Ladies! Keep It On The Dresser
Few drops on corn or callus stops pain, then they lift off.
Your high heels have put corns on your toes and calluses on your feet, but why care now? This tiny bottle holds an almost magic fluid. A genius in Cincinnati discovered this ether compound and named it freezezone. Small bottles of freezezone can be had at any drug store for a few cents. Never limp or twist your face in pain again, but get a so shriveled and loose that you lift it off with fingers. Just think! You get rid of a hard corn, soft corn or a corn between the toes, as well as hardened calluses, without suffering one particle, without the slightest irritation of the surrounding skin. Just a touch of freezezone on a sore corn gives instant relief.

It behooves the business man to turn to the dates of Oct. 30 and 31 and make a notation "pay all freight bills". For if freight bills are not paid before the first of November one consignee will have the pleasure of being taxed three percent on the amount of the expense bill. It doesn't make any difference when the freight arrived or when delivered. Instructions have been received by freight agents that on and after Nov. 1 all expense bills in the office take on the additional three per cent. It isn't much, but it is the little things that count.
