shelf with quotations 25 cents a box higher today. This is due to the fact that the California naval crop is only 40 per cent normal and the Florida crop only 60 per cent normal.

Lemons are hitting the high spots. This was pdedicted by commission men several weeks ago. This boosting of lemons is due to the fact that Sicily is not shipping any to this country on account of the shortage of ships.

Cranberries are up. While the west has rather more than a normal crop, there is considerable shortage in the cast.
