The impurities and dangers are only added to in this way. For more than fifty years S. S. S. has been the one recognized reliable blood remedy that has been used

Witness Says Oxman Paid for Testimony

San Francisco, Sept. 21.—While Edward Rigall of Grayville, Ill., was submitting to a grilling cross examination in the E. C. Oxman subornation of perjury trial, a special committee of the San Francisco labor council delivered an open letter to Mayor James Rolph asking that he take action in connection with the alleged frame up conspiracy of Oxman.

Featuring the trial of Oxman, who is charged with seeking to induce Rigall to give false testimony at the trial of Thomas Mooney, preparedness parade bomb case defendant, was Rigall's statement under cross examination that he had told District Attorney Fickert

NASTY MEDICINES BAD FOR CHILDREN

It is not often a child requires medicine of any kind. If the bowels are regular and promptly disposed of undigested matter discarded by the stomach, the general health is very apt to be excellent. In any case, pills, powders, and nauseating or unpalatable compounds, should never be given to children. Any therapeutic virtue such remedies may possess is largely nullified by the youngsters' natural antagonism.

Committee To Probe Strike Situation

Washington, Sept. 21.—Acting on the suggestion of the Council of National Defense, President Wilson today appointed a committee of five to investigate the labor situation in the Rocky Mountain region and on the Pacific coast. The I. W. W. problem will be the principal subject of the committee's interest.

Heading the committee is Secretary of Labor Wilson. The other members are Colonel L. J. Spangler, Pennsylvania; Verner Reed, Colorado; John H. Walker, Illinois and E. P. Marsh, Washington.

and other officials that he would make a poor witness.

Rigall declared he had told Fickert he could not identify the automobile which Oxman had testified had driven up at Stuart and Market streets on the day of the preparedness parade explosion. To this Fickert replied, according to Rigall:

"That's all right. You better go back to the hotel with Oxman. He may help refresh your memory."

The memory helping method of Oxman was, Rigall asserted, a check for \$250.

The open letter to Mayor Rolph was in part as follows: "Since you were unable to see us when we called, let us inform you in an open letter that your police department is involved in a conspiracy that has aroused labor throughout the world. Let us remind you of the United Press dispatches, which carries the news, that President Wilson is embarrassed in his national negotiations by this case; that he has found it necessary to clean up this blot before he can send a commission to Russia."

The great structure, which is 3239 feet long and contains 180,000,000 pounds of steel and cost in the neighborhood of \$20,000,000 to build, was all but completed today after eleven years of labor, the original structure having been started back in 1906.
