. The foremost men all over the country have not only laid aside their business but have financed the gathering of the funds, and in addition to this have made large contributions. A safe estimate is that fully half of the amount subscribed must come in large amounts. The same is also true of the various campaigns in the local cities. It is felt that Salem will not be able to make her share of the big fund, if the wage earners and men on salaries are solely depended on, together with a few fugitive dollars. The task ahead of the local committee is distinctly that of reaching the city's capital. Incidents given by H. W. Stone, organizer for the Northwest, at a talk at the Commercial club last evening, illustrate the splendid spirit manifested throughout the northwest, on the part of men with money. "I went into Wallace, Idaho," said Mr. Stone. "Wallace asked me how much they were expected to give. I told them the figure that had been given was \$50,000. And Wallace swore. Then they swore again. When I told the men of Idaho they were expected to raise \$250,000 in the state, they blew a fuse. But the spirit of the thing got hold of them and they said to me, 'Idaho won't try to raise \$50,000; Idaho will try to raise \$350,000.' "Seattle raised its assessment from \$250,000 to \$300,000 of their own accord. And so the matter has gone throughout the country. The war fund like liberty loan is the special responsibility of big men, big business and big money. This is no two-bit campaign."

100 Lumbermen Are Charged with Conspiracy

Washington, June 13.—The federal trade commission today issued a formal complaint charging more than 100 western lumber companies with conspiracy to defraud prices and destroy the business of mail order houses engaged in selling lumber and building materials. The commission summoned the lumber dealers to appear at Washington July 31 to answer the charges. The commission's complaint alleges that the retail lumber dealers, in an effort to stifle the competition of the mail order houses, have resorted to unfair methods to destroy their credit and standing. The commission particularly attacked the activities of Luke W. Boyce and Platt B. Walker, of Minneapolis.

Takes \$650,000 Worth

Sacramento, Cal., June 13.—John F. Neylan, chairman of the state board of control, today completed arrangements for the purchase of \$650,000 worth of liberty bonds with money from state funds. Five hundred thousand was taken from the board of control fund, \$100,000 from the industrial accident fund and \$50,000 from the teachers' retirement fund.

Trial of Mrs. Mooney Drags Along Slowly

San Francisco, June 13.—Bit by bit, the picture of incidents and details surrounding the explosion of a bomb at Steuart and Market streets a year ago was being completed today in Judge Sewell's court, where Mrs. Rena Moon ey is on trial for her life. Four physicians took the stand during the morning session to tell of wounds they treated and the condition of injured persons who came to them for treatment. They were: Doctors Jeremiah Mehr, Oakland; Howard Adler, San Francisco; W. C. Eisenmuller and M. S. Greenwood of St. Francis hospital. Fred Hinkle, newspaper reporter, also described scenes following the explosion. An announcement that Estelle Smith, star witness in the Billings trial, will be called as a witness by the state, proved to be the most interesting development of today's trial. She has already been subpoenaed, it was admitted. At the trial of Thomas Mooney she did not appear for the prosecution. The defense alleges it can impeach her testimony.

Through the efforts of the Nurses' association, a Red Cross auxiliary, Dr. Ralph Matson has arranged to come to Salem Friday evening and deliver an address on the Red Cross work in France. Dr. Matson gets his information first hand and knows the actual conditions along the fighting lines where there is a vastly greater need of hospital supplies. He worked with the French hospital corps and is just home and will tell the people about it at the armory Friday evening. There will be no admission charge.

Members of the Salem class of candidates for the officers reserve corps who took the examination for admission to the first training camp at the Presidio are receiving their application papers back, with the notification that formal application blanks for this second camp will be sent them as soon as they arrive at the headquarters of the western department at San Francisco. New application must be made, according to a ruling of the war department. Men who are above the age of conscription will be preferred at this camp and those within the prescribed age will have difficulty in gaining admittance unless they possess unusual military qualifications.

Although the exercises this evening in Willson park of the presentation of a flag and flag staff to the city by the local Elk lodge do not begin until 8 o'clock, the chances are that long before that hour thousands of people will be massed around the band stand and between the stand and fountain where the flag pole is to be erected. The program for the exercises is one of great interest. Mayor Walter E. Keyes, exalted ruler of the Salem Elks, will preside and be in charge of the ritualistic work. The Elks, fraternal organizations and patriotic also will meet at the Elk lodge and line up for the march to the park. The Cherrians will meet in uniform and march from the armory.

Kieth M. Harris, of this city, enlisted in the hospital corps of the navy and left this morning for Portland. Moving pictures of "Life in the Navy in Times of War and Peace" will be shown at the Oregon theatre July 6 and 7. This 2,000 foot reel is owned by the war department and is being shown at present on the Pacific coast. They are in charge of a man from the navy who will tell the story during the running of the film. A few days later people in Salem will have a chance to see a real navy torpedo. In its educational campaign as to the work of the navy, this department is showing in the west a torpedo in order that the landman may have some idea as to its actual size.

Saturday at 10 o'clock in the morning is the final hour of the filing of the petitions of those who wish to become candidates for school director for the election to be held next Monday. The ballots will be printed Saturday ready for the election booths Monday morning. The voting places are those generally used for city elections and are as follows: First ward, Garfield school; Second ward, City Hall; Third ward, office of Wm. Brown & Co., on South Commercial street; Fourth ward, sales room of Halvorsen & Burns, Trade and High streets; Fifth ward, Grant school; Sixth ward, Gidding's hall on East Center street; Seventh ward, Lincoln school. Candidates already announced are E. T. Barnes, of the Barnes store; Walter C. Winslow, the well known attorney; and Sam A. Hughes, brick contractor.

Trouble at Butte

Butte, Mont., June 13.—One thousand miners have quit work, five hundred additional national guardsmen have been ordered here in anticipation of rioting, and work is at a standstill in several of the large copper mines, as the result of attempted organization of a new miners' union by I. W. W. agitators and Irish home rule radicals, who declare they will mine no copper to be used in a war to help England.
