State House News

Attorney General Brown has received the decision of Judge Kuykendall of Klamath county in the seventh of the famous Hyde-Benson land fraud cases in which the judge decided, as has been ascertained from the decree, that all of the cases in that county except one were fraudulent. The one case that was not declared fraudulent was for 280 acres of land. The whole amount of land in consideration was 5000 acres.

State House News

The state courts have won six out of seven of the land fraud suits and all are appealed to the supreme court. The suits were placed with Judge Kuykendall last December but no opinion was rendered until recently. Under the provisions of the law a judge cannot hold a case more than three months without rendering a decision. If he does so he is subject to loss of pay. Recently the attorney general wired for information to the county clerk of Klamath county regarding a decision and the clerk wired back that there was a decision but he could not make out which way it was, so he sent the papers to the attorney general who is laboring over the problem.

CHAMP CLARK STANDS FOR WAR PROFIT TAX

Voiciferous Applause Indicates House Will Increase Senate's Tax

Washington, Sept. 6.—Speaker Champ Clark, taking the floor in the house today, re-opened the battle of wealth redistribution, demanding that great war profits be heavily taxed. The temper of the house toward the coming fight was shown in tremendous applause of Clark's words. His declaration that "eighty per cent of war profits is not too much to take" aroused such a demonstration that Clark was forced to stop speaking. He vigorously flayed profiteering, saying: "If our young men are willing to risk their lives, our wealthy men need not be afraid to risk the dollar."

Johnson Still Fights

Washington, Sept. 6.—Senate wealth redistributionists shifted their attack today from war profits to proposed heavy levies on big incomes. The fight begins on an amendment by LaFollette seeking fifty per cent of all incomes in excess of \$47,500. The Simmons-Penrose plan proposes such a levy only on \$1,000,000 incomes. Half a dozen other amendments, growing less and less drastic, will follow if this proposal meets expected defeat. The Borah-Johnson group hope to force the committee to make substantial concessions rather than to carry their own amendments to victory.

Miss Eleanor Weitman of Lent, Or., says she is a shareholder on the Portland Railway, Light and Power company's cars from Alder street to Lent's Junction and she files a protest with the public service commission against the increase of the fare from five to six cents on the Portland lines. She says in her letter that it is "hard enough to keep your feet from Alder street to Lent's Junction without a grain sack to carry pennies for change. I am one of the many who have to shoulder the extra taxes in the duty of patriotism. I cannot see why a large corporation such as the P. R. L. and P. Co. should shoulder some of the drainage like good soldiers, if nothing more than to help the working people who are fighting to keep their homes until this crisis is over."

BIG DEFICIENCY BILL

Washington, Sept. 6.—The largest urgent deficiency bill in history—\$4,810,979,370—was reported favorably to the house today by Chairman Fitzgerald of the appropriations committee's bill.
