**Dogmatism Denounced by Evangelist Evans**

"Dogmatism is just puppyism grown up."  
 "What Mexico needs is not bullets and bayonets—She needs Bibles and beans."

Last night in spite of the weather Bruce Evans spoke to a large crowd in the First Baptist church. Evans talked on the Bible. The evangelist was not a preacher last night. He was a lawyer standing before a judge and jury pleading for a cause in which he believed with all his heart. He made a good case if one might judge by the attention he received on the part of his hearers. Evans gave the reasons he believed the Bible to be divine. The speaker did not insist that every man agree with him. He only asked them to hear his side of the question and arrive at their own conclusion. The Bible has stood every test said Bruce. It is the only solution of the awful problems we find on hand in the world today. How can you explain the sorrow, sin, misery, blasted hopes, ruined lives, broken homes, tears, heartaches and drunkenness unless you look to the Bible for the cause and thank God for the solution. If man had not fallen then sin never would have come into the world with the list

## DAILY STEAMER SERVICE FOR SALEM

### Pomona Will Come Up River at Night Returning Following Day

Announcement was made this morning from the Portland office of the Oregon City Transportation company that daily steamer service will be opened between Salem and Portland on January 15th, if normal weather conditions prevail at that time. The schedule that will be put into effect provides for the steamer Pomona being used first and she will leave Portland at 8 o'clock at night. This run will be made through to Salem without stops, except in the locks at Oregon City. Returning, she will depart from Salem about 8:30 o'clock in the morning and make no stops on the way. By that system there will be a daily steamer in each direction independent of the steamer Grahamona, which will continue to ply to Corvallis every other day.

The new Salem service will make it possible for Portland firms to fill orders and make delivery at any time during the day, and the shipments will go forward that night so Salem houses will receive delivery early the following day.

If the railroad service is curtailed as a consequence of the Government now directing operations, the new steamer schedule will be especially advantageous. In any event, it will be more desirable than the present schedule, which provides for a daily service to Salem, but all way landings are included, and for that reason much time is lost.

The company resumed its regular service yesterday after being held up several days by high water conditions. The Grahamona came up from Portland last night and went on to Corvallis and the Pomona will be up from Portland tonight. This service will be maintained until the new schedule goes into effect the middle of the month. It is not anticipated that any more high water will interfere with the operation of the boats at least till March when the annual high water ordinarily comes. The boats were operated without losing a day last winter and spring and the fact that there is no snow in the mountains to swell the streams later when it melts makes it very probable that there will be less water this spring than last.

of other things mentioned above. The man who talks against the Bible is talking with Brother Sampson's weapon according to Evans. He speaks tonight.

When you look upon this food controller idea as being something new in your experience, haven't you forgotten that you were once a baby?

## AID FOR ARMENIA WILL BE NEXT DRIVE

### Committee To Manage Campaign In Marion County Has Been Selected

Marion county is getting ready to send first aid to Armenia. In conjunction with a nation wide campaign to send assistance to this stricken people, a committee has been chosen to lead the movement in this county, consisting of Jos. H. Afferts, as chairman, Ben W. Oleott, S. B. Elliott, treasurer, Fr. J. R. Buck, rector of St. Joseph's church, and B. A. Harris, secretary. Robert S. Gill has been named as campaign manager.

Headquarters have been established at 521 Court street, in the Derby building, through the courtesy of Mr. Derby, and telephone connection established, the number being 210. It is expected that every community in the county will be visited, and as nearly as possible every individual reached with the great appeal.

What has been happening in Armenia has not been generally known throughout the country, although the atrocities have been going on there since 1915. On the testimony of reliable witnesses, not one or two, but twenty, and with the imprimatur of Ambassador James Bryce, we are compelled to believe things that would otherwise be incredible. The murder of a nation was deliberately planned, and well nigh carried out. Massacre, torture and deportation were the most pleasing features of the campaign of slaughter initiated by the Turkish government in 1915. What happened in Belgium happened over again in Armenia, aggravated ten fold by unnecessary horrors. Not only did the Armenians actually in the war zone suffer, but those far removed from it were tormented and tortured, the women violated, the girls and boys made slaves, the former to go into the Turkish harems.

The path of the deported peoples, hurled onward by the Turkish officials was strewn with dead; women, confined on the road were compelled to resume the march at once, with bayonets and knives; parents disfigured their girls that they might not be a temptation to the Turks and Kurds, a sacrifice that usually was in vain. At the end of the march, little but lingering death awaited. The peoples were formed into "agricultural colonies," these being planted in the midst of the desert, or, in one case, in malarial swamps. Here thousands of people perished. Today it is estimated that two and one half millions of people are starving to death slowly, with insufficient food, insufficient clothing, and insufficient protection against the climate. In some cases this is the

scorching desert, and in some cases the hill mountain passes of the Caucasus. Only from America can these people look for aid and comfort. With a nation dying before our eyes, there is one of two attitudes we may take. We can forget it and let them die. Sooner or later all will perish—sooner if we do nothing. Or we can send them aid, food, clothing. At least four hundred thousand of the sufferers are children. Most of the balance are women and old men. For the most part the men, the natural protectors were slaughtered at the outset. Except that the mind of America was so fastened on the war fronts, the tragedy in Armenia would have raised such a cry of horror, and such a wall of pity in this country as would have gone round the earth.

Already Marion county has begun to "do her bit." The Sunday school of the First Methodist church has given over \$400, and that at the Christian church has contributed \$102.50. Offerings have been taken at Isaac Lee, and at the First Presbyterian churches. \$7,000 is the amount asked for from Marion county, and committee members express full confidence in raising that sum, if the public can be brought to realize the awfulness of the tragedy that has come to Armenia.
