

# Barr Says:

You can not get a satisfactory pair of glasses by just buying two lenses and a metal frame.

You must have skilled service first. The refractive errors of your eyes must be measured accurately. From these measurements the optometrist figures out the formula from which your lenses are ground.

The grinding of the lenses, the selection of the proper mounting to meet your individual needs, and the final adjustment of the glasses to your face, are all operations requiring highly specialized skill.

But for these operations to be of value to you they must be based on a careful examination of your eyes. That is the keynote to satisfactory glasses.

I have the skill and experience which comes from examining thousands of pairs of eyes during the thirty years I have followed my profession in Salem.

## MOB IN OKLAHOMA

(Continued from Page One.)

country, with a posse, is headed for the scene and one report says that the mob waylaid Sheriff Groll and Deputy Gross of Seminole county late yesterday.

Thirty shots were reported fired in a gun battle that ensued.

The Frisco bridge over the Canadian river near Francis, was set afire in three places and partly wrecked by dynamite.

All wires north and south of Francis have been cut.

Governor Brown, of the Seminole nation, telephoned authorities here saying the situation is alarming and dangerous. He said that hundreds have joined the mob.

The mob, composed mostly of tenant farmers, many of them negroes, is marching now toward Muskogee, threatening to storm the hardware stores there for more arms. All members of the mob are heavily armed.

In its march through the country the mob is impressing recruits.

Washington, Aug. 3.—Reports of the threatened armed resistance to the army draft in isolated points of Georgia and Western North Carolina, are being investigated by the department of justice.

Mountaineers and farmers in these regions are reported to have supplied themselves with new Winchester rifles and ammunition to fight the draft.

Special investigators have been assigned to make a careful inquiry and stern measures will be taken to repress any rebellion.

The reports were submitted by international revenue agents and immediately transmitted to the justice department.

They state that speakers are touring mountain and rural sections, declaring the draft law unconstitutional and advising farmers and mountaineers to resist it.

A new drastic ruling to cover "marriage slackers" is being prepared by the government. After a conference with Secretary Baker, Provost Marshal General Crowder is drafting a message to all state governors on how to meet exemption claims following hastily contracted marriages.

When the boards get through with these claims, there will be a smaller per centage of exemptions than have appeared likely in the first reports, Crowder said today.

## Pershing's Army Get Supplied with French Helmets

By J. W. Pegler, (United Press Staff Correspondent.)

With the American Expeditionary Army, Aug. 3.—French helmets for Pershing's Sammies arrived today and General Pershing, in their training for the trenches, the Sammies have been wearing the exact equipment they will wear on the battle front.

Two accidents of minor nature added excitement to the camp today. One regimental pitcher let fly a wild pitch in one exciting baseball game, the ball striking down an American interpreter and a French lieutenant.

The second might have been of a more serious nature. Sammies practicing with live grenades threw one too close to a box of the same sort of French weapons and the box exploded. No one was injured.

## Prices Unchanged In Chicago Markets

Chicago, Aug. 3.—The influence of light rains over the corn belt was offset by an absence of outside interest in the market today and grains were firm.

December corn opened 1-2 up at \$1.18 1/4 and declined 1-8. May opened 1/4 higher at \$1.16 and later was unchanged.

September wheat opened six cents lower at \$2.25 and advanced 3 1-2.

September oats was up 1/4 to 67.8 and declined 1-8. December opened unchanged at 61 and declined 1-2.

Provisions were generally higher on an active and strong hog market.

## CHINA CAN GO TO IT

## TOOK CHARGE OF TRIAL

## AWAITING MOTHERHOOD

Women, almost without exception, are prone to nervous apprehension when on the road to motherhood. The woman knows that however many people there are close or dear to her, she must face the crisis alone.

There is nothing to be prepared for when at such a time that receives such heartfelt expressions of gratitude as does the absolutely safe, tried and reliable preparation, "Mother's Friend."

By the use of this penetrating ointment, the expending muscles of the abdomen relax naturally when baby arrives. The nerves, ligaments and tendons beneath the skin are soothed; the tendency to morning nausea is avoided, and the expectant mother enjoys days of cheerfulness. The nights are not disturbed with nervous twitchings and the crisis is one of great happiness and less pain.

Get a bottle from the druggist and write the Bradford Regulator Co., Dept. N, 516 Lamar Building, Atlanta, Ga., for their interesting little book, "Motherhood and the Baby." It will be sent without charge to any woman. "Mother's Friend" is a wonderful help to nature and no woman should fail by any chance, to apply it herself night and morning.

# MAN WHO SUICIDED FOUND TO BE WOMAN

## "Samuel Ackerman" Posed Successfully As Man, and Even Married

Toledo, Ohio, Aug. 3.—Police were unfolding today the mystery of "Samuel Ackerman"—a woman who for a dozen years posed as a man, who "married" another woman and who finally ended the deceit by suicide in the Maumee river here.

They proceeded on the theory that Ackerman may have ended her life fearing exposure through the physical examination of an army board. She was 29 years of age.

"Ackerman" had not registered for army service, but the theory was she feared apprehension as a slacker.

Because the woman for many years had been known as "Samuel Ackerman" the official, police have been unable to learn her real name.

While living in New York, soon after coming from Russia, "Samuel Ackerman" married a New York girl. He brought her here, supporting her as an optician. But she obtained a divorce here over two years ago and married. She is now Mrs. Sarah Wise and is the mother of a year old baby.

"Ackerman's" personal effects are entirely those of a man, including a razor, which appeared unused.

The body, tied down by an eight pound weight, finally came to the surface yesterday. Only when the body was examined at the morgue was it found to be that of a woman.

## NEW WAY TO REMOVE HAIRS CREATES SENSATION

(Actually Takes out the Roots)

What beauty specialists regard as one of the most important discoveries in recent years is the phelectine method of removing superfluous hair. Its great advantage, of course, lies in the fact that it actually removes the hair roots. It does this easily, instantly, harmlessly. Sufferers from the affliction named need no longer despair. The actual hair roots come out before your very eyes, leaving the skin as smooth and hairless as a babe's.

Because it offers such complete relief, a stick of phelectine is the most inexpensive thing a woman can buy for the removal of hairy growths. For the same reason druggists do not hesitate to sell it under a money-back guarantee. You can use it with entire safety; it is so harmless one could even eat it without any ill effect.

of the differences which threatened to precipitate a strike of 5000 trimmen of the Southern Pacific railroad is near, both sides declared today. A final conference between W. B. Scott, general manager of the road, and the committee representing the four railroad brotherhoods began early today.

Neither party to the controversy would make a statement as to terms of settlement, but it is understood the company and employes will amicably adjust all grievances on which they can agree and the others will be arbitrated.

Today's meeting is a continuation of a three hour conference late yesterday.

## PLEASE END TRIAL

San Francisco, Aug. 3.—Plea of guilty to charges of violating American neutrality by recruiting in San Francisco for the British army previous to America's entry into the war, will be entered by Dr. Thomas Addis and Ralph K. Blair, according to well defined reports circulated today. Such pleas would end a long legal fight by Blair and Addis against the charges.

## THE COST OF IT

Washington, Aug. 3.—The total cost of registering ten million men for army service and of drafting 1,187,000 men under the draft act, will be \$8,600,480, Secretary of War Baker said in a letter today, asking congress for an additional appropriation of \$6,002,067 to cover the draft cost.

## YOU'LL HAVE Real Cash to Spend AFTER YOUR Summer's Work

The place to trade to the best advantage is at an economically managed spot cash store, where you don't have to help pay for losses from bad accounts, extra bookkeepers' salaries and expensive delivery systems which will take a spool of thread to the city limits just as an accommodation. Did you ever stop to think that YOU pay for all this service which is rendered to OTHER customers?

Even the UNITED STATES GOVERNMENT is requesting merchants all over the country to be less extravagant in their special service departments and help keep prices down to a reasonable figure.

We have been following the plan for Twenty-five Years which is now being recommended by the Government.

That's why our prices are lower on an average throughout the store than you can find elsewhere. Prices on all lines of merchandise are advancing at an alarming rate. We are doing our best to keep prices down and our heavy stock of goods bought before the recent advances enables us to sell practically everything far below the present market values and in many cases actually below present wholesale prices.
