For rent 5 room strictly modern house with garage for a period of years. Socolofsky, call 976, 1-28

## FAKE ADVERTISING BY BUSINESSMEN

### Milliner Makes Allegation That Unfair Methods Have Been Resorted To

Fake advertising in Salem received a rough reception at the hands of the Salem Business Men's league at its meeting last evening. Statements by Mrs. L. G. Curtis, a local milliner, that fake advertising was being resorted to by one or more firms led to action being taken which is hoped will put a stop to this form of deception. H. W. Meyers made a motion that the case or cases referred to be placed in the hands of the league's attorney and the directors for investigation. The motion was seconded by Walter A. Denton, who declared that misleading statements have been made in advertisements in the daily press and expressed himself as of the opinion that vigorous action should be taken by the league should deceptive advertising again be brought before that body.

J. W. Chamberlain, a member of the special committee appointed at the last meeting to try and get concerted action on the part of the merchants of the city in the matter of an early closing hour during the holiday season, reported that through diversity of views and interests among the merchants the committee had not met with very universal success. A number of the members present thought further action might be had and voted to continue the committee in the hope that a greater number of merchants would fall in line on the early closing hour. The subject and the committee's report was made a special order of business at the February meeting of the league.

Walter Denton, secretary of the Oregon Retail Grocers' association which meets in Portland next month, was made chairman of a committee to nominate delegates to the grocers' convention. The Business Men's league is entitled to one delegate for every ten members, and the membership of the league numbering approximately 170, at least 17 delegates will be appointed to attend the Portland convention.

Announcement was made of the election by the directors of W. A. Weist as attorney for the league to take the place of Ralph D. Moore, who has entered the military service. A communication urging that action be taken protesting against magazine postage rates was tabled on the ground that the petition might have been inspired by mail order houses.

## United Mine Workers Asked To Be Loyal

Indianapolis, Ind., Jan. 16.—Demand for the elimination of I. W. W.s and pro-Germans from the ranks of United Mine Workers of America, was made in the convention of the miners here today.

John P. White, former president of the union, and Federal Fuel Administrator Garfield and Labor Secretary Wilson, in messages to the convention, urged the miners to fight internal foes. "The evil hour will strike in your lives when you turn away from the paths of rectitude and follow the dissonant," declared White in an address. "We must fight hard to save the organization from internal foes."

White urged the miners to adopt the "Washington wage agreement," in explaining the penalty clause, to which there has been some opposition, he said: "This will prevent sporadic strikes and stabilize the coal industry. Through it, however, the union will lose none of its former power."

Garfield's message declared that the successful prosecution of the war depended greatly on the eradication of differences between miners and operators.

## Hornbrook Candidate For Committeeman

Albany, Ore., Jan. 16.—(Special to the Capital Journal.)—In a joint letter signed by the state committeeman and executive officers of the Democratic Central committees of Linn and Benton counties, the name of Will H. Hornbrook, publisher of the Albany Daily Democrat and former United States Minister to Siam, is presented as a candidate for the office of Democratic National Committeeman for Oregon. The letters are being mailed today to members of the State Central Committee and to the executive officers of the various county committees.

It is urged by those who are responsible for Mr. Hornbrook's candidacy, that he has been a consistent supporter of the Administration, has never been identified with any faction within the ranks of the Democracy, and that his selection would therefore strengthen the organization and insure party harmony.

Hornbrook served as a member of the Democratic State Central committee from Linn county, as secretary of the state organization, and as President of the Willamette Valley Press association, prior to his appointment to the diplomatic service.

16.—Three storming attacks by the enemy on the western slope of Monte Pertre broke down under Austrian artillery and machine gunning, with heavy losses to the attackers, today's official statement asserted.

Copenhagen, Jan. 16.—The Warlike cabinet of Hungary has resigned owing to its failure to secure necessary support for its military program, according to a Budapest dispatch received here today.

Amsterdam, Jan. 16.—Chancellor Hertling will address the main committee of the reichstag on Friday, according to Berlin dispatches received here today.

Vienna, via Berlin and London, Jan. 16.—

## INDUSTRIES TO CLOSE FOR FIVE DAYS FOR FUEL CONSERVATION

### Newspapers, Theatres and Other Interests Affected by Sweeping Order

Washington, Jan. 16.—All industries east of the Mississippi, including Louisiana and Minnesota, except public utilities, hospitals and other public institutions, will be closed down for five days beginning tonight. Fuel Administrator Garfield ordered late this afternoon.

The same rule will be applied every Monday for ten weeks. No distinction will be made between industries manufacturing war munitions and other industries, it was announced.

Garfield explained it was impossible to distinguish between industries in order to make a preferred list. Most industries are sufficiently well stocked, he said, not to hamper delivery of supplies at shipping points during the suspension period.

Newspapers will be restricted to one edition on Mondays, but they will not be restricted during the five day period. Theaters and office buildings will be forced to close on Mondays, but not through the five day period.

Coal will be delivered, however, to railroads, private consumers, public utilities, hospitals, public institutions, cantonments and other military and naval establishments, ships and for the direct needs of the government.

Every provision is being made to prevent the maximum production of air-planes spruce out of the northwest. Walker came to Portland, paid \$3000 for an automobile, and placed it and himself at Disque's disposal.

## State House News

State Highway Engineer Nunn will make a trip through eastern Oregon in the near future going first to Bend and then over all the roads under construction in that section of the state. He will probably make part of the trip on foot, as he wants to make a close examination of the work done and also to look into local conditions along the lines of proposed roads. This is a sort of preliminary beginning the work next spring.

Articles of incorporation were filed today as follows: Vaughn Motor Works, Inc., of Portland, capital stock \$500,000 and object to manufacture and repair all kinds of tools and structures, operate foundries, and manufacture and sell all kinds of motors and machinery.

Marblehead Club, of Portland, value of property owned about \$350, and object to maintain a meeting place and furnish entertainment for members of the club.

Bi-State Investment company, of Portland, capital stock \$10,000, and object to deal in real estate and all kinds of personal property.

## Chamber of Commerce Wants Munitions Head

Washington, Jan. 16.—The United States chamber of commerce by a vote of its 500,000 membership today demanded creation of a central control in the war government.

Interference with vitally important programs, production, inflation, inability to meet allied demands, duplication of work, confusion, in fact, "inevitable disaster" will result, the chamber announced today "unless prompt provision is made to centralize the control of the industrial energy and material resources of the country."

The declaration of the chamber, based on months of investigation by a special war committee of prominent business men and manufacturers was unanimously approved by the directors in session here today.

It comes at a time when the senate military investigators have temporarily discontinued their hearings to begin a fight for passage of legislation creating a director of munitions who would cut the red tape, delay and confusion of army preparations.

## Bomb Is Discovered Near Big Warship

An American Port, Jan. 16.—A bomb

## DR. CONWELL SPOKE TO BAPTIST CLUB

### Famous Lecturer and Educator Was Given Ovation by Members

The Young Men's club of the First Baptist church had as speakers at their regular monthly meeting and supper last night at the church, two notable speakers in the persons of Dr. Russell H. Conwell, who later gave his lecture at the armory, and Bruce Evans, the evangelist.

About seventy members and guests of the club were called to order about the banquet table by President H. S. Gile. Following the banquet, Bruce Evans gave one of his short, inspiring addresses, taking occasion to pay some very complimentary remarks to Rev. Holf, pastor of the church. Mr. Evans chose for his subject Moses, calling attention to how Moses had decided against the riches offered to him by Pharaoh and had chosen rather to lead the Jews out of captivity in Egypt. It was this spirit and willingness to sacrifice riches to principle, the speaker emphasized, which was required of every young man if he was to win the fullest success and happiness in life.

Dr. Conwell was greeted with a tremendous ovation as he was introduced. He said that almost the last word he had heard before leaving the hotel was "Jerusalem" and that it was almost the first word he had heard after entering the church. He stated that he had been in the Holy City many times and that he considered its capture by the allies one of the great victories of the present war, if for no other reason than the moral effect it would have upon the allied nations opposed to Germany.

He emphasized the value of service that every young man must give to his employer, saying that if a man gives no more than the bare time his employer pays him for he will not succeed well in the long run.

## Some of Bruce Evans Remarks Are Pithy

"My grandmother was away from home when my father was born."  
 "Orthodoxy is too often only petrified opinion."  
 "I'm not supposed to use a feather duster—I always use a hay rake."  
 The greatest act of faith according to Bruce Evans is to believe that Christ is always near. He spoke last night on the significance of the life of Jesus. Here was a man he said who was a humble carpenter. He never wrote so far as we know but a few words yet the sublime literature of all ages is the result of the inspiration of his life. He was not a musician though the most beautiful music of the world was written around his life. He never painted a picture but the grandest art men have known is that art that portrays his life and influence in the world.

The purpose of the life of Christ was discussed. Evans rides no hobbies. He said he believed in a great many doctrines that he never discusses for the thing he thinks ought to be stressed is the one fact that with Christ a man is saved, without Him he is lost.

The power of the life of Christ was illustrated in the lives of Mel Trotter a former drunkard, now the greatest religious mission man in the world, the founder of forty some missions, collector of two hundred and fifty thousand dollars annually for that work and superintendent of the largest mission in the world. Christ's power in the life of Moody, Wesley and several others who have shaken the world for Christ. Evans speaks tonight.

believed to have been placed by German agents was found today within a few feet of one of the largest United States battleships in drydock here.

The bomb was discovered by one of the crew. Written on it in German was the inscription: "This is a 25 second explosive bomb."  
 The container was in the shape of a telephone receiver and was about six inches long.

Immediately after the discovery of the engine of destruction, department for the recall of German Minister Von Eckhardt is expected.

## COMB SAGE TEA IN HAIR TO DARKEN IT

### Grandma Kept Her Locks Dark, Glossy, and Youthful with Sage Tea and Sulphur

The old time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mossy mixing at home. All drug stores sell the ready to use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by moving the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready to use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

## Song of Camp Kearney Received by Mr. Southwick

F. B. Southwick, of this city has received the following song of Camp Kearney from his son who is in the United States service at that post:

**The Song of Camp Kearney**  
 (By F. B. Camp)  
 Dedicated to the Soldiers of the 40th division, U. S. Army, located at Camp Kearney, California.

Camp Kearney, Camp Kearney, where the sun is warm and bright,  
 Where the moon is always shining thru the cooler hours of night,  
 Where the coyote nightly warbles as he hunts with keener sight,  
 Where we're drillin' like the devil, for the big and final fight.

Where we have the sage and lizard and the hairy greenwood tree,  
 Where you have to walk six bloomia' miles to bathe within the sea,  
 Where the soldier in his anguish does a frenzied song and dance,  
 When a peasy cactus stiker finds the bosom of his pants.

Where the rain creates adobe that is awfully hard to beat,  
 For the way it sticks and keeps upon your aching feet,  
 Where the army mule multiplies braying in notes from A to Z,  
 Where the bugler blowing pay-day, fills our restless souls with glee.

Where the roar and whirr of autos can be heard both night and day,  
 Where we're waiting for the order that will place us in the fray,  
 Where they give us the injections, a million germs or more,  
 Where they pound us for consumption, 'till our chests are awful sore.

Where the camp is "Dry" as tinder and you cannot draw your thirst,  
 Though you drink of Pop and Bone-Dry 'till you very nearly burst,  
 Where the ice-cream, fruit and candy, fill the company canteen,  
 And they sometimes feed your Willie with the staple army bean.

Where they charge you most a dollar from the camp into the town,  
 Where they've clamped the lid on vice and booze and screwed it firmly down,  
 Where they take your hard-earned dollar and never bat an eye,  
 Though you look at it quite tearful as you kiss the plunk good-bye.

Where our dearly loved regiments that used to be the guards,  
 Disappeared entirely when they cut and dealt the cards,  
 Where the Hundred Odd battalions of Bombardiers and Gatts,  
 Were organized one morning from a dozen border frats.

Where we drill from morn' 'till evening and dream we drill at night,  
 Where we drill from morn' 'till evening and dream we drill at night,
