### TRACE DISEASE TO CONSTIPATION

One of the points on which different schools of medicine practically agree is, that shout 95% of all human disease is directly traceable to intestinal putsefaction of stomach waste due to inactivity of the bowels, or constituation. The eliminative process is an essential factor in digestion and on its proper functioning depends the welfare of the entire system.

Constipation is a condition that should never be neglected. As soon as the bowels evidence the slightest disposition to slow up, a mild laxative should be taken. The combination of simple laxative harbs with peptin, known as Dr. Caldwell's Syrup Pepsin and sold in drug stores for fifty cents a bottle, is highly recommended as a corrective, acting gently, in an easy, natural way, without griping or other pain or discomfort. A trial bottle of this excellent family remady can be obtained, free of charge, by writing to Dr. W. B. Caldwell, 456 Washington St., Monticello, Illinois.
