Refunds of excess deposits on account of the publication of the arguments on the measures submitted to the people at the special election of June 4 were made Saturday by Secretary of State Oloft to those who made the necessary deposits. At the time of publication it was estimated that the cost would be about \$75 a page and that much was required. However, the cost actually amounted to \$62.03 a page and the difference, or a total of \$155.03, is the sum of the refund.

It was decided at a meeting of the board of control Saturday that the state would use wood for fuel at the Oregon state hospital and at the penitentiary. The decision was reached in favor of wood instead of lignite coal when the committee appointed recently reported that stumpage could be secured near Astoria at 75 cents a cord and that the tract of 125 acres would yield 15,000 cords. Acreage near Salem will be secured from Frank Smith which will yield 6000 cords at \$1 a cord for the penitentiary wood.

ALLIED NATIONS

(Continued from Page One.)

ports was also announced by Foreign Minister Arthur J. Balfour. He told commons that passports for the trade unionists to Stockholm could not be granted.

Arthur Henderson, who resigned as labor member of the British cabinet Saturday, following action taken by the labor party in voting to send delegates to Stockholm, severely arraigned Premier Lloyd-George in a personal statement in commons today.

Henderson charged the war cabinet with double dealing, especially in connection with his visit to Paris.

Henderson talks "If the complete story of the Stockholm conference were told now, it would not be to the national interest," Henderson declared.

It was Henderson's visit to Paris that started the storm culminating in his resignation from the ministry. He went to Paris and conferred with French socialists regarding the Stockholm meeting, on his return, demands were made in the house of commons for an explanation of his action, which it was charged, amounted to a British minister arranging to meet representatives from an enemy country. Henderson sought to justify his action by asserting that he went to Paris as leader of the labor party, not as a cabinet minister.

Henderson was expected to make a statement in the house of commons today, outlining his position in the bitter controversy. It is probable that he will be followed by Premier Lloyd-George. The government has as yet taken no official stand as to the Stockholm meeting. Both the Henderson and the government statements are therefore awaited with greatest interest.

A wide division in labor ranks is apparent as matters now stand. A meeting of the party's executive committee is set for early next week. If Henderson is upheld, then all other labor members of the cabinet will have to resign, according to opinions expressed today.

The Daily News declares today that as the government could not continue without the support of labor friends of Lloyd-George, he would immediately ask the king to dissolve parliament and call a general election, in event of the withdrawal of other labor ministers.

The Times and Chronicle, on the other hand, state that Henderson has not the support of other labor members of the cabinet. They approved the Lloyd-George letter censuring Henderson, it is stated, and there is no indication that they intend to resign.

What Press Says The entire press takes the stand that settlement of the controversy will have the greatest bearing on future conduct of the war.

Henderson may make known today whether he will attend the Stockholm conference in a private capacity, despite the present protests. According to advices from Paris the French delegation to the Stockholm conference will include ten socialists. They have not yet been named. The French voted to send their representatives to the Stockholm conference to demand that socialist action be taken to force countries which have not already done so, to state their war aims and declare whether they are "prepared to make reparations in accordance with the rights of the people."

The French resolution states specifically that a peace of compromise is not sought. Respect of people's rights and of frontiers is demanded. Condemnation of governments responsible for the war is sought. The French will also ask whether socialists who continue to aid governments responsible for the war shall be considered as remaining members of the international.

Germans May not Attend Amsterdam, Aug. 13.—German socialists will probably not attend the Stockholm conference if socialists from the entente nations insist on discussing responsibility for the war, a semi-official statement published by the Frankfurter Zeitung asserts today.

GREAT LOYALTY RALLY St. Louis, Mo., Aug. 13.—The hyphen was on the run here today. Eighty thousand foreign born Americans took part in a loyalty day rally at Jefferson barracks yesterday. Several Germans and Austrians were granted special permits to enter the "barred zone" but were not allowed to participate in the parade.
