

Save Your Worn Tires

You Can Get 5,000 to 10,000 More Miles out of them by using Gates Half-Sole Tires. We will put them on for you and change your old tires into new ones at about one-half the price you would have to pay for new tires.

Your tire comes into our plant, worn and scarred from service, and we deliver it back to you—the same tire—made oversize and with a brand-new non-skid tread of fresh rubber. Not a square inch of your old tire will be in sight, and you will not be able to tell it from a new tire.

GATES HALF-SOLE TIRES

Are absolutely guaranteed for 1,500 miles of wear without a puncture—and many users are averaging from 4,000 to 10,000 miles. You cannot get this kind of guaranteed service from any tire on the market without paying two or three times the cost of a Gates Half-Sole Tire.

LET US SHOW YOU

Don't throw away another worn tire until you have investigated the Gates Half-Sole. If you are paying the tire bills you will be interested and we are ready to show you how to keep your own pocket a big part of the cost of new tires and get better tire service than you have ever had before. We guarantee it.

Where Bread Cuts Are As Big As Your Plate

Somewhere, away from the throb of the city there's a farm house, quietly nestling in the sunshine, among protecting hills—a place where you're always welcome. Remember the yard, barn, the chickens—the warmth of the stalls during milking? Recall the hunt for eggs?

Can't you smell the hay in the mow? Can't you hear the welcoming bark of the dogs?

And the kitchen with the loaves of home-baked bread—jars and jars of jelly and jam. What wouldn't a man give to get back there again?

Harley-Davidson
For 15 Years The Motor Mount

brings "God's Country" to your door for a cost of but \$4 to \$6 a month.

Next Sunday you can ride out to the land of perpetual welcome.

Let us help you spend your next week-end. We can arrange terms to suit your convenience.

Maxwell Company Earns Over Five and Half Millions

Net earnings of \$5,507,997.01 are set forth in the annual report of the Maxwell Motor Company, Inc., for the fiscal year ended July 31, 1917.

These net earnings, with the undivided surplus of \$5,510,775.36, give a total corporate surplus of \$11,018,472.37. The annual report of President Walter E. Flanders says:

Detroit, Mich., Sept. 15, 1917.

To the Stockholders—

The fourth annual report of the Maxwell Motor Company, Inc., for the year ended July 31, 1917, is herewith submitted.

The net earnings of the company, as shown by the accompanying statement of West & Flint, certified public accountants of New York, amount to \$5,507,997.01 after deducting a corporation income tax of 2 per cent and with out any deduction for an excess profits tax.

Regular quarterly dividends of 1.34 per cent have been paid on the first preferred stock during the past fiscal year. Four quarterly dividends of 1 1/2 per cent each were paid on the second preferred stock on October 2, 1916, January 2, 1917, April 2, 1917, and July 2, 1917. Four quarterly dividends of 2 1/2 per cent each were paid on the common stock on October 2, 1916, January 2, 1917, April 2, 1917, and July 2, 1917.

Because of the uncertainty of the excess profits tax which is still undetermined by congress, and to conserve the company's cash assets and provide the proper quantity of raw materials for future manufacturing operations, it was deemed advisable at the directors' meeting of August 14, 1917, to pass the dividend on the second preferred and common stock.

The number of cars sold by us during the past fiscal year shows an increase of thirty nine per cent over sales the previous year.

The net working assets of the company and its subsidiaries at the close of its fourth fiscal year are \$12,280,977.05. The inventories have been taken at actual cost, we have no obsolete materials of any kind in our factories. The present market price of the inventory is considerably larger than the amount shown on the books.

The American Appraisal company has just completed an appraisal of our real estate, plants and machinery in which it states that these inventories on our books are conservative and substantially correct. (A copy of the report of the American Appraisal company is printed in this annual statement.)

The American Appraisal company in a special report which is on file in our office, advise us that the net sound or present day values of these properties (after deducting depreciation reserve of \$2,214,296.00) is \$8,305,398.43 or \$2,909,050.39 more than the net figures at which we carry them on our books.

Sales contracts with distributors have been signed for 32 per cent more automobiles of all models than had been contracted for at the same period last year. Sales contracts received to date also indicate that we will find a ready market for all of the one ton trucks that we will be able to manufacture during the next fiscal year.

Following this report are the profit and loss account, containing additional information as to the results of the year's operations, and the balance sheet.

Maxwell Motor Company, Inc.,
WALTER E. FLANDERS,
President.

Silverton Millmen Have Splendid Plan

It is conceded by all mill men of the state who understand the workings of the Mill Men's Hospital association that by the plan as maintained by the workmen of the Silverton Lumber company, is the best plan yet devised for the care of the sick and injured.

The operation of the plan is entirely in the hands of the men themselves being absolutely independent of the company. The men elect their own officers and have full say of all expenditures of their funds. If assessments are to be made it is by mutual consent of the members. During the past two years no assessment per month has exceeded 75c, and three months of this

47618—Gilson, C. L., Dallas, Oakland.
47709—Harris, Frank, Dallas, Ford.
47577—McElmurry, S. H., Independence, Maxwell.

Lost—One Motor Car Salesroom

Detroit, Oct. 27.—"They certainly bill this Liberty loan like a circus," said the conductor of a Woodward bus car this morning as he glanced out at the lithographs on a fence.

"Well, I'm tied up with coal balls and a lot of new furniture," said a passenger who was riding in the rear of the car. "It would have to be a sign as big as a house to jar any bond money out of me just now."

The car had just left Forest Avenue going south when he made his statement. "It would, eh?" broke in another passenger. "Well you just look at that." The car was passing the salesroom of Thomas J. Doyle, dealer in Dodge Brothers motor cars. From the roof to the ground, 30 feet, and covering the entire front of the 111-foot building was a sign, "BUY A BOND. It was as big as two houses."

"You win," said the first passenger. "I'll buy."

TRY THIS FOR A COLD—IT'S FINE

"Pape's Cold Compound" Ends Severe Colds or Grippe in Few Hours

You can end grippe and break up a severe cold either in head, chest, body or limbs, by taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed up! Quit blowing and snuffing. End your throbbing nose—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Be sure you get the genuine.

Year no assessments at all were made. The boys keep an available fund of about \$1500 in their treasury all the time.

The association was formed about ten years ago and has been so successful that no changes whatever have been made in the original plan. It has the full sanction of the state industrial and labor commissions.

Each man in need of a doctor has the full privilege of calling anyone he chooses, not being confined to a company doctor, as is sometimes the case with organizations of this character.

When a man begins work at the mill he automatically becomes a member of the association and his first day's pay goes into the fund, regardless of his wage or the length of time he works. If he works one day he sweaters the fund to that extent, and his membership ceases when he leaves.

By a petition circulated among the members Tuesday it was almost unanimously agreed to invest \$500 of their fund in liberty bonds. The bond has been purchased and placed in the hands of the treasurer. The mill men are to be commended not only for their thrift in looking after their membership, but also their government.

The officers of the association are: president, M. M. Sayre; secretary, W. E. Hooper; treasurer, W. A. Reynolds.—Silverton Appeal.

MARRIED AT SALEM SATURDAY

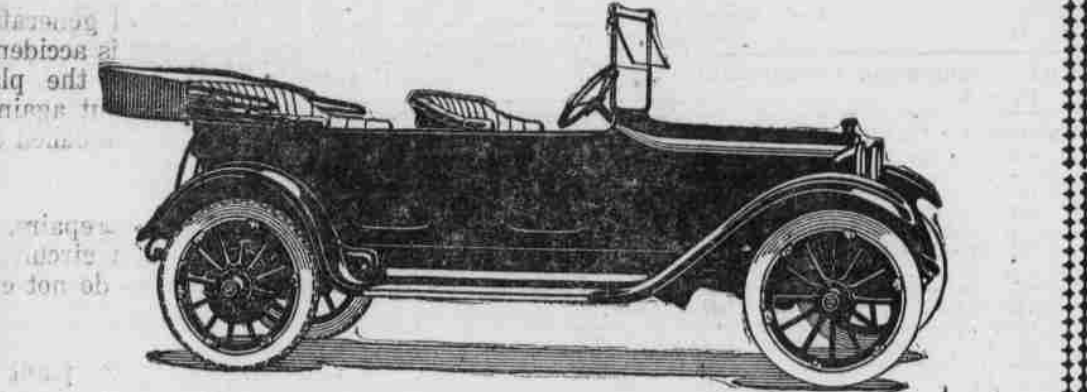

The marriage of Miss Mabel Davenport, daughter of Mr. and Mrs. D. Davenport of the Waldo Hills, to Granville Youcum of Yamhill county, took place at Salem Saturday, October 20, at the home of Rev. C. W. Corby, he having performed the ceremony. The happy young couple planned their marriage as a surprise and were quite successful in their plans. After a short honeymoon trip to Portland, they went to their future home at Bellevue in Yamhill county, where the groom has a farm. Their many friends wish them all joy in their future lives.—Silverton Appeal.

Dodge Bros. Motor Car

The car's steady growth in good opinion proves how readily the public appreciates real value. The kind of people who buy Dodge Brothers cars are seldom concerned with any question of price. They always think first of its high quality and stability. The record of its economy and comparative freedom from repair costs comes as a pleasant afterthought.

It will pay you to visit us and examine this car. The gasoline consumption is unusually low. The tire mileage is unusually high.

Touring Car or Roadster, \$885; Sedan or Coupe, \$1350; Winter Touring Car or Roadster, \$1050. (All prices f. o. b. Detroit.)

H. F. BONESTEELE
219 N. Commercial Street Salem, Oregon

O. A. C. EXTENSION WORK. Oregon Agricultural College, Corvallis, Oct. 26.—(Special—Extension service of the Oregon Agricultural College is preparing most comprehensive exhibits of food conservation ever staged in Oregon, for the Portland Land Products Show held Nov. 3 to 25.

O. A. C. will demonstrate various phases of conservation showing necessity for it and how it can be accomplished with least inconvenience and best results. The entire space allotted for this and for cabinet of transparencies showing college scenes and activities.

MAXWELL

Most Miles per Gallon Most Miles on tires

We used to say:
"The Maxwell's real greatness is on the inside—the mechanical parts you can't see."
But the wonderful new 1918 Maxwell has just been delivered to us.
Now we've changed our tune.
Today we say:
"The Maxwell is great inside and out—great in EVERY POSSIBLE WAY."

Always the most efficient—most economical light car built, the Maxwell now has:—

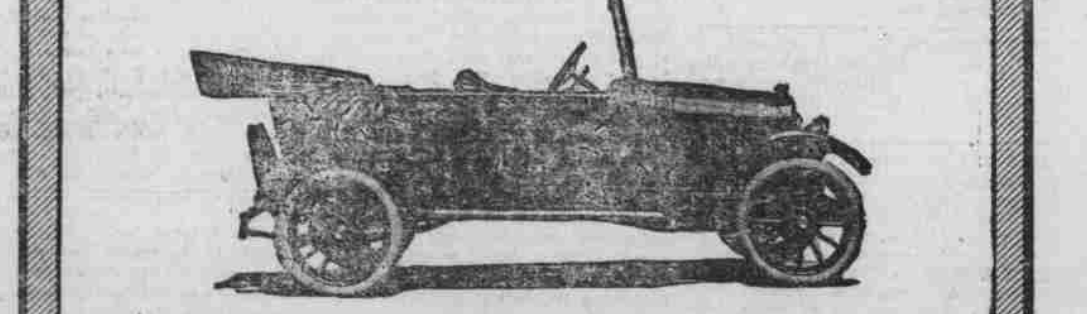

A 6-inch longer wheel base, making it larger and roomier.

Heavier and more rigid frames—6 inches, instead of 3 inches deep—and yet is 50 pounds lighter.

Compensating underslung rear springs—the last word in spring suspension at any price.

A sloped windshield—style of body equal to the highest priced cars.

Friends, the 1918 Maxwell is the best looking, best built car for the money we ever saw!

Touring Car \$745
Roadster \$745; Coupe \$1095; Barline \$1095;
Sedan \$1095. All prices f. o. b. Detroit
