This pure oil from corn for shortening and all general cooking improves food quality-and saves animal fats.

T has taken American ingenuity to solve the fat problem-to find a practical, wholesome vegetable oil for shortening, deep frying, sauteing—something that will enable us to save butter, lard and suet.

The result is Mazola-a pure, wholesome oil refined from golden American corn. Mazola has taken the place of the old cooking mediums-because housewives find

that it gives more satisfactory results. And since Mazola is a vegetable oil it makes it easy for them to follow the plans of Food Administrator Hoover.

Mazola is economical-not one single drop is wasted-it can be used over and over again as it does not transmit taste or odor from one food to another.

Get Mazola from your grocer in pint, quart, half-gallon or gallon tins. The large sizes give greatest economy. Also ask for the free Mazola Book of Recipes—or write

Your money relunded if Mazola does not give entire satisfaction
