Too much cannot be said of the wonderful assistance known to thousands of mothers as "Mother's Friend". It is one of the greatest of all helpful influences. There is no nervousness and the tension beyond all doubt that "Mother's Friend" is the greatest aid to nature. It certainly should be used by every expectant mother for she should do everything in her power to help nature in her work.

COURT HOUSE NEWS

County Clerk U. G. Bover, who has been absent from the office for the past month as the result of an operation at the Salem hospital, made his first appearance in the office this morning. Outside of looking rather pale, he did not look much the worse for the wear and tear. He was at the hospital three weeks and at home one week. He was greeting his friends today and appeared to be glad to get back into his old haunts.

An action for the recovery of certain property was filed in the circuit court this afternoon by Clara Case against W. I. Needham. SURE WAY TO GET RID OF DANDRUFF There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and after two or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

Because the application of the Milk Creek Logging and Booming company for a logging and booming franchise on Milk Creek did not comply with the log boom law, the hearing that was being held this morning by Public Service Commissioner Miller terminated abruptly. Chairman Miller took the matter under advisement until he could consult with the two other commissioners. The insufficiency of the application was brought up by Attorney H. E. Cross, representing the P. L. Terwilliger interests who have sued and great mills on that creek. He says the application has failed to state the nature of the improvements to be made by the booming company and that dams on the creek for forty years would be jeopardized.

The Dallas Garage company filed articles of incorporation with a capital of \$30,000 this morning. The object of the company is to rent, hire, and store automobiles. The incorporators are Bert W. Emerson, William M. Remington and Giles L. Coleman.

MERCURY IN LIBRARY THERMOMETER GOES OFF

It was at 85 Today and Showed Number Dollars in Library Fund

The thermometer this morning stood at 85, but the indications are that it will go perhaps twice as high within the next few days. This does not refer in any way to the Fahrenheit with which the average citizen measures the weather conditions, but to the War Liberty fund thermometer, indicating each day how many dollars has been subscribed toward Salem's quota of \$750. Just at present, everything looks favorable to a right response of the citizens in securing the \$750 to be used for the building of library buildings and the purchase of books for the home as well as the foreign libraries of soldiers. Next Monday is children's day at the state fair, and John W. Todd, superintendent of schools has been asked to issue a proclamation calling the attention of children to the fact that their dime would help very much toward the total amount needed. Next Wednesday evening Judge McGinn of Portland will speak at the fair grounds calling attention to the needs of the war Liberty fund. Speakers will also say a few words at the moving picture theatres. The Rev. R. S. Gill will speak this evening at the Liberty and August Hucklestein Saturday evening. If the people respond generously and give toward the fund, there will be no personal solicitation. If they do not, it will be necessary for committees to go out and ask individual subscriptions, as other cities in the state are responding and it is up to the capital city to do its share.

Washington, Sept. 21.—De-manding an investigation to show whether Bernstorff's \$50,000 actually reached congressmen's pockets, Representative Hoffman, Alabama, declared on the House floor this afternoon that he could name "thirteen or fourteen members who have acted suspiciously." He demanded expulsion of congressmen found "to have been lacking in whole-hearted loyal support" of the war.
