BENTON PIONEER BURIED
Corvallis, Or., Sept. 26.—L. N. Tdwaris, pioneer citizen of Benton county, was buried at Bell Fountain yesterday. He died Sunday after an illness of six weeks, aged 94 years.

He came with his parents to Benton county, from Guernsey county, Ohio, in 1858, and with the exception of a few years spent in the east, he had resided here ever since.

He was one of the first graduates of Philomath college, and five of his eight children are graduates of Oregon Agricultural college. He was married in 1879 to Margaret Wheelton, who died in 1896.

Otis Compton of Seio, age 19, enlisted in the infantry yesterday at the local recruiting station in Salem and left this morning for Portland. For the first 20 days of this month the recruiting office on State street has forwarded 15 men. With the exception of Portland, Salem stands second in the state in enlisting recruits so far this month. Baker stands at the head of the list for the month's recruiting, outside of Portland.

This afternoon Salem resembled the deserted village, as all stores, offices and work of every kind was suspended in order that the people of the city might have the proper spirit by attending the fair Salem-day. Many of the larger drygoods stores closed for the entire day while almost all lines of business had out the 10:30 closing sign. Street car traffic, beginning about 9 o'clock equalled that of last year for the morning with a heavier business than one year ago on the afternoon runs.

There are 57 good reason why boys go wrong, according to Will S. Hale, superintendent of the Oregon State Training school for boys. As part of the industrial display of the school at the state fair, placards are named the 57 reasons. One of them and one of the main reasons is labeled "The Junk Man." The desire to raise a little money and knowing that ordinarily any old stuff may be sold to the junk man and no questions asked, is according to Mr. Hale, one of the reasons why boys go wrong. It is the ability to dispose of junk for ready money that starts the boy into the line of petty stealing.

As a strong moving picture attraction Wm. S. Hart, easily stands at the head with one or two others, along with Mae Marsh. Last night at the Liberty A. Hart, playing in "The Cold Deck," drew one of the biggest crowds of the season. It seems that he can do the gun play act and also sit in a card game in such a refined way that it is just natural for one to wish him good luck. Anyhow, "The Cold Deck" is one of the best movies that has appeared here for many a day. There are plenty of thrills including an old time stage robbery.

The man who is refused by the exemption board will have a pretty hard time getting into the army, should he feel the patriotic call. According to recent orders from the provost marshal general's office, no recruiting officer is permitted to recruit a man who has been exempted by the local exemption board, nor after his name has been posted to appear for exemption before the board.

"Why We are Fighting." Every one who attends a moving picture show this evening will hear this subject discussed by the "Four Minute Men" appointed by the national committee of publicity of Washington. The Rev. R. S. Gill will talk at the Liberty, B. A. Harris at the High and Rollin K. Page at the Oregon. The speakers are called "Four Minute Men" as their talks are limited to four minutes. Last evening the speakers at the three theatres were all warmly applauded.

Should any one happen to see the Elks' parade tomorrow led by Woodrow Wilson, or his exact double, it should occasion no great surprise. For there is a man in this city who has the faculty of making up and appearing greatly like Woodrow Wilson and he will lead the Elks' parade. The name of the man who has this distinguished appearance has not as yet been learned, but there is positive assurance that he will lead the parade.

Thursday is Portland Day, Elk Day and Transportation Day. With all the Elks and Portland delegation and the Elks' band of 35 pieces parading the downtown district in the morning, there will be something stirring. W. H. Hamilton is chairman of the Cherrion committee for the day, with the following faithful assistants: Wm. Gahndorf, C. H. Fisher, Paul Stege, C. B. Cross, A. L. Wallace, W. C. Dyer, A. J. Egan, Russel Cathin, J. D. Caughell, W. H. Burghardt, T. B. Kay, Walter C. Wiuslow, Lloyd Rigdon, C. B. Webb, S. Stone, Dr. H. H. Olinger, S. B. Elliott and G. H. Hartman.

There may be a few good citizens who do not forget themselves Sunday as to spend the greater part of the day burning up their fire arms of the shot gun variety. For after midnight of Sunday, it becomes Monday October 1 and after daylight, it is lawful to shoot pheasants of the male species for the coming 31 days. It will be lawful to begin shooting at 8 o'clock Monday morning as the sun rises at three minutes before six o'clock.

GERMAN BANKER ASKS GERMANS TO BE LOYAL

Must Realize It Is Solemn Duty to Stand by Country of Their Adoption

Harrisburg, Pa., Sept. 26.—Arraigning Prussianism in bitter terms, Otto H. Kahn of the banking house of Kahn, Leob and company, New York, today before the chamber of commerce here called on German-Americans to fight for America against the power arrayed against her.

"I speak as one who has seen the spirit of the Prussian governing class at work from close by, having at its disposal and using to the full practically every agency for moulding the public mind," he said.

"I have watched it proceed with relentless persistency and profound cunning to instill into the nation the demagogical obsession of power worship and world domination, to modify and pervert the mentality, indeed, the very fibre and moral substance of the German people."

Speaking of the possibility of peace, Kahn said:

"God grant that the German people may before long work out their own salvation and find the only road which will give to the world an early peace, and lead Germany back into the family of nations from which it now is an outcast."

"We Americans of foreign antecedents," he continued, "are here not by the accidental right of birth, but by our own free choice, for better or for worse."

"We of the German-American, so-called, who in this sacred war for a cause as high as any for which ever people took up arms, does not feel a solemn urge to rival and outdo his native born fellow citizen in devotion of the country."

"Americans of German descent are now summoned to join in our country's righteous struggle against a people of their own blood, which, under the evil spell of a dreadful obsession, has made an enemy of this peace loving nation."

AFTERNOON TEA DOOMED
Chicago, Sept. 26.—That great adjunct of sassiness—"the afternoon tea"—may be a thing of the past within a few months.

This was forecast by F. J. Lichten of Milwaukee, president of the National Tea and Coffee Manufacturers association, in convention here. He said the country faces a tea and coffee famine "as the result of the war."

For the past two months manufacturers have had difficulty importing supplies. A scarcity of transportation already has caused a shortage with prospects for a near famine.

The convention will advocate sugarless and creamless coffees and teas as a means of Hooverizing, defeating the high cost of living and as a health measure. The drinks are more healthful with only the true flavor, delegates say.

BILLY SUNDAY EXHORTS
Washington, Sept. 26.—Billy Sunday will shout and fight and pray for the second liberty loan.

From Los Angeles, where he is treading Satan with both fists, the evangelist, telegraphed to Secretary McAdoo plugging his aid in the coming campaign. The treasury department gladly accepted.

NO RUSSIAN FLAG
Helena, Mont., Sept. 26.—Russia has no flag.

A committee of citizens wanted to decorate the city with flags of the allies. The committee wired Elihu Root for information about the Russian emblem.

"Russia has no flag since the revolution," Root answered today.

Watt Ship Company Buys Eugene Business

Albert Lundstrom, who for some time past has conducted a vulcanizing plant with the Flisk Motor in the Beckwith building on Seventh avenue east, has sold out to Watt Shipp and company, of Salem, and he will work for the firm in that city.
Watt Shipp and company are dealers in automobile supplies and handle large quantities of explosives, maintaining a warehouse for powder north of the city. They will install automobile supplies at the Eugene store but will do away with the vulcanizing plant here. They will enlarge their vulcanizing plant at Salem and Mr. Lundstrom will have charge of that department.
The change is expected to take place about October 1, when Mr. Lundstrom will move to the Capital City.—Eugene Register.

State Game Warden Says Chinese Pheasants Plentiful

Regarding the Chinese pheasant, Carl D. Shoemaker, state game warden makes the following statement:
"The Chinese pheasants are very plentiful this season, and I want to assure sportsmen that the rumors which have been circulated that the pheasant season would be closed, are without foundation in fact. The season will open October 1, and will close October 31, both dates inclusive. I urge all sportsmen to be exceedingly cautious not to kill female birds this season, as they have for the past two seasons. The birds may be found along nearly every creek and in nearly every field throughout the Willamette valley."

Sammy Tanks Will Fight On French Battle Front

Washington, Sept. 26.—"Sammy" tanks will fight alongside the British "Teddies" on no man's land. That the United States is to construct a large number of these giant land cruisers developed today with an explanation of an additional \$20,000,000 in the armored motor car appropriation in the urgent deficiency bill called up in the senate. A total of \$38,750,000 is asked for motor cars, with authority to construct for \$75,000,000 more.

In the \$5,000,000,000 bill, \$2,000,000,000 is set aside for artillery, \$635,000,000 for ships and \$45,000,000 for aircraft.

Senate opposition loomed today to the amendment, written into the urgent deficiency bill, which would prevent immediate examination of all men eligible for national army. This amendment inserted by the appropriation committee, limits the use of \$3,000,000 appropriated to examination of one million men.

Secretary Baker favors examination now of the whole ten million registered men. If the amendment remains, authority for further examinations will have to be obtained from congress.

German Aviators Drop Surplus Bombs On Dutch Villages

London, Sept. 26.—The mysterious bombing of Dutch villages by stray airplanes was discovered today to throw a new light upon the German idea of the law of necessity.
Recently several squadrons of German planes have set out for bombing expeditions over England. Upon reaching the coast several have been turned back by bad weather conditions. Inasmuch as the German bombs are suspended under their machines, the missiles of death must be dropped before the aviators can alight or else the plane and its occupants risk being blown up.

Rather than take the chance of injuring some of their German countrymen by dropping their cargo over German soil, the aviators circle over little Holland and get rid of them—where it is only a question of killing a few more neutrals.

Jurors Selected From Assessor's Returns

Portland, Or., Sept. 26.—Jurors are selected in Multnomah county by the amount of property they own.
That today is the charge made by the Multnomah County Bar association against the county commissioners. The lawyers point to the fact that a judgment for the plaintiff has not been returned in a damage suit in a local court for over a month.

Theodore Hitting His Old Time Stride

Chicago, Sept. 26.—Theodore Roosevelt was hitting a pace today that rivalled his presidential campaigns for strenuousness. He was scheduled to deliver four speeches in two days. Mrs. Roosevelt will accompany him.

The former president, who arrived here last night, was up in time today to see the sun rise over Lake Michigan. He left for the national army camp located at Camp Grant, Rockford, on a special train over the Chicago, Milwaukee and St. Paul railroad.

After inspecting the camp and making a brief address, he was scheduled to be back in Chicago at 4:20 this afternoon. He will speak at Dexter pavilion in the stockyards at 8 o'clock. His subject will be "children of the crucible." He will refer to German propagandists, however, and has promised "not to be nearly-mouthed" about them.

Tomorrow Roosevelt will speak at the Fort Sheridan officers' reserve training camp and the great lakes naval training station.

Market Was Sluggish and Somewhat Freaky

New York, Sept. 26.—The New York Evening Sun financial review today said:
Today's stock market was a dull affair of decidedly mixed tendencies. Despite frequent sinking spells, there was a firm undertone in both the industrial and railroad departments. Stocks within the same group moved in opposite directions. This was particularly true of the steel, motor and sugar stocks. Quotations for the most part ruled fractionally below the Tuesday closing level, although there were numerous weak spots and now and then a strong one.

Both Central Leather and Corn Products Refining, which were in demand yesterday at substantial advances, neutralized practically all those gains to date. The copper issues were consistent, only under pressure also the tobacco, Crucible Steel, Baldwin Locomotive, Pittsburgh Coal and Westinghouse Electric were in the dumps. It would seem that the market reflected peace uncertainties more than anything else.

Government to Take Hand In Mooney Case

San Francisco, Sept. 26.—"I'm certainly glad to hear that the government is going to look into this case," was the statement of District Attorney C. M. Fickert today, on receipt of word that President Wilson had asked Attorney General Gregory to investigate the preparation of Thomas J. Mooney in the readiness bomb murder cases. Fickert said he would welcome federal investigation.

General opinion was that either a special assistant attorney general or a committee named by the attorney general will come to San Francisco and review the record. Attorneys say the only course the president would have should be convinced justice had miscarried, would be an appeal to the governor.
