FARMERS HOLD WHEAT MILLS ARE ALL SHORT

Orders for Flour Cannot Be Filled by Minneapolis Mills --Coast Is Shy

Minneapolis, Sept. 10.—Farmers throughout the northwest are holding their wheat in the hope that the government will reopen the price question, and in consequence the country faces a flour famine.

Only 582 cars of wheat were received at Minneapolis today. Millers believe the farmers will hold their wheat at least until after the conference on food prices which will be held at St. Paul September 18, 19 and 20, under the auspices of the Non-Partisan League.

Coast Shy of Flour

Portland, Or., Sept. 10.—A serious famine in the flour market exists from one end of the coast to the other, grain dealers and millers said here today.

FOUR MINUTE MEN WILL TALK AT MOVIES

First Subject Will Be "Why We Are at War"—Many Speakers Selected

Under the direction of the Committee of Public Information, Division of Four Minute Men, the public will from time to time be told of war conditions and why this country is at war with Germany.

ENGINEER SKELTON EXPRESSES OPINION

Places Blame for Conditions On Ex-Mayor White and the Street Committee

City Engineer Skelton puts a new angle on the much-mooted paving plant problem that is being discussed just now as a result of the practical purchase of a new outfit last week at Albany by the street improvement committee of the city council.

This committee he said went down to Portland in the spring of 1916 for the express purpose of investigating paving plants and when it returned it recommended the Koehring mixer, which would cost \$3200.

"Engineer Was Not Buying Plant" At the time of the recommendation of this committee to the council, the committee did not listen to the advice of the engineer, who says he objected to the purchase on the ground that the machine was not the right kind and would not do the work.

He says that then Councilman Cook declared the engineer was not buying the plant and that the committee was buying it.

The engineer said this morning that the seven-ton steam roller is the only piece of equipment that is first class and fit for use, and that it was purchased through regular channels after bids had been asked for and not through the recommendation of any committee.

Inability of the millers to obtain wheat at present prices from the growers is declared to be the cause of the situation. Dairyman, unable to obtain bran and other mill stuffs, are also suffering.

Some Words About "Jobbing" He declared he has nothing to do with the actual running of the plant and that the charge that he had jobbed it was false.

"I have never been able to learn wherein a Koehring Hot Mixer has ever been successfully operated by any paving company or municipality. Nor have I ever been able to learn of the Koehring Hot Mixer considered a standard asphalt mixer either by contractors, engineers, or mechanics. The Koehring people specialize on concrete mixers and not on hot plants."

Sell it—Journal classified ad way.

See what love did for Arsene Lupin—the world's most daring and original crook. The man who assumed a duke's title, became engaged to the daughter of a wealthy art collector and after many robberies escaped with his real love by impersonating the greatest French detective. At the Liberty three days starting Tuesday.

Committee on Public Information will begin within a week or two.

HIS BODY FOUND

Klamath Falls, Or., Sept. 10.—The body of Horace Marshall, civil engineer at the Klamath Indian reservation, who has been missing several weeks, was found today in the Red Bluff country where he had been hunting.

Sixth Annual Polk County Fair Boosted

The Sixth Annual Polk County fair, which is to open for its three day session Tuesday, September 18, is to be the biggest and best yet staged, according to Winnie Braden, secretary of the board of directors, who appears to be spending both waking and sleeping hours in planning, arranging and directing the preliminaries of the "big show."

To look at the great bundles of grains, grasses and vegetables that are being prepared for exhibition by Mrs. Braden and her assistant in the rear of the commercial club room, and to hear all of the walls that have been going around about poor crops this year, one would have real cause to wonder what kind of a "garden of plenty" Polk county is when the crops are good.

education on the farm; R. C. Paulus manager Salem Fruit union, "The value of a fruit union to a community;" O. M. Plummer of the Portland Union Stockyards, "Why every farmer should be a swine breeder;" W. K. Newell, "The value of the dairy cow;" E. E. Faville, editor of the Western Farmer, and H. H. Bushnell, editor of the Oregon Farmer, are also scheduled to give addresses, but they have not yet sent in their topics.

There will be plenty of educational and demonstration work along with the exhibitions and the value of the addresses is evidenced by the array of talent which has been secured by the board.—Polk County Observer.
