Readily Yield to This Old Remedy

Successfully used for fifty years. Eczema and similar skin troubles come from a disordered, impure condition of the blood, and they can only be cured by giving the blood a thorough cleansing, and removing from it all traces of impurity. This is why S. S. S. has been used so successfully in hundreds of cases of Eczema and other skin eruptions.

This wonderful remedy is without equal as a blood purifier, being probably the oldest blood medicine on the market. It has been sold by druggists for fifty years. You are invited to write to-day for complete and full advice as to the treatment of your own case. Address, Chief Medical Adviser, Swift Specific Co., Dept. H Atlanta, Ga.

British Slackers Pose As War Veterans

London, July 20.—(By Mail)—The Provost Marshal has discovered a new way of circumventing army slackers. He won't let the London lock-shops sell military or naval uniforms any more because slackers were buying them and posing as fighters on extended leave.

The slacker knows no modesty. If he can't get the uniform of a brigadier—well, a field marshal's tunic will do, with lots of medals. Captain H. T. Hewett, handling the prosecutions for the illegal sale of uniforms, obtained three convictions in one day, an indication of the wide spread of this type of evasion. One dealer was fined \$275 for selling a civilian the uniform of a general staff colonel with two Ashanti medals. Magistrates threaten to impose the maximum fine of \$500 in future cases.

"A meeting of labor leaders from allied countries will be held in London September 10 and to this conference the American Federation of Labor will send representatives."

Corns Lift Off

Doesn't hurt a bit to lift any corn or callus off with fingers.

No humping! You truly can lift off every hard corn, soft corn or corn between the toes, as well as hardened calluses on bottom of feet without one bit of pain.

A genius in Cincinnati discovered freezone. It is an ether compound and tiny bottles of this magic fluid can now be had at any drug store for a few cents.

Apply several drops of this freezone upon a tender, aching corn or callus. Instantly all soreness disappears and shortly you will find the corn or callus so shriveled and loose that you lift it off with the fingers. You feel no pain while applying freezone or afterwards.

Just think! No more corns or calluses to torture you and they go with out causing one twinge of pain or soreness.

Ladies! Keep a tiny bottle of freezone on the dresser and never let a corn or callus ache twice.

Wounded Americans to Have Best of Care—Marines Buy French Bonds

(By J. W. Pegler)

(United Press Staff Correspondent)

American Field Headquarters, Aug. 10.—The American Red Cross is ready to care for all wounded Sammies. It will not be necessary to send them home for proper treatment after they are brought back from the firing line.

The functions of the Red Cross were defined here today. It was decided that the American organization would be made responsible for care of the wounded outside the fighting zone.

A golden stream began flowing today straight from the American training camp to the French treasury. The marines have purchased \$6,000 worth of five percent bonds and have decided to buy a similar amount each month.

General Sibert has been endeavoring to find some way of inducing his men to save their money and it is probable that this has solved the problem for him. There is keen rivalry between the army and the marines in the purchasing of bonds, spurring all of the men on to greater investments.

One marine of German parentage subscribed \$400. Many kegs of gold coin are now in the expeditionary treasury. News of the investments of the Sammies spread among the French villagers to-

Will Have Joint Control Over Atlantic Shipping

Washington, Aug. 9.—American joint control over trans-Atlantic shipping was brought nearer at a conference today by Chairman Harley of the United States shipping board, and Connop Guthrie, British traffic commissioner.

At the close of the session, Harley announced that the requisition of American ship space would probably be ordered next week. This will give the government absolute control over ocean freight rates, the loading, unloading and movements of vessels flying the American flag.

The British government already is exercising these powers.
