San Francisco, Aug. 14.—Louis Ferreri, a waiter was killed and William Demopolus was seriously injured today in an automobile accident on the state highway, near Burlingame. 200,000 PERFECT MEN READY FOR TRAINING

The Whole 687,000 Will Be Ready It Is Believed by End of Month

Washington, Aug. 14.—Two hundred thousand physically perfect American men are ready for the first mobilization day, September 5. According to reports to Provost Marshal General Crowder, the September 5 contingent could move tomorrow if transportation facilities were available. It is believed the full quota of 687,000 men will be accepted and willing to serve before the end of this month.

America's first draft army in camp by the first week in October, the second increment—probably 750,000—probably will not be called for duty until next spring or summer, it was learned today. It will be called up for examination immediately after the first unit is completed, however. In some districts this examination already is going on. Training officers for the national army already have been drawn from reserve camps and some regular army majors and other officers will go, too. Many non-commissioned officers from the regular and national guard armies will assist.

Fire at Black Rock Is Under Control and Danger Passed

The property of the Spaulding Logging company at Black Rock is safe and the fire that was reaching towards the Spaulding holdings is under control, according to the latest reports this afternoon from Black Rock. About 15 acres of the old timber that was burned over in 1910 was burned Monday but the dying down of the wind and the efforts of the large force of men prevented any spread of the fire. From Dallas a force of 40 men were rushed to Black Rock and with the forces already working, sufficient trees were cut and brush cleared to prevent the fire from crossing the Little Luckinette. The fire that burned over the 15 acres was started by burning embers that were blown half a mile from the fire across the canyon.

Strike Breakers Arrive

San Francisco, Aug. 14.—Nearly 100 strike breakers have arrived in San Francisco to take positions of striking platform men of the United Railroads according to reports received by the streets committee this afternoon. They declared the men were brought in from the south and are being quartered at the Twenty Fourth street car barns of the company.

Telephone Orders to Express Office Early

Although the express companies have notified the public service commission they would suspend the service picking up and delivering express matter Sunday and on week days after 5 p. m., this will not become effective in Salem, although the movement of curtailing the service Sundays is nation wide. Deliveries on Sunday now are made in Salem to hotels, and moving picture theatres and also of perishable goods. On business days wagons begin to collect as early as 6:30 a. m. and continue until all collections and deliveries are made, regardless of hours. And right here the express managers say that in general patriotic spirit of conservation, the women folks could help wonderfully if they would telephone for the collection of packages earlier in the day and not wait until after five o'clock. Also that it would be a great help if those having express packages to send away, would not wait until about 30 minutes before train time and then telephone.

STRIKE PARALYZES SAN FRANCISCO LINES

San Francisco, Aug. 14.—All but 500 of the 1850 platform men employed by the United Railroads have struck, according to announcement today by B. W. Bowbeer, vice president of the car men's international union and leader of the strike which has seriously crippled car service in some sections of the city and completely tied it up in others.

Militia Called to Stop Rioting in Springfield Mediators at Work

At daylight today it was clear that the strike had spread greatly overnight. Practically all the lines south of Market street had been paralyzed and service on most of the others was only intermittent. Indication that the strike would spread still further during the day was given in announcement that the executive committee of the San Francisco Labor Council had voted during the night to support the walk-out.

BARR SAYS:

A Permanent scowl is certainly more disfiguring than a pair of glasses properly fitted. Yet some people who are suffering from eye strain put off attending to their eyes for fear they will have to wear glasses. Meanwhile the scowl grows deeper.

Dr. Herman W. Barr

If you have any symptoms of eye strain let me examine your eyes at once. By proper care of your eyes and following my advice you may be saved from having always to wear glasses.

Remember— Consultation is absolutely free.

Come to me and I will tell you whether you need glasses.
