—sold considerable, too, and now it is known the nation over as the standard cough and cold remedy. Successful and satisfactory because it is quick acting and safe. Doesn't upset the stomach nor does it nauseate. Use it for that mean hacking cough, and in all stages of grippe. Get it at your druggists

**Always Lead to Better Health**  
Serious sickness start in disorders of the stomach and liver. The best corrective and preventive is Dr. King's New Life Pills. They prevent Constipation, keep Liver and Bowels in a healthy condition. Effective, mild, 25c.

**Eastern Oats Contain**  
**Pestiferous Weed Seed**

Corvallis, Or., Nov. 22.—Eastern oats now being shipped to Oregon in ear lots are of the No. 3 or No. 3 clipped grade which may carry considerable weed and trash seed. Two ear lots from Minnesota while still on the track were examined by Prof. G. R. Hyalop and his class of farm crop students and showed dangerous weed seeds not common to many places in Oregon.

**Salem Floral Society**  
**Holds Monthly Meeting**

The Salem Floral society will hereafter hold meetings only once a month the first Monday of the month. Arrangements will be made whereby some qualified person will give demonstrations on plant and vegetable life.

The society now has on hand about 10,000 rose slips ready for distribution. Marion street will probably be the first to receive many of these slips as the property owners in that part of the city have shown a disposition to beautify their parkings.

It is understood that a representative of the Society did not receive much encouragement from the property owners on the Fair grounds road, where the Floral society proposed to give rose slips sufficient for several blocks, on the condition that a majority of the property owners of each block would agree to plant in the parkings and keep the roses well cultivated. It was hoped that the entire fair grounds road would be lined with roses.

Rose slips may be had from E. C. Prof. Hyslop says that this stock is not fit for seed. Farmers wanting seed stock can get much better by inquiry of the state seed stock committee, O. A. C., Corvallis. Even if used for feed the seed may be scattered unless all stall litter is fully rotted before being spread on the fields.

One ear was full of Canada thistle heads, wild rose, bind weed, French weed or penny cress and wild vetch or wild pea, as well as many other seeds. The oats came from a quack grass country, and that weed should especially be looked out for.

The other ear contained bind weed, wild rose, penny cress, numerous less dangerous weeds. All samples contained wild oats both in common and woolly forms.

Great interest is being taken in President W. J. Kerr's forthcoming reply to the invitation to accept the presidency of Kansas Agricultural College at \$9000 or more per year. President Kerr is now at Washington, D. C., and it is understood that he merely agreed to take the matter into careful consideration. O. A. C. ranks third while K. A. C. is first in the entire country, but his well known interest in his work here encourages the faculty to hope that he may see his way clear to remain in Oregon.

**Band Concerts Voted**  
**by People at Election**

Besides other momentous matters that must be settled at the meeting of the city council on the evening of Nov. 30, the city fathers will be confronted with that of band concerts.

The budget as prepared which will come up for final passage Nov. 30, does not include appropriations for band concerts next summer.

On Dec. 2, 1912, the citizens of Salem voted in favor of public concerts in the summer. It is ordinance No. 1156 and the title is "Appropriating Money for the Support and Maintenance of a Salem Band for the General Public". Section 1, recites that the sum of \$1500 or so much as may be necessary shall be used out of the general fund not otherwise appropriated. Section 2 of the ordinance provides that the expenditure of the money shall be placed in the hands of a special committee and that it shall be their duty to enter into a contract for the band.

Now here is where the lawyer comes in to interpret the law. The ordinance voted by the people Dec. 2, 1912, just merely provides for the expenditure of \$1500 for a band, and this has been complied with as this amount was expended the following year. The lawyer contends there is nothing in the ordinance providing that the amount must be expended annually. Hence, the law having been complied with in spending \$1500 for a band in 1915, there is nothing in sight as to what should be done during the summer of 1918.

A petition has been signed by many of the leading business men of the city asking that the band concerts be retained, but this petition didn't seem to worry the city fathers to any great extent at their last meeting when he band concert proposition was passed up and no provision made in the budget.

**Professor Nearing Quits;**  
**Hillquit to Fill Dates**

San Francisco, Nov. 23.—Morris Hillquit, candidate for mayor of New York at the recent election on an out and out pacifist platform, is coming west to carry out the lecture program which Professor Scott Nearing failed to conclude. Officials of the People's Council here made this statement today.

Nearing left for Los Angeles when he learned that Dreamland rink where he was scheduled to speak had been closed to him. It is understood he was greatly disappointed over his reception in the west.

If Hillquit comes, it is stated that he will be prepared for legal tests of his right to speak.

Before leaving here Nearing issued a statement through the People's Council, in which he recited the difficulties he had encountered during his speaking tour.

"My work is now finished and finished successfully," he said, "in spite of the efforts of the profiteers. The People's Council is established on a solid foundation. We have sufficient funds to carry out our immediate program and ordinance provides that the expenditure of the money shall be placed in the hands of a special committee and that it shall be their duty to enter into a contract for the band."

Now here is where the lawyer comes in to interpret the law. The ordinance voted by the people Dec. 2, 1912, just merely provides for the expenditure of \$1500 for a band, and this has been complied with as this amount was expended the following year. The lawyer contends there is nothing in the ordinance providing that the amount must be expended annually. Hence, the law having been complied with in spending \$1500 for a band in 1915, there is nothing in sight as to what should be done during the summer of 1918.

A petition has been signed by many of the leading business men of the city asking that the band concerts be retained, but this petition didn't seem to worry the city fathers to any great extent at their last meeting when he band concert proposition was passed up and no provision made in the budget.

**SAGE TEA DARKENS**  
**HAIR TO ANY SHADE**

**Don't Stay Gray! Here's a Simple Recipe That Anybody Can Apply with a Hair Brush**

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. When ever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out of date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

we are continuing actively our efforts to secure an early democratic and permanent peace to re-establish American liberties and to maintain economic rights."

Looks as though we might get by all winter with the B. V. D's.

**SEND MORE TOBACCO**  
**AND MORE LETTERS—SO**  
**WRITES A SOLDIER BOY**

**Portland Boy Now In France**  
**Says Tobacco Is Greatest Need**

The Portland Journal prints a characteristic letter from France as follows:

"Another cigarette and a letter from our friends—that's all we want," writes a Portland boy who is attached to the office of chief of gas service with the American expeditionary force in France. The letter is from Roy C. Compton to B. J. Streicher, connected with Giesbach & Joplin.

"If you fellows had as much desire to hear from home as we have over here," writes Compton, "or if you could even half realize the desire for mail that comes over each of us each time the United States mail comes in and we get none, I am sure each and every one of you would each and every week sit down and mail a letter to each and every person you know who is in the service."

"Madden, Parsons and myself from the first district, and Finch from the second Portland district, are all working for your Uncle Sammy on work we know nothing of, hardly ever before heard of, although every one has some vague ideas regarding the same—working longer hours than we worked in Portland, with less conveniences; sleeping on cots, washing in cold water, eating our soup and dessert out of one dish, taking a bath when the French bath house has hot water and generally while you lazy loafers won't let us know whether Portland is on the map or not."

"When you come, fill up your barrack bag with all the tobacco you can get in it. Never mind about bringing your extra shirt—you will wear one a couple of weeks longer than usual and won't need but two, but bring your own smoking. The French weed does not make a bit with any of the boys over here."

The Capital Journal's tobacco fund was started because the boys in France need tobacco more than perhaps any other one thing—and sometimes it is hard to get out in the front line trenches, all reports agree.

The fund is growing slowly but steadily, the following new subscriptions have been received during the past week:

Previous total	\$58.00
Lillian M. Kinsling, Oak Point, Wa.	.50
W. H. Cook, 165 S. 12th	.25
Mrs. Demogolla, 253 N. 13th	.25

**OPEN FORUM**

**A LETTER FROM WACONDA.**

Editor of Capital Journal:

Waconda, is again on the map. She greets Eola, and compliments her, for having an able reporter. One who says something worth while in common place words. Waconda asks that Fred Lockley the Oregon Journal biographer-historian, how he overlooked Mrs. Mary Ma-linda Fox, of North Salem. (My present companion), living where the big tree stands in the middle of the road between Hopmer and Waconda. We claim her for Waconda. Her father's name was Brown. A descendant of Bob-bie Burns, the Scott poet, whose mother's name was Brown. She is related to Masternus Ward the humorist, to Billy Sunday, the evangelist, to President of the U. S. A. Grant, and is a pious old lady. While hiking northward yesterday the day being beautiful, I saw numerous automobiles (aching north and south, J. C. Savage and his family were out riding. Also Arthur Goffin and his very charming wife, Eva Massey Goffin and her mother Ellen M. Massey. The Mastin family motored to Sherwood. Arthur Lind-say went to Portland.

I called at the home of August Schneider and I visited Mrs. Hugh Eld-ridge (Nancy). Every one knows and loves Nancy, and she has more rich relatives than any one at Waconda. Mrs. Maria Harding of Salem, who owns 1200 acres of land at Cottage Grove and Mrs. Teresa Savage, who owns 600 acres at Waconda. Mrs. Jasper Skiff of Salem and Mrs. Annie Hall of Claxton is her sister, and Dora Keene, of Waconda is her brother—the best fellow in the state. W. Al Jones, and George Thurman shipped a carload of hogs and cattle to Portland, and one hog by express to Joseph, Eastern Oregon, Sunday. While at Eldridge I saw Walter Nusome passing by he was going to see his girl. Sincerely yours, ELLA M. FINNEY.

you printed a resolution against the practice of carrying advertising for the tobacco fund for our boys in the army. This resolution was printed under the heading "Methodist Women Oppose Tobacco Fund," and would lead one to believe that the women are the only ones opposed to this fund, when as a matter of fact there was one man's name with it and it had been adopted in open meeting, both men and women voting. Now, therefore, we, men, citizens of Salem and heads of families want also to voice our protest against this fund for the following reasons:

1. We are not in sympathy with the cigarette and feel that if such was sent from home to the boys that it would have the effect of recommending them to the boys and no doubt be the means of starting many a boy to using them that had not acquired the habit.
2. We dislike to see such appeals made to the patriotic feelings and sympathies of the public and thus secure many contributions from those that are anxious to do anything they can toward helping the boys and make such contributions not thinking of the harm they may do to boy both physically and morally, when as a matter of fact we recognize that there is no patriotism back of the movement but rather a gigantic advertising scheme on the part of the millionaire tobacco company to secure free advertising.
3. We are of the opinion that the papers that are carrying this advertising are either being fooled into donating that influence to and unworthy cause and helping a commercial venture, or are helping fool the public. Also that the so called reduced rates are in reality but little if any reduced to the manufacturers and the difference in price at which the tobacco is being furnished is mainly made up in the cutting out of the retail dealers profit.

(Signed by)

JOSEPH BARBER,  
THOS. HENDERSON,  
A. J. LOWRY,
