AMERICAN LEADERS BREAKING IN HEALTH BY STRENUOUS WORK

Heads of Various War Boards Succumb to Strain—Secretary Lane Ill

By George Martin, (United Press Staff Correspondent.) Washington, Oct. 27.—The leaders of America's business genius are breaking themselves on the strain which by their terrific speeding up to help the allies smash Prussianism.

The collapse of Chairman Frank A. Scott of the war industries board and his consequent resignation and departure for a sanitarium is just an example of what the nation's \$1 a year war makers are doing to themselves.

The near breakdown of Admiral Capps of the shipping board is another. Capps has been called off his 16-18-30 hour day schedule just in time to prevent his sharing Scott's fate, it is said.

Burney Baruch has fought with every hour in the twenty-four to keep up to his schedule. He seems to be doing it. Food Administrator Herbert Hoover toils at his big desk nights and days. Most of the daytime goes for conferences; the night to studying what has to be done during the day.

Thomas A. Edison, here, and working hard, has no corner on his famous "work jags." Secretary McAdoo, though still going, is worn out from the liberty bond campaigns, but refuses to take a rest. Secretary of the Interior Franklin K. Lane went down under the war burden and has been ill in bed.

What is true of the bigger men is equally true of their staffs and subordinates. Washington is a war factory working on a twenty-four hour basis with only one shift of skilled laborers to keep it going.

A certain group of cantonment engineers started their task with a continuous session of three days and nights. They have been at it constantly ever since and even now eighteen hours is a short day's work for them.

The President himself learned his lesson long ago and keeps fit by taking brief vacations. Should his staff of volunteer helpers confine themselves to an eight-hour day America's war program would be set back from six to nine months for their average 16 to 18 hours a day now.

They are all under tremendous strains, hurried and driven by the realization that the war branches they are organizing are desperately needed to help the allies give Germany the final drive.

Not least among these battlers with time is provost Marshal General Crowder and his staff, to whom fell the task of getting the nation's man power organized and flowing campward.

CITY NEWS

Two suits were tried out in Justice Webster's court yesterday afternoon.

One was L. C. Crenshaw against J. Kaup, the trouble arising over a horse trade. The verdict was for the plaintiff who was awarded \$75 by the jury. The other suit was that of B. Short against Charles Gehlan it being a dispute over the settling of an account. The jury sustained the contentions of the plaintiff.

The women working at Red Cross headquarters are in a pretty big rush now-a-days. Besides the packing and receiving and issuing of supplies and attending to a big correspondence and also the business of receipting for membership from the 106 auxiliaries and the inspection of every article that is shipped, and a few other things, they have had to occasionally do some laundering of the outer roll of bolted cloths and such. However, this home laundering troubles have all disappeared as this morning, headquarters was in receipt of the following letter from E. L. Weider, one of the owners of the Capital City Laundry: "In the future, we will be pleased to have you command our services at your own pleasure. We wish to do our bit and shall be glad of any opportunity."

NORTHWEST NEWS

Think It Mofia Crime. Portland, Or., Oct. 27.—Police today blamed the Sicilian Mofia for the murder of Salvatore Sunseri, who was shot at in home Thursday night. Rosario Gutierrez was arrested for the crime.

General Greene Will Preach. Seattle, Wash., Oct. 27.—Major General H. A. Greene, commander of Camp Lewis, Uncle Sam's largest army contingent, will take the pulpit in the First Presbyterian church here tomorrow morning at the invitation of Dr. Mark A. Matthews. General Greene is expected to outline the army's position in the crusade against vice. He has already declared that soldiers will not be permitted to visit cities that are not given a thorough cleanup.

Winter in Montana. Butte, Mont., Oct. 27.—Winter holds Montana tight in her icy arms today. Snow is falling throughout the state and at 10 o'clock this morning had reached a depth of seven inches in Butte.

Widespread Conspiracy To Destroy Livestock Reported by Hoover

Chicago, Oct. 27.—Intimation that a widespread conspiracy exists to destroy livestock and grain in stockyards and elevators throughout the middle west, was contained in a telegram received by Harry A. Wheeler, Illinois food administrator, from Herbert Hoover, shortly before noon today.

Hoover urged Wheeler to take steps to warn packers and grain men against incendiary fires and other means of destruction, and advised him to take up with the proper authorities the plan of having all stockyards and elevators in the state patrolled by home guards troops.

The federal food administration referred to the recent destructive fires in the Kansas City stockyards and the Brooklyn elevators, and declared "there must be no recurrence."

Hoover declared emphatically that the government is in possession of evidence that a widespread plot exists to destroy food supplies.

Weekly Report of State Industrial Accident Commission

During the week ending October 25, inclusive, there were reported to the State Industrial Accident Commission, 382 accidents, of which number 3 were fatal. Following are shown the names, addresses and occupations of the fatally injured workmen:

Mr. F. Thurston, Wheeler, Oregon.

AGGIES WILL MEET CALIFORNIA TODAY

Berkeley, Cal., Oct. 27.—Undergraduates at California university were not very hopeful of California's chances this afternoon in the game with the Oregon Aggies on California field. Although the Aggies are not as powerful an aggregation as the school boasted last year, they have lost few good men as the result of the war, while California's squad is made up almost entirely of novices.

Despite the gobs of gloom on the campus, Head Coach Andy Smith believes his proteges will make a good showing. He thinks this afternoon's contest will be the hardest of the season for the Bears and that, if they can win it, their chances of winning the other intercollegiate games on the schedule are excellent.

Here are the lineups: California: Posi. Aggies. Bates r.e. Bidett. Richardson r.t. Richardson. Brown r.g. Johnson. Hanson c. Cole. Gordon l.f. Walker. West l.f. Hubbard. Hudson q.b. Riordan. Howe r. h. b. Ross. Hayes l. h. b. Lodell. Wells f.b. Newman.

Cook of Oregon Regiment Alleged Spy

Portland, Or., Oct. 27.—William Dolfen, alleged German spy, is charged with having sold the plans of Fort Rosecranz, San Diego, to a German official in Portland, for \$1,000, according to a statement made today in the United Press by Deputy U. S. Attorney Rankin.

Dolfen was arrested at Pendleton early today as the troop train carrying several companies of the Third Oregon regiment to an unannounced eastern point passed through that town.

TWO WIVES AND ONE BREVET AT SAME TIME

George Faber, Traveling Man, Will Cease to Wander for Some Time

Misfortune never comes single, especially to a man with two wives and one brevet wife on his hands at the same time. Capital Journal readers will remember about a month ago of Constable Varney going to California to bring back George Faber and Caroline Laker as a charge of adultery. As Faber and his companion were wanted in Clair City, South Dakota, the charge here was dismissed and the parties turned over to the Dakota sheriff. A letter received by Constable Varney says both the prisoners are behind the bars, she with a charge of adultery facing her; and he has a job lot of charges to answer, among them adultery, polygamy and forgery, and on top of these he is being prosecuted for non-support, and wife number 2 is suing for a divorce. So by the way, is wife number one. He is the father of three children by his first wife who lives at St. Paul in this county, and two by wife number 2 at Clair City, with returns from the brevet yet to come in. He is held under \$3,500 cash bail which being unable to raise he is playing checkers with his nose on the jail bars in South Dakota. The partner of his joys and sharer of his sorrows, just now, is also behind the bars falling to find bail.

If "the course of true love never did run smooth," then judging by the bumps in the "bridal path" of George and Caroline, theirs must be a love that would make that of Pyramus and Thisbe seem of the puppy brand.

At a recent social given by the Presbyterian church at Lakewood the Hooverian piece de resistance was a mulligan stew.

The Knitting department of Willamette chapter reports 89 pairs of woolen socks received within the last few days. Sixteen has sent in 32 pairs of this amount, making its total 80 pairs, while Silverton has sent in 21 pairs. From France come the word that too many woolen socks cannot be received as the government does not issue woolen socks.

The latest contribution from the Dalles auxiliary is as follows: 28 triangular slings, 34 shoulder wraps, 13 pairs bed socks, 5 1-2 dozen wash rags, 1 dozen abdominal bandages, 9 suits pajamas, 7 pairs wool socks, 1 pair operating leggings, 16 napkins, 13 tray cloths, 3 1-2 dozen handkerchiefs and 30 surgical wrappings.

The Woman's Relief Corps of Salem sent in yesterday 58 towels. Christmas packages are not coming in as fast as desired. These packages include first a 7x12 quilting tablet for a base, and then may contain cake or hard candy in a tin or wooden box, cubes of sugar, and a dozen little articles that the soldier needs. If in doubt as to what to put in the packet, telephone 1590, Red Cross headquarters.

The Livesley auxiliary intends to add to its financial affairs by giving a chicken pie dinner Wednesday evening at 7 o'clock for which there will be a charge of 35 cents.

The McCoy auxiliary intends to do its bit in the way of raising funds by giving a jitsy dance on the evening of Saturday, Nov. 3.

The several auxiliaries of Salem will combine in a grand "Carnival of Nations" to be held at the armory Saturday, November 3, beginning at 11 o'clock in the morning and closing at 11 in the evening. This will be an interesting affair as it is understood there will be considerable rivalry among the 15 Salem auxiliaries.

PLAN OF COUNTY FOOD SERVICE DRIVE IS FULLY EXPLAINED

Pledge Cards Distributed and Rousing Rallies Are Held at Various Places

City Committee—Messrs. James Elvin, chairman, W. F. Buchner, E. T. Barnes, John Bayne, W. M. Hamilton, B. L. Steeves, Wm. H. Trindle.

Campaign Plan—Salem divided into 29 districts. Each member of the city committee responsible for four districts except Mr. Hamilton, who has five districts.

Volunteer Workers—Nearly 300 names have been handed in. This comprises a corps of approximately 10 workers for each district. Each worker will be notified through the press by the leader of the district which district he or she will work in.

Leaders—One leader to be appointed for each district. Four district leaders under supervision of each member of the city committee. Leaders will select the workers for their respective districts.

Work—Every committeeman and every leader and all workers to be on hand early Wednesday morning. District leader to notify workers of place and time of assembly. Every house in each district which does not display membership card in window, or other prominent place, to be visited and solicited. If family is temporarily away secure name of family, when expected to return, etc., and calls must be repeated until card is placed. Signed cards to be returned to member of city committee having charge of district.

Campaign—From Wednesday October 31st, through Sunday, November 4th.

Pledge Cards Distributed. The pledge cards and the home cards in the United States food administration food conservation campaign are now in the hands of the families which could be reached through the medium of the public and private schools.

The school children who took the cards home are thoroughly conversant with the objects and necessities of the food substitution movement, having been drilled in comprehensive study material upon the subject for the past week, and are able to explain the reasons for the campaign to such of their parents and other members of the household who have not had the opportunity to inform themselves.

On Wednesday morning the big corps of volunteer workers will start out to visit every home in Salem wherein the membership card is not on display in the window and this canvass will continue until every home has been visited and the occupants given an opportunity to enlist in this vitally important branch of the government service. The duties and objects of these visiting committees will be explained in more full detail later.

Reports from outside of the city indicate great and growing interest and enthusiasm on the part of the people of Marion county in the food service campaign. Ivan G. Martin and M. E. Pogue addressed a very large mass meeting at Marion last evening and much genuine interest was manifested on the part of the audience. Both spoke upon the issues of the food campaign but Mr. Pogue, having had personal acquaintance with National Food Administrator Herbert Hoover in his boyhood days in Oregon, related many of his early acquaintanceship with Mr. Hoover which brought the man in close touch and harmony with his fellow Oregonians. Few people are aware that Mr. Hoover sacrificed an income of \$30,000 a year to be of service to the government and that he is now serving in his present capacity without compensation of any kind.

Guy Smith addressed an audience of over 200 people at the Macleay school where intense interest was shown and many questions asked and answered. At the Salem Heights school, in connection with a parent teachers association meeting and program, Elna S. White talked upon food conservation, and at the North Howell school, County Agriculturist F. R. Brown gave an address on food substitution and Roy W. Shields in on the liberty loan. The meeting house was crowded and automobiles lined the roadway for a great distance in both directions.

Superintendent Todd of the Salem schools addressed a big meeting at Middle Grove yesterday afternoon and another at the Pringle school last night, and reports much interested enthusiasm. There is to be a big meeting at Stayton on Monday evening and George J. Watson will send a Salem speaker to give them a talk. Reports from G. J. Moisan, chairman of the Gervais committee, states that "we are at work and before November 4 everything will be done that can be done."

Sermons on food conservation by substitution will be delivered from all pulpits in Salem tomorrow and all organizations will be urged to send in their names of volunteer workers, and members of the congregations will be asked to offer their services in the cleanup of the pledge card campaign.

Wall Street Cheerful Over Loan Success

New York, Oct. 27.—The New York Evening Sun financial review today said: "With success assured in full measure for the second liberty loan, Wall Street was in a most cheerful frame of mind today. A good deal of bullish sentiment was heard with respect to the course of prices next week when the loan campaign will be out of the way and money conditions presumably will be easier. Traders had this possibility to look forward to and the result was a fair amount of short covering, although business in general was narrow and moderately active."

Prices were higher from the opening and before the close of the first hour a well developed swing upward was in progress, with a particularly good showing by the steel, shipping, copper and equipment groups.

HELEN CUDAHY DROWNED

Milwaukee, Wis., Oct. 27.—Miss Helen Cudahy, daughter of Mr. and Mrs. Patrick Cudahy, was reported drowned en route to Europe as a Red Cross nurse, in cablegrams received here today.

SISION SWEEP BY FIRE

Siscon, Cal., Oct. 27.—Practically an entire block of frame buildings were in ruins here today. The result of a fire last night, which did \$100,000 damage. The Mount Shasta hotel, several stores, saloons and barber shops were destroyed. The fire started in a shed at the rear of a shoe store.

ENREKA CALIFORNIA FOREST FIRE

Enreka, Cal., Oct. 27.—The line of the Northwest Pacific railroad running through Enreka, Trinidad, was tied up today and \$100,000 damage done, the result of forest fires which have been burning around Trinidad for the last week. The Hammond Lumber company has lost ten flat cars and 14 ties on its logging road which have been burned out, while several dwellings have been destroyed. No lives have been lost.

WALL STREET CHEERFUL OVER LOAN SUCCESS

New York, Oct. 27.—The New York Evening Sun financial review today said: "With success assured in full measure for the second liberty loan, Wall Street was in a most cheerful frame of mind today. A good deal of bullish sentiment was heard with respect to the course of prices next week when the loan campaign will be out of the way and money conditions presumably will be easier. Traders had this possibility to look forward to and the result was a fair amount of short covering, although business in general was narrow and moderately active."

Prices were higher from the opening and before the close of the first hour a well developed swing upward was in progress, with a particularly good showing by the steel, shipping, copper and equipment groups.
