

BROKEN DOWN IN HEALTH

Woman Tells How \$5 Worth of Pinkham's Compound Made Her Well.

Lima, Ohio.—"I was all broken down in health from a displacement. One of my lady friends came to see me and she advised me to commence taking Lydia E. Pinkham's Vegetable Compound and to use Lydia E. Pinkham's Sanative Wash. I began taking your remedies and took \$5.00 worth and in two months after three doctors said I never would stand up straight again. I was a midwife for seven years and I recommended the Vegetable Compound to every woman to take before birth and afterwards, and they all got along so nicely that it surely is a godsend to suffering women. If women wish to write to me I will be delighted to answer them." —Mrs. JENNIE MOYER, 342 E. North St., Lima, Ohio.

Women who suffer from displacements, weakness, irregularities, nervousness, backache, or bearing-down pains, need the tonic properties of the roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

AUSTRIA EXTENDS RULE.
Amsterdam, Nov. 5.—The Munich Nueste Nachrichten prints a report from Vienna that Emperor Charles on Sunday, which is his name day, will be proclaimed king of Poland and also ruler of the South Slav states, embracing especially Bosnia and Herzegovina and that part of Serbia already occupied by Austria.

AMERICAN ARTILLERY NOW FIRING INTO THE GERMAN TERRITORY

Raid in Which American Prisoners Were Taken Reveals Troops' Location

By J. W. T. Mason
Written for the United Press
New York, Nov. 5.—The German war office's location of the first raid on American trenches as along the Rhine-Marne canal, indicates that American artillery is now firing its shells directly on German territory. The western battle front crosses the Rhine-Marne canal within easy artillery range of the German boundary of Lorraine. By revealing the spot where Teutonic raiders found the American trenches, the Kaiser has been compelled to permit the German people to know that America's first bombardment on the European battlefields must have caused demolition of positions upon the German empire's own soil.

The first announcement that American artillery had been engaged in action in France was made October 27, while the date of the German raid on American trenches was November 3. For at least a week, therefore, before the Germans sent a patrol to investigate the sudden activity opposite the Lorraine border, American guns must have had German ground under actual or potential bombardment.

This is doubtless the reason why the Germans took such unusual measure to raid the American trench sector by providing a barrage artillery fire and suttine off the American victims from all possible help during the period of the raid. Artillery ammunition is too precious to Germany to be thrown away in this costly manner often. The damage, however, that American shells had probably been doing on German soil for at least a week, makes explicable the apparently reckless expenditure of barrage fire to assist a party of raiders.

The Germans must be fearful of sending raiding parties against the American trenches without artillery protection, because of the extreme thinness of the German-Lorraine front. In Flanders where the greatest fighting intensity is centering, the Germans have four men per yard. All along the Lor-

rairie border it has recently been semi-officially estimated they have one man for every two yards. German raiding parties, therefore, can depend little on infantry support in returning from the American trenches, and the raiders must have artillery help as if they were miniature offensives.

President of Railroad Must Account for Funds

Washington, Nov. 5.—The supreme court today decided that M. H. Smith, president of the Louisville and Nashville railway, must make public the purposes for which certain funds were spent under his personal direction. The decision follows a fight led by Ex-Senator Luke Lea, who charged the existence of a huge corruption fund to maintain a lobby, bribe state officials and corrupt legislatures.

The decision means that the interstate commerce commission may from now on go into the innermost secrets of a railroad's political conduct and may decide if certain expenses may be legitimately approved by it as "operating expenses."

Wilson and Roosevelt Both Partially Blind

Washington, Nov. 5.—"Me frind, Tiddy, I observe is blind in one eye and me frind Woodrow can't see out of the other," observed an Irish wit, by way of comment on the recent disclosure of the afflictions which beset the two great Americans. Now that the truth is out, the President may expect, at some future time, to be accused of attempting to steal the Colonel's thunder, for not until after Colonel Roosevelt confessed to having lost the sight of one eye in a boxing match "way back in 1905, was the public let in on the secret that President Wilson, by excessive reading, had rendered one of his eyes practically useless.

THE OLD RELIABLE BLOOD BUILDER

Still retains its supremacy. People still take Hood's Sarsaparilla because it is an old family friend, has proved its merit to three generations—in purified blood, expelled humors, restored appetite, relieved rheumatism, banished tired feelings.

It long ago became recognized as the standard blood purifier and general tonic. It originated in a Boston physician's successful prescription, and comprises medicinal roots, herbs, barks and berries such as are often prescribed for ailments of the blood, stomach, liver and kidneys. Buy it in the same style package your mother bought it in,—same fine appearance, same pleasant taste, same certainty of good results.

CONSTIPATION IS A PENALTY OF AGE

Nothing is so essential to health in advancing age as freedom and normal activity of the bowels. It makes one feel younger and fresher, and forestalls colds, piles, fevers, and other dependent ills. Cathartics and purgatives are violent and drastic in action and should be avoided. A mild, effective laxative, recommended by physicians and thousands who have used it, is far preferable. This is the combination of simple laxative herbs with pepsin sold by druggists under the name of Dr. Caldwell's Syrup Pepsin. It costs only fifty cents a bottle; a trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 456 Washington St., Monticello, Illinois.

Score one for a bit of Seattle spirit that shows the proper spirit. Instead of pouring confiscated bonded whiskey into the gutter it has been turned over to the state committee of the national council of defense for use in hospitals. Portland and Oregon officials please copy.

"The Silent Man" will be William S. Hart's next screen offering.

Athletics for All Men But Too Much for None

Better-Body Exercises and Foundation Games Fit Students for Army Life and for the Big Game

O. A. C., Corvallis, Or., Nov. 5.—Better bodies for all young men and physical fitness for the strain of military hardships and the big inter-collegiate games, are the aims of the athletics required of students here.

The big and the over-developed huskies that need no "building" are no longer grabbed up on their first appearance on the campus and given the "too-much" treatment necessary to "win the game." Instead every man is given a special examination to find out what he most needs and then the kind of drill that develops it, and assigned to play with his college-mates the games he likes and needs. If defective in bodily vigor he is given special corrective exercises. Two hundred men are now taking corrective exercises.

The foundation games not only strengthen the body and clear the mind, but incidentally disclose the special athletic qualities, if any, that each man has. He is then graduated naturally into those inter-collegiate sports

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action. If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime. Thousands take one or two every night just to keep right. Try them. 30c and 25c per box. All druggists.

that he is best fitted for, where he is in position to do the best for his school and to do it with the least strain and injury to himself. The salutary value of this work is seen in the success of the French in capturing one of the strongest forts on the western front almost without the loss of a man, after having "rehearsed" for the exploit for many weeks.

This work is directed by the department of Physical Education men, in charge of Dr. A. D. Brown, who has succeeded in getting the whole school to playing. Co-operating with him are the departments of Health, the Military and the inter-collegiate sports under Coach Jos. A. Pipal.

Football interest is making itself more apparent as a result of the announcement that Coach Matthews has scheduled a game with the University of Oregon freshmen to be played here
