KAISER CALLS HIS LEADERS TOGETHER

Most Imposing Array of German Leaders Assembled Since War Began

Amsterdam, Aug. 9.—One of the most important conferences in months has been called by the kaiser at grand headquarters.

Chancellor Michaelis has left Berlin for headquarters in response to a summons from the kaiser, reports received here today stated.

Participating in the conference will be military, governmental and diplomatic leaders of the empire.

Those attending furnish one of the most imposing arrays of German leaders that have come together since the outbreak of the war.

In conference with the kaiser will be the crown prince; Field Marshal Von Hindenburg, chief of staff; Quartermaster General Ludendorff, Hindenburg's right hand man; Chancellor Michaelis; Dr. Kuhlmann, the new foreign secretary; Vice Chancellor and Minister of Interior Helfferich and Dr. Von Stumm permanent secretary of the foreign office.

In view of the recent changes in the cabinet, it is believed the entire military and foreign policies of the empire are to be discussed, and a definite program outlined.

CONFIDENCE IN KING

London, Aug. 9.—Complete confidence was expressed today that with inquiries in the house of commons as to the assurance the kaiser claimed King George gave him that England would keep out of the war, it will be found that His Majesty acted with all propriety.

Unofficial statements today were that Prince Henry had undoubtedly deliberately misstated the facts relating to his conferences with the king.

German Officers Will Be Interned

Portland, Or., Aug. 9.—A. Von Alvensleben, German reserve officer arrested here today was crowned Portland's most temperamental prisoner.

He refused to sleep in comfortable quarters especially fitted for him in the county jail because an American flag was draped from the wall, and asked to spend the night in solitary confinement. He was placed in a steel barred cage. On one side were 56 Chinese tongmen indicted for murder and on the other several I. W. W.s.

This morning Von Alvensleben refused to eat mush and milk with the rest of the prisoners, and United States Marshal Montag took him to the Benson hotel for breakfast.

Von Alvensleben will be taken to Seattle for internment late today or tomorrow.

BOY DOES NOT KNOW HIS FATHER IS DEAD

Law Moves Slowly In Bringing Mother Who Orphaned Him to Trial

New York, Aug. 9.—Little Jack De Saulles does not yet understand that his father is dead. The innocent cause of the tragedy in which his mother, Mrs. Bianca De Saulles, shot and killed her former husband, still believes today that his father will return to him.

Meantime the law moved slowly on its way toward bringing to trial the Chilean society girl—the mother—to trial. The inquest was held this afternoon at Mineola. The witnesses were to be Marshall Ward, a guest in the De Saulles home on the night of the shooting; Susanna Montau, Mrs. De Saulles' maid; Sheriff Seaman and Dr. Henry Warner, coroner's physician, and Constable Thorne, who arrested Mrs. De Saulles.

The imprisoned woman spent a restless night. She asked that a physician be summoned early today. When Henry Uehring, heard of this he declared he would redouble his efforts to arrange for her son to visit her.

BETHLEHEM STEEL IS DISPOSED TO BALK

Cannot Agree With Secretary of War As To Prices—Story Is Denied

Washington, Aug. 9.—The Bethlehem Steel company and the war department are at odds over the price to be paid for steel rails for use in France.

The steel company refused to supply these rails at rates quoted by Secretary of War Baker and the matter is now under negotiation.

Secretary Baker said today the Bethlehem order was very small compared to the total output of the plant, and denied there was any relation between a decline in the Bethlehem shares and the controversy with the department.

It is understood that Baker's price was \$40, whereas the steel company wanted considerably higher. Baker refused to furnish any figures to the press, saying that his reason was he did not care to discuss the matter of rails for France.

Behind the Bethlehem refusal to reach Baker's price is understood to be a general agreement among steel makers to delay furnishing their products to the government until the federal trade commission has determined a reasonable price basis. The commission has under consideration a cost plus percentage system for all war steel.

Baker indicated he does not regard the incident as seriously interfering with the rail work in France. The war department is assisting in re-constructing some of France's rundown railway system, and is especially interested in having good transport facilities between the seaboard and the American camp.

Refusal Is Denied

Bethlehem, Pa., Aug. 9.—Officials of the Bethlehem Steel company here today denied that Charles M. Schwab, head of the concern, had made the statement attributed to him, that the Bethlehem interests would not furnish steel rails for the allies at the price fixed by the government. They said Schwab has been on a vacation all week, not occupying himself with business. Schwab's whereabouts were said to be unknown here.

Arrest Physicians Who Helped to Avoid Draft

St. Louis, Mo., Aug. 9.—Arrest of physicians who have aided men to evade the draft is expected here today, following an investigation started by federal agents last night after discovery that men drafted had evaded the call by use of drugs which caused them to be rejected by physical examiners. Scores of men appearing before examining boards were found to have heart trouble and defective eyesight. In several wards examiners found that through use of digitalis and atropine physicians had "doped" the men so that they were temporarily unable to pass examinations.

Slavs Fighting Again

London, Aug. 9.—Extensive movement behind the German lines, reported by aerial observers today, were believed to indicate growing nervousness on the part of the enemy as the days pass without a general resumption of the Russian offensive.

Scattered thrusts are being made at the German lines along the entire front by both British and French forces. Field Marshal Haig, having established a reputation for "mixing his blows" there is the greatest speculation regarding where the next big push will come.

Having impressed upon the Russian people the necessity of a stern, dictatorial administration in a new proclamation, Premier Kerensky is organizing his new government today. With this administrative work disposed of, it would bring no surprise in London to hear that Kerensky has again left for the front to inspire the Russian troops.

Latest war office reports stated that the Slav soldiers are fighting with the greatest bravery on the Gallian front. Continued progress is reported in the offensive launched against the German lines, and in the region of Kimpolung, where the Germans are attacking, good order is being maintained, despite reverses met.
