GERMAN ATTACKS EVERYWHERE BEATEN

After Heavy Bombardment Made Attacks Which Are Repulsed

Paris, June 23.—Germany's assault against the French lines reached the stage of a general counter offensive movement today, with violent fighting around Vauxhallon, Flain, Boyier, Froidmont, Chevigny, Chevreux and other points. The French official statement today declared the attack was everywhere fruitless.

"Violent night bombardments were followed by a series of enemy at-tacks in the regions where there has been much fighting recently, near Vauxhallon and south and southeast of Flain," the statement said. "All were failures and we inflicted heavy losses on the enemy."

"Between Boyier and Froidmont the struggle of the sharpest character. The enemy extended his front attack east of Chevigny to north of Froidmont in the form of multiplied efforts. This was the same section in which he failed last evening."

"In the latest attack the waves of the assault were broken up by our fire and the enemy was unable to reach our lines or debouch from the day."

"Other attacks east of Cavaliers De Courcy, Chevreux and Chamfreits failed."

"French raids at various points were successful."

For nearly a week now the Ger-mans have apparently been preparing for a powerful drive in the region where the French forces in their great offensive encroached close to Leon.

The fighting has been extending over nearly 18 miles of this front. Three days ago the Germans began making powerful drives at various points where the French commanded the high-er ground. Today, apparently, these scattered attacks have been consoli-dated into a co-ordinated general drive.

Spaulding Employes Especially Thanked by Executive Committee

By reason of the fact that a group of solicitors for the Red Cross met with such generous response from the employes of the Spaulding Logging Company, the following resolutions of appreciation were sent by the execu-tive committee of the Red Cross war fund, to Charles K. Spaulding, who lies ill in the Good Samaritan hospital in Portland.

Whereas, a soliciting committee of the Salem Red Cross Campaign General committee solicited subscriptions from a mass meeting of the Spaulding Log-ging Company's employes this day,

And Whereas, the patriotic and lib-eral response from these humble work-ers has been most generous and self-sacrificing,

And Whereas, the General Commit-tee of one hundred men together with the Executive Committee, assembled at luncheon, desire to express their ap-preciation of the example set by these workmen and to acknowledge the spirit of organization, from which the same springs, therefore, be it,

Resolved, That the Executive Com-mittee, together with the General Cam-paign Committee of one hundred busi-ness men of the city of Salem take this means of expressing their appreciation, to Mr. Charles K. Spaulding, as pres-ident, of the fine spirit of patriotism and self-sacrifice prevailing in the ranks of the Spaulding Logging Company.

August Haeckstein, Oscar B. Gingrich, T. A. Livesley, Executive Committee.

DRAFTING WILL BE DONE AT WASHINGTON

Each Member Drawn Will Call for Man Having It in Each District

Washington, June 23.—Drafting of 625,000 men for the national army will be conducted entirely in Washington, according to the conscription regula-tions approved by the president, which will be made public next week.

In the United States there are ap-proximately 4,000 registration districts. In each there is a separate series of registration numbers beginning with number one.

When the drawings begin, probably early in July, a board in Washington will select a number through the jury wheel or other lottery system. That number will be telegraphed to each registration district and all the men on the registration lists who have that number will be called.

It will be up to each man individual-ly to ascertain whether he is selected. He will not be required to report un-till a general summons is issued for all drafted men to come forward for ex-amination.

At that time he will have opportu-nity, if he desires exemption, to present his case to the local exemption board.

It will have power to decide physical exemptions and excuses based on de-pendent families.

Occupational exemption pleas must be heard before the appellate boards. If a drafted man desires, he can ap-pel to a national exemption board, which the regulations create and which is the supreme court of exemptions, to make sure that no eligibles escape, the names and numbers of drafted men will be made public. Original registra-tion lists are also being made public so "blacks" may be detected by their neighbors when their names fail to appear on the list.

While they have been switched to other companies, Walter L. Toole, Jr., R. S. Kronson and Carl Penton remain at the Presidio and will continue their train-ing for the infantry. James French has turned to the cavalry branch and will probably be stationed in Texas—Dallas Observer.

MUST NOT OVERLOOK THE OTHER BRANCHES

Staff Officer with Pershing Points Out These Must Do the Fighting

(United Press Staff Correspondent.) Paris, June 23.—America is talking too much about that vast fleet of aero-planes—and not paying enough atten-tion to the equally vital infantry and artillery arms of offense, in the opin-ion of a high member of Major General Pershing's staff. After reading cables to French papers on the nation-wide agitation in America urging congress to approve huge aero fleet plans, he declared today:

"While supremacy in the air is im-perative, aeroplane alone are not good to win the war. There are three big elements—infantry, artillery and aviation. The three should be consid-ered in balanced co-ordination. One arm is as important as the other."

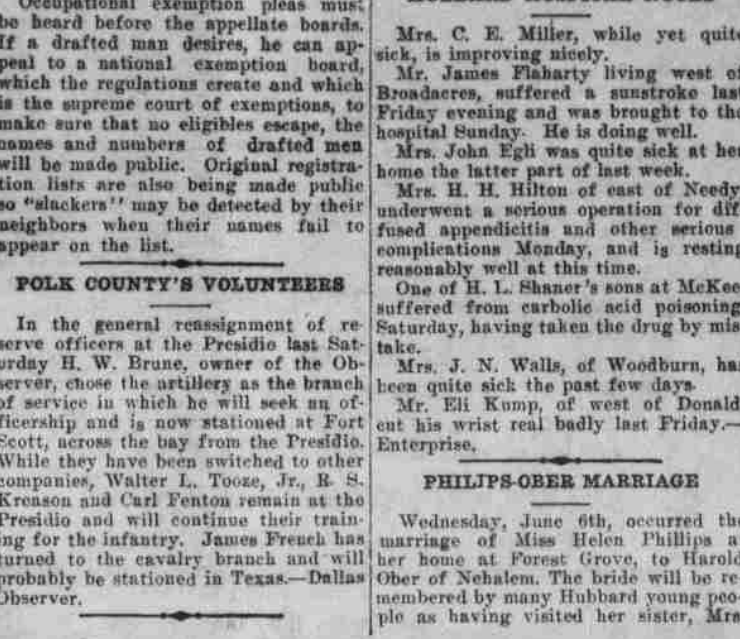

"In a modern war such as this, the artillery depends on aviation, the in-fantry depends on the artillery."

"It would be foolish to have superi-ority in infantry, if we did not have the heavy guns to blast out the enemy and tear up the otherwise uncuttable wire defenses in front of his position, before the infantry went into action."

"It is likewise just as ill-advised to have an overbalanced aviation branch if we do not have sufficient guns."

IS JEFFERSON SMOKING?

Mr. I. A. Hayer, who lives well up in the Polk county hills, phoned the Cap-ital Journal this morning that Mt. Jefferson was smoking. Mr. Hayer feels confident it was not a cloud tangled up with the top of the moun-tain, but says the puffs of smoke were distinct and from his place a perfect view of the mountain is obtained.
