Marion County Responds

To Y. M. C. A. War Call

The county is responding patriotically to the call of the war fund of the Y. M. C. A. Last evening Walter A. Denton was the speaker of the evening at Brooks. The meeting was a success not only in enthusiasm but in the amount of subscriptions received. Gervais was also organized for the work with an address by Dr. H. C. Epley and singing by the famous Epley male quartette. At Aurora last evening talks were made by Chaplain A. K. Stevens, Louis Westlund and R. K. Page. C. C. H. Cock was elected chairman and N. C. Westcott, secretary. St. Paul, Fargo and the surrounding territory was organized last evening at a meeting attended by more than 300. Hubbard and adjacent territory was organized by the Rev. James Elvin and other speakers. Stayton will be organized Friday evening and Turner Friday afternoon at 2 o'clock. Jefferson and Marion have both been organized and the county in general is responding to the call of the Y. M. C. A. for its war work.

Five Are Examined

for Hubbard Postmaster

Postmasters are gradually coming under the Civil service rule, which means that when a man once gets the job, it is good for a life time or during good behavior. Hence the ambition of five men living at Hubbard to become its next postmaster, as the job pays \$1200 a year with \$120 for clerk hire and an allowance of \$160 for rent, fuel and lights. Civil service examinations were held yesterday by Paul W. Miller, secretary of the local Civil Service for the position of postmaster at Hubbard, which is now being temporarily filled by M. B. Kromling. Among the five candidates taking the examination were Peter Whitney, Charles Crittenden and M. B. Kromling.

County Parent-Teachers' Association to Meet

The Marion County Parent Teachers' Association will meet in the assembly room of the Salem high school Saturday, November 24. The program is as follows: 10:30 a. m.—President's address by Mrs. M. L. Patterson. 11:15 a. m.—Reports from Delegates. 11:20 a. m.—Election of officers. 12 m.—Lunch in the domestic science

CRAWFORD EXPLAINS OPERATIONS OF FLAX PLANT AT PRISON

Figures Show That His Management Has Proven Profitable to State

The governor the other day in winding up Mr. Crawford's connection with the state flax plant said: "Personally I do not feel that Crawford has made good." Owing to this statement Mr. Crawford has prepared a statement covering all transactions at the plant since he took charge. It shows that without taking into account the material unworked now on hand and not considering the \$4000 expended in inaugurating retting tanks and such, his work has a net balance of \$1068.12 in his favor over and above all things that can properly be charged up against him. But taking into account the material yet to be worked, and estimating at its reasonable market value, there is material worth \$25,100 on hand. The governor has not yet acted on the matter of the bonus promised Mr. Crawford when he was employed, \$50 a month if he made good. The governor has offered him in settlement \$400, which shows the governor is now disposed to believe he has made at least half good. Mr. Crawford's statement of debits and credits follows: Items to be deducted from Crawford's credits: Cash on hand at the time of Crawford's employment August 3, 1916, \$3,200. Appropriation made by legislature to repay money advanced by local banks, \$10,000. Seed sown by farmers in spring of 1916, sold to them at \$1.50 per bushel, 900 bushels, \$1350. 732 bushels of seed in seed house at \$2.40 per bushel, \$1732.80. Ten per cent discount on investment of \$8837.30 for wear and tear on machinery, \$883.73. 84,000 pounds of dew retted tow of no commercial value as prepared and left by Cady, which when cleaned and worked over dwindled to 33,465 pounds which was sold for \$1673.25, from which should be deducted cost of building and installing three tow machines, and cleaning, insurance and transfer charges, leaving net balance of \$1,173.25. Total of these items is \$18,339.78. As an offset for this sum, Crawford gives the following assets on hand November 12, 1917: Cash \$9500. For seed charged to the Oregon Flax and Fiber Co., 400 bushels at \$2.40, \$960. For seed charged to the Salem Commercial club, 354 bushels, \$850. 1050 bushels of seed on hand at \$2.84 \$2982. 5000 pounds of scutched flax fiber, ready for shipping, at 45 cents a pound \$2250. 2100 pounds of fine scutching tow, ready for shipping, at 12 cents a pound \$252. 3000 pounds of coarse scutching tow, ready for shipping, at 8 cents a pound \$240. These items, which include only that which can immediately be turned into cash, make a total of \$19,408, or just \$1,068.12 more than the sum which should be chargeable against Crawford in determining if he has made a financial success.

What Crawford Turned Over

But in addition to this there is on hand, as a result of Crawford's work, flax material which he estimates will net the state \$25,000. He list it as follows: Retted straw in the penitentiary department of the high school. 1330 p. m.—Opening exercises. 2:00 p. m.—Address by S. S. Duncan of Yamhill county. 3:00 p. m.—Address by O. M. Plummer of Portland.

Certain Cure for Croup

Mrs. Rose Middleton of Greenville, Ill., has had experience in the treatment of this disease. She says, "When my children were small my son had croup frequently. Chamberlain's Cough Remedy always broke up these attacks immediately, and I was never without it in the house. I have taken it myself for coughs and colds with good results."

Stockton, Nes., Nov. 15.—"If Clyde

is missing we hope he hasn't been captured by the huns," said Miss Verna Grimsley, age 19, sister of Private Clyde I. Grimsley, reported "missing," following an engagement between Boches and Sammies in France, when told of the news today by the United Press.

Manager High presented his first

road show at the High last night as an experiment. "Freckles" excellently dramatized from Mrs. Porter's beloved novel, was presented by a nicely balanced cast of players, and delighted a good sized house. Eight songs were introduced by members of the company, and the effect was pleasing. Particularly enjoyable were the two Scotch numbers by Mr. Hickson, and "The Sunshine of Your Smile" by Mr. Roome, who capably handles the role of "Freckles." Mr. Lyall's droll rendering of "Oh, How That Woman in Cook," was well received.

ELECTRICAL STRIKE WILL BE SETTLED

Agreement Has Practically Been Reached at San Francisco Conference

San Francisco, Nov. 15.—Northwestern members of the Electrical Workers' union, who are on strike against the Pacific Telephone and Telegraph company, were asked by Secretary of Labor Wilson today to send representatives here to participate in the conferences of the federal mediation board for settlement of the telephone controversy.

Despite the previous insistence of the Northwestern men that they must be dealt with at Seattle and not in San Francisco, the mediation board members believe they will comply with Secretary Wilson's request.

Practically all of today was devoted by the board to the work of completing the terms of settlement of the telephone controversy. The proposition has been submitted to both sides. It is understood that the only stumbling block to acceptance of this proposition is the question of recognizing the telephone operators' union.

Governor Lister of Washington, who is here, today telegraphed Harvey L. Hughes, Washington industrial insurance commissioner at Olympia, to get in touch immediately with the electrical unions of Washington and request that they send delegates to San Francisco to participate in the conference. Lister declared he believed a satisfactory settlement could be reached here which would make it unnecessary for Wilson and the mediation board to hold another meeting in the northwest.

Hughes replied that he is today urging the heads of the electrical workers to send representatives.

It is understood that both the company and the electrical workers' union officials will accept the tentative agreement proposed, which will settle the controversy, at least so far as California exchanges are concerned. Whether the terms will be acceptable to the northwestern electrical workers is problematical.

It is learned that the settlement proposed a wage increase to electrical workers of approximately 12 1/2 per cent and that practically the same per centage of increase to telephone operators is provided. The company will not recognize the operators' union, but will agree not to discriminate against organized workers.

While members of the mediation board discuss the matter, it is reported that should the northwestern strikers decline to send representatives here, the terms submitted to both sides here will be made applicable to California only and the board will go north to negotiate with telephone employees there. Secretary of Labor Wilson is said to be anxious to settle the controversy for the whole coast here and avoid the necessity of going north.

buildings ready to manufacture and which should produce: 25,000 pounds of fiber, worth 45 cents a pound, \$11,250. 60,000 pounds of coarse tow, worth 8 cents, \$4800. 6000 pounds fine tow, worth 12 cents, \$720. Unretted straw in the building which will produce: 12,000 pounds of fiber, worth 50 cents, \$6000. 20,000 pounds of coarse tow, worth 8 cents, \$1600. 4000 pounds fine tow, worth 12 cents, \$480.

Total for the product yet to be manufactured therefore is \$25,100. Crawford says these figures are not, as he has deducted cost of manufacture.

All the above relates to the 1916 crop, which has been the only paying crop produced. The 1917 crop, Crawford says, consists of about 90 tons of straw, as received from the farmer, and represents a cash value of \$22 per ton as it stands, as all expense in connection with it have been paid to date.

No credit has been taken by Crawford for approximately \$4000, which was expended from the flax fund for retting tanks, an automobile and other equipment and improvements while Crawford was manager.

SHERMAN WRONG.

Freeport, Ill., Nov. 14.—You're all wrong, Sherman; you're all wrong. When two eastbound troop trains bearing national army troops from Camp Lewis, Tacoma, Wash., stopped here Freeport girls walked along either side of the coaches and kissed hundreds of soldiers leaning from the windows.

Mrs. P. O. Stuchell Tells How She

Cured Her Son of a Cold "When my son Ellis was sick with a cold last winter I gave him Chamberlain's Cough Remedy. It helped him at once and quickly broke up his cold," writes Mrs. P. O. Stuchell, Homer City, Pa. This remedy has been in use for many years. Its good qualities have been fully proven by many thousands of people. It is pleasant and safe to take.

General Pershing

Endorses Y. M. C. A. Fund Chicago, Nov. 15.—General Pershing endorsed the campaign to raise \$35,000,000 for the Y. M. C. A. war work, in a cablegram received today by Rufus C. Dawes, member of the committee conducting the campaign. The cablegram follows: "The highly praiseworthy work of the Y. M. C. A., among our troops in France meets with my unqualified approval. Its moral tone and christian character can hardly be over-estimated. The Y. M. C. A. should be sustained by generous contributions from our people at home, whose sons will receive the benefit." (Signed) John J. Pershing.

Colds Cause Headache and Grip

LAXATIVE BROMO QUININE removes the cause. There is only one "Bromo Quinine." E. W. GROVE'S signature is on the box. 30c.

FEAR OF MEXICAN ATTACK ON PRESIDIO

Rebels Rule Across Border But Americans Are In Strong Force

Presidio, Tex., Nov. 15.—Fear of an attack by Victorious Villista forces in possession of the Mexican town of Ojinaga, just across the border, was allayed today with the arrival here from Marfa of reinforcements of regulars to the cavalry patrol under Captain Theodore Barnes, Jr. Last night's victory places the bandit forces in undisputed control of the border from this point to Guadalupe, a distance of 200 miles. Villa soldiers today yelled across the river that they intended to attack Juarez and then Chihuahua City.

The evacuation of Ojinaga by the government forces was precipitated by a message sent to the commander, General Cordova, by Martinez Lopez, bandit leader, that every prisoner taken, including officers, would be executed, it was learned today. Several prisoners taken in the attack last night were executed by the bandits today. About two hundred of Cordova's men were estimated to have been killed or captured, while the bandits' losses were slight.

Friendly to Americans.

Washington, Nov. 15.—The Villistas expressed friendship toward Americans and promised to avoid harming them, following Ojinaga's fall. General Cruikshank reported to the state department today. He said 400 Carranzistas, including some wounded, fled to Presidio, Texas.

MONEY ROLLING INTO Y. M. C. A. WAR FUND

Over \$1,500 Additional Was Reported at Noon Lunches Today

Another swipe was taken at the Y. M. C. A. army and navy fund when the campaigners gathered at noon today and made their several reports. The incoming rush of cash and pledges totaled \$1532.90 for the day's labors, with Homer Smith's group, the high men, having garnered in \$386.50. Patton and Gross were next in line with \$332 and \$304 respectively.

Other scores for the day follow:

Watson, \$75.50; Evans, \$71; Webb, \$77.50; Albert, \$53.50; Baumgartner, \$76.35; executive committee, \$50. The grand total of the fund is now \$7174.50.

It should be explained as a matter of fairness that the three teams who are far in the lead, namely, the Smiths with a total of \$1400, the Crosses with a total of \$1150, and the Pattons who have \$1100, have the cream of the territory, with the down town districts. The other teams though they show far less total money and pledges are working just as hard, if not harder for their cause. Many calls in the residential districts are met with "See my husband," and that prospect goes to one of the three teams mentioned. The districts were drawn by Jot, and these three teams are merely, in the parlance of the day, "the lucky stiffs."

One other feature that needs careful explanation is this: it will be noted on the receipts issued by the workers that the reading is "for national and local Y. M. C. A. war campaign." The truth of the matter is that every cent collected in Salem goes into the war field work, and not one single cent is to be used locally, for the local plant
