### HOSPITAL SHIP ASHORE

Halifax, N. S., Aug. 1.—A hospital ship from England with nearly six hundred wounded or sick Canadian troops aboard, went ashore near Chibucto head outside the harbor today. She is resting easily and the sea is smooth.

### Stock Market Dead From Too Much Heat

New York, Aug. 1.—The New York Evening Sun financial review today says:

Today's stock market was dead. The extreme heat not only reduced the attendance, but on the floor of the exchange and in the commission houses, but sapped what little energy those who were at work possessed.

The result was a sluggish market of wholly professional inspiration. The undertone in the industrial department was strong and at intervals some of the standard shares like United States Steel, Bethlehem Steel, "B", Studebaker, Wyllis Overland and Crucible Steel made substantial gains, although net changes were not considerable.

The late afternoon trading was practically at a standstill with prices well maintained, however.

### American Tanker Sunk by Submarine

London, Aug. 1.—The American steamer Motano was torpedoed and sunk by a submarine yesterday, the admiralty announced today. Twenty two survivors were landed.

The Motano was a steel screw, three masted ship of 2730 tons, property of the Standard Oil company of New Jersey and registered at New York.

### President Wins Food Control Fight Completely

Washington, Aug. 1.—Yielding to President Wilson's demand for elimination of the so-called "congressional war committee," house and senate conferees on the food control bill reached an agreement this afternoon.

In forcing a one-man food administration and compelling elimination of the war committee, the president won a signal victory.

The bill now goes to house and senate for final approval. While there is certain to be a storm in both branches, against the conference action on the war committee, it is believed further discussion of the measure will not be prolonged.

The bill as agreed upon prohibits distillation or importation of distilled spirits, authorizes the president to determine whether beers and wines shall be manufactured or imported and permits him to seize all spirits in stock or bond needed for re-distillation for government purposes. He is not expected to take advantage of this.

The control features of the bill include food, feeds and fuel, kerosene, gasoline, all implements and tools used in farm work or mining and authorizes the federal-trade commission to fix prices on coal.

It prevents hoarding or speculation in foodstuffs.

sey and registered at New York.

### 25 Are Missing

New York, Aug. 1.—Captain Ernst Stratton of West Philadelphia, commanded the Standard Oil steamer Motano, destroyed by a submarine.

Standard Oil officials said today the officers and crew totalled 47. Only 22 have been reported landed.

Much skirmishing is expected over Senator Stone's proposal to amend the resolution to provide the government shall pay persons whose property is rendered valueless by prohibition.

### WILL NOT TALK PEACE UNTIL AFTER VICTORY

### Will Not Consider War Ended Until Germany Is Conquered

By Carl D. Groat.

(United Press Staff Correspondent.)

Washington, Aug. 1.—The United States will talk specific terms only when Germany is beaten.

This is the decision of the government as the allied democracies enter upon the fourth year of the world struggle. Behind it are found the reasons for America's refusal to support, now, retention by France of Alsace-Lorraine peace proviso. It further reveals the United States is committed to press through to the finish, side by side with her allies. And it may be stated with authority that there is an understanding among all these nations—America included—that there will be no separate peace.

The government today is concerned only with victory.

The government refuses to state even what terms it has in mind—if any—though the belief is that the allies now have a common understanding with this country as to how far the war should proceed and what must be wrested from Germany when victory comes.

### WHITE SOX TAKE ONLY THREE OUT OF EIGHT

### In Same Time Their Red Hosed Rivals Have Not Lost a Game

By H. C. Hamilton.

(United Press Staff Correspondent.)

Dope For the Fans.

If the Red Sox fail to properly maintain their winning streak today and if the White Sox should accumulate a victory, the standing will be turned over, with the result:

Chicago .626; Boston .621. Detroit is eight and a half games in the rear.

If Philadelphia should win today and Cincinnati lose, the fighting second, third and fourth place National league clubs would line up as follows:

St. Louis .542. Philadelphia .541. Cincinnati .529.

### White Sox Slump.

New York, Aug. 1.—Alexander C. Slump has laid hold of the White Sox. Riding the pitching staff, harrassing the catchers and threatening the fielders, the old demon wrecker of pennant hopes and ambitions has faded the Chicago pennant hopes for the time being, and unless quickly hanged in public, will have enjoyed the more chuckle at the expense of a favorite.

Since beginning an eastern invasion, the White Sox have won only three out of eight contests. In the same lapse of time the Red Sox have lost not a single contest. Today the Boston gang stand in first place, a game separating them from their White Hosed rival.

The final crack to make it complete appeared in the Comiskey pitching staff when Eddie Cicotte took a beating at Boston. The Red Sox maced him for 13 hits. The first victory of the Yankees was a 14 inning affair, in which Ben, Danforth and Williams were handled for 1 safeties.

On July 28 the Chicagoans lost a pair of conflicts. Faber took the count in the first and Scott in the second. Faber was pounded for only five blows while Scott suffered 12. Eight hits contributed to the White Sox downfall Monday.

It is now up to Faber, Russell, Benz or Scott to halt the Red Sox march. Of this quartet Benz or Faber is most likely to turn the trick, although Russell has shown in flashes that he is ready for creditable work.

Four errors meant nothing to the Tigers. The Senators made five other ones and lost.

The Cardinals dropped a full game lower as the Phillies blanked them.

One more performance like that from the Reds and they'll be in fourth place.

Fourteen hits constituted the main reason for a Brave victory in the second game with the Cubs.

Two Athletics were hit hard by the heat and had to retire.

### One Heat Won.

New York, Aug. 1.—The heat got the fight game in New York. A scheduled ten round bout between Billy Miske and Gus Christie was postponed because of the torrid temperature.

### SEATTLE CARS WILL RUN AGAIN TOMORROW

### President of Company Signs Agreement—Strikers Will Ratify It

Seattle, Wash., Aug. 1.—A peaceful victory for 2,000 Tacoma and Seattle street car men, and the resumption of street car service Thursday morning, following a complete shutdown for more than two weeks was assured at noon today when President A. W. Leonard of the traction company signed the agreement which resulted from peace negotiations begun yesterday. All that remains is the ratification of the agreement by mass meetings of strikers in Seattle and Tacoma.

The Seattle carmen will meet at 2 o'clock and in Tacoma it is said a meeting will be held at the same time. There seems no doubt as to the acceptance of the agreement by the strikers. As soon as the agreement is ratified by the strikers arbitration plans will be laid. Attorney Charles Reynolds for the strikers has asked 10 days to prepare their case for presentation to the board of arbitration.

The peace terms provide:

All disputes between the men and the company over wages and hours to be settled by a board of arbitration.

The reinstatement of all men discharged in Seattle and Tacoma for joining the union.

Both sides agree that employees shall have option as to union affiliation. Company will show no prejudice against organized workers, and unions will not discriminate against non-union employees.

The company to immediately assemble all imported strikebreakers at the Georgetown barns and as soon as possible, deport them.

All employees to return to work before 9 a. m., Aug. 5.

The agreement to remain in force from August 1, 1917 to August 1, 1918. All awards under the arbitration to date from August first.

### BATTING SENSATION OF THE CENTURY.

At present he is second in batting but is pressing the pace maker, Eddie Rousch, of Cincinnati.

Has No Encouragement for Embryo Movie Folks

A word of warning to those thinking of becoming "movie" actresses was given this morning by A. E. Laflar, manager of the Oregon theater, who has been in San Francisco and Los Angeles for a few weeks of investigation into the "movie" business.

"Tell them there are thousands of people waiting to become actors and actresses," he said. "The cities where the movie studios are, swarm with women, girls and men out of work, looking for a place before the camera. Chances are very few, and 'pulls' are hard to get."

Mr. Laflar said that life off the screen was anything but what one would imagine. Film favorites who appear short of stature in the pictures, tower above a common man, while Charlie Chaplin in real life is scarcely recognizable without his mustache and cane.

"The northwest leads, everything in theaters west of Chicago," he declared. "Those of the south are jokes. While the buildings are filled to capacity all the time, the little theatres, the decorations, the equipment is very poor compared to that of the northwest. The California theaters do a wonderful business."

Mr. Laflar went to Portland yesterday morning to see the new Liberty theater there. This, he insisted, was the greatest theater in the west.
