

BELL-ANS Absolutely Removes Indigestion—One package proves it. 25c at all druggists.

Edward Nolan Will Be Freed for Bomb Murder

San Francisco, Oct. 25.—Edward Nolan will go on trial as a bomb case conspirator on November 25. This was decided today by Superior Judge Cahanis. Attorney Nathan Goghlan announced that he was the personal counsel for Nolan and was at present engaged as an assistant in the Israel Weinberg defense. He declared the defense would be willing to have Mrs. Rena Mooney or any of the other defendants placed on trial at once.

Louis Ferrari, prosecutor for the district attorney's office, maintained this was impossible.

"All of the exhibits in the Weinberg trial are needed for reference and there are many of them we would have to introduce in two courts at once if any of the defendants went on trial," Ferrari explained.

Just as a thousand New York saloons have closed their doors there comes a 500,000,000 gallon daily addition to Gotham's water supply. Oh, well, it will come in handy to put out fires with.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

CHRISTMAS PACKAGES FOR SOLDIER BOYS

Red Cross Workers Are Urged to Have These at Once

The big thing right now before the members of the Red Cross auxiliaries is that of getting Christmas packages ready for shipment in time to reach the entrenchments and France by Christmas.

Hence headquarters here in Salem is urging that packets should be sent in during the coming week in order to be shipped with the shipment to be made to Seattle October 31.

These packets are of the regulation 7 by 10 inch size and not more than five or six inches high. The first wrapping is to be the khaki handkerchief to be had at headquarters and then a wrapping of manilla paper. The donor of the package may put her name and a Christmas card in the packet.

The Red Cross intends that every soldier and every boy in the navy shall receive a Christmas remembrance and for this reason, the packages must be of uniform size. Each case is suggested as the best cake to send. Hard candy may be packed in Nalisco tin boxes. The boys want candy, but it must be in tin or wooden boxes, of a size that can be in the package with a base of 7 by 10 inches.

The following letter has been issued to the auxiliaries by Willamette chapter in regard to the Christmas packets.

"Willamette chapter has been asked to furnish 550 Christmas packets. Inclosed find list of suitable gifts from which to make selections also explicit directions for arranging and wrapping your gift.

"The committee on Christmas packets wishes you to communicate with the members of your auxiliary and ascertain the number of packets for which your auxiliary will be responsible within two days after receipt of this letter. All out of town auxiliaries will report through the mail as soon as possible.

"One time is limited as we must begin shipment by Nov. 1st in order to have the gifts reach the boys in the trenches by Xmas.

"Important—You will notice by instructions the khaki colored handkerchief and writing paper pad are required as a base for each package.

These must be obtained from the chapter which will sell the same at cost price.

"It is suggested by the committee that it would be advisable for the chairman of each auxiliary to obtain from the office, as soon as possible, the number of pads and handkerchiefs required for her auxiliary, the same will be charged to her until she collects money from each one donating a packet.

"After the packet has been wrapped in the handkerchief according to inclosed directions, tied, etc., it is to be returned to headquarters for its final wrapping. All packets must be at headquarters by Tuesday, Oct. 30.

Professional Beggar Finds Life Comes Easy

Somebody said once something about feeding angels unaware and this seemed to be the practice of many women in the country, especially those living near Brooks, Woodburn and Gervais.

For the past few days a beggar has been living on the generosity of these good housekeepers. He is a hearty specimen and could easily make \$3 a day working, but with meals coming so easily on the Pacific Highway, why work?

Last evening about 5 o'clock he was picked up by Sheriff Needham near Chemawa as it was thought he might be the murderer wanted by the Sentinels.

CONSTIPATION CAUSES OBSTINATE HEADACHES

When your head aches you will usually find the bowels have been inactive, and if you relieve this condition, by clearing the intestinal organs of the fermenting congestion of stomach waste, foul gases and bile, the head is relieved immediately.

Remember this the next time you suffer from headache. The combination of simple laxative herbs with pepsin sold by druggists under the name of Dr. Caldwell's Syrup Pepsin, is highly recommended as a gentle laxative that acts easily and quickly, without gripping or discomfort. It contains no opiate, narcotic, or habit-forming drug, is pleasant to the taste, and a most effective household remedy.

Mothers find it especially desirable as a laxative for children.

You can buy Dr. Caldwell's Syrup Pepsin from your druggist for fifty cents. Get a bottle and have it in the house when needed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 456 Washington St., Monticello, Illinois.

authorities. He answered the description closely, but didn't happen to be the man. However, he had been an inmate of the jail here several weeks ago, arrested for begging and vagrancy. He was let out and took a hike, which he did for a few miles, living off the generosity of the country women.

There is a murderer wanted by the Seattle police, a man who murdered a young woman and it is thought he might be working down this way, living off the country folks.

The suggestion has been made that the old time occupation of a professional tramp is now in the discard and that country women should show applicants for pie and real food to the wood pile and then telephone police headquarters. It's an even guess the police are looking for him.

Bank Robber Killed By Sheriff's Posse

Mount Vernon, Wash., Oct. 26.—Earl Spurgeon of South Cullingham, was killed by a posse shortly before noon yesterday after he and his brother, Ray, had held up the State bank of Edison, fatally wounded Matt Halloran, chairman of the Republican county committee and a stockholder in the bank, and started out of town with an unnamed sum of money. Ray Spurgeon was captured unwounded.

The holdup occurred when the Spurgeon brothers forced the cashier of the bank to surrender. While they were gathering up money, Halloran, who has an insurance office in the rear of the bank, rushed into the street to give the alarm.

One of the bandits shot him through the back, the bullet piercing his body and emerging through the abdomen. Physicians say Halloran cannot recover from his wound.

A ten dollar liberty bond, for those who positively can dig up no more and emerging through the abdomen.

Physicians say Halloran cannot recover from his wound.

A ten dollar liberty bond, for those who positively can dig up no more and emerging through the abdomen.

Labor Representatives Present Demand for Closed Shop Principle

San Francisco, Oct. 25.—Abolition of piece-work by employers, adoption of the closed shop, as an answer to the scarcity of workers, and the use of the family budget as a measure of the high cost of living instead of just the increases in food prices, were advocated by labor representatives today in the United States wage adjustment board's hearing today in its investigation of shipbuilding conditions on San Francisco bay.

That a scarcity of labor, which is holding up shipbuilding, exists at this time, was the declaration of Andrew Moore of the Moore & Scott shipyards, Oakland. Moore was called as a witness for the employers. He declared labor had become so scarce that he had had to advertise extensively.

He blamed this condition to the tendency of many workers to migrate. He said as many as forty men sometimes quit in one day. The firm had made a rule, he said, to allow no man to quit his job to return to the plant before 30 days.

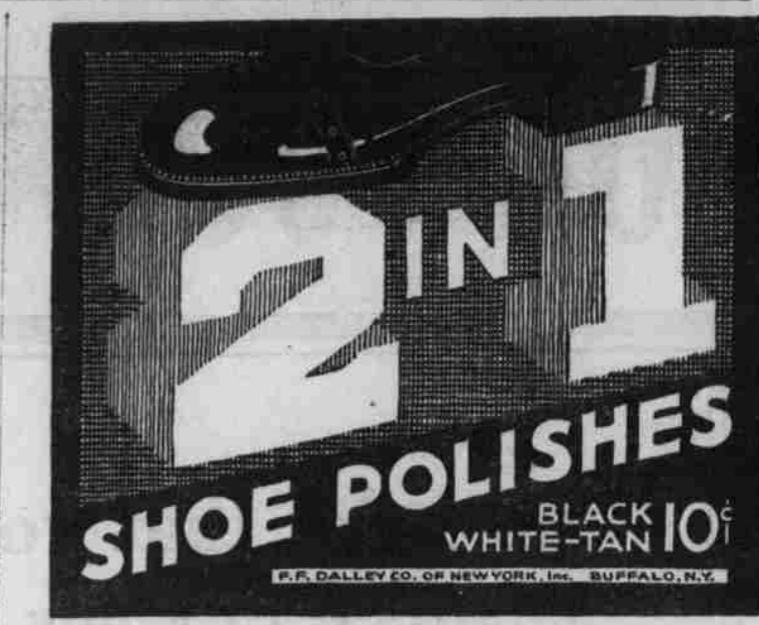

R. W. Burton of the Iron Trades Council, in examining the witness, contended that the thirty day rule would have the effect of keeping men away from Moore's plant.

"If there were closed shop conditions," he said, "there would be more men."

Moore discussed piece-work and declared the average wage earned by pieceworkers is \$2.92 a day. Pierre Flaherty of the machinists' union said organized labor opposes piecework because it has a tendency to make men work too hard and endanger their health.

judgment board, warned both workers and employers that they must stand ready to handle three work shifts. He presented a telegram just received from Washington declaring that the government will demand three shifts in order to meet the shipbuilding emergency.

Demoralization of Army Has Delayed Peace

Petrograd, Oct. 25.—Peace by Christmas would have been won by Russia if not for the demoralization of her army, Premier Kerensky told the preliminary parliament today.

"If unconscious fanatics, assisted by conscious traitors," said the premier, "had not destroyed the fruits of democracy's military efforts, we would have had an honorable peace by Christmas."

General Alexieff, former commander-in-chief of the Russian armies, told the parliament that Russia was passing "through an extremely painful and difficult period because the nation's spirit is overwhelmed by the deadly idea that Russia is incapable of continuing the war. The army could not depend upon the rear to enable it to become a strong, disciplined force."

Kerensky protested against the later statement.

New Attack on Kerensky.
Petrograd, Oct. 25.—The Bolsheviks have launched a new method of attack against Premier Kerensky. In a resolution adopted today by the local council of workmen and soldiers' delegates, and introduced by Leon Trotsky, president of the council, they accuse Kerensky of conspiring to surrender Petrograd to the

German, in order to lay the blame on the Bolsheviks.

The resolution declares that the local council will fight to the bitter end against the Germans and calls upon the executive committee to form a revolutionary general staff for the defense of the capital if Kerensky and the government move to Moscow. The resolution also declares that the salvation of the country lies in an early conclusive peace and orders the executive committee to propose an armistice of all nations as long as the war continues, however, the resolution asserts the Bolsheviks pledge themselves to work for the restoration of the army's combative power and defend the country at all costs. They boldly declare that they will not abandon the capital even if the government does.

According to the claim of an Italian university professor, radium may be extracted from ordinary dew. But the Scotch, notably, and others have always known how to get something out of "mountain dew" just beats all the radium that ever was extracted from anything.
