MOVE TO ABOLISH SERVICE COMMISSION

People of Portland Resent Order Raising Car Fare to Six Cents

Secretary of State Gleason today received from a citizens committee of Portland a proposed initiative measure intended to abolish the public service commission. The measure is submitted to the secretary of state for the purpose of having a ballot title prepared before the initiative petitions are circulated.

Members of the citizens committee initiating the measure are Josephine R. Sharp, chairman; Eleanor Florence Baldwin, vice chairman; C. W. Barzee, treasurer; and James R. Whalen, secretary, all of Portland.

The bill provides for the repeal of section 6875 of Laws Oregon laws, as amended by chapter 71, laws of 1915. This section provides for the appointment of the three members of the public service commission, and if it is repealed the public service commission will be abolished although the railroad commission and public utility laws will remain on the statutes, but there will be no commission to enforce them.

Commissioner Hoff Out For Treasurer

After serving 15 years as state labor commissioner, O. P. Hoff has announced his candidacy for the republican nomination for state treasurer. "As labor commissioner," he says, "my duties have carried me into every nook and corner of the state. I know the state, its resources, its great possibilities and its need. In my work I have come in contact with all industrial and business interests. I know the business man's risks, difficulties and requirements. I comprehend the troubles, hardships and struggles of the working people and can act with understanding in the solution of their problems as they come before the various boards of which the state treasurer is a member.

"Under the present stress of our national crisis, I believe that every ounce of the state's resources should be developed and utilized to the greatest extent, and the expenditure of

O. P. HOFF

public funds curtailed to the degree of absolute necessity, consistent with efficient and conservative government."

In connection with his work as labor commissioner, Mr. Hoff also has been closely affiliated with the granges and farmers' unions, in making surveys of the farm labor situation and gathering information about farm crops for the purpose of aiding the farmers in obtaining help in harvest time.

He is the fourth to make announcement as candidate for state treasurer. The others are Judge T. P. Ryan, at present assistant state treasurer; William Adams, city treasurer of Portland, and E. D. Casiek of Albany, banker and former state senator.

Laugh Making Serious Task

CHESTER CONKLIN.

The Mack Sennett comedian who declares laugh making is serious business.

"Gee," sighed a little comedian with a big fierce mustache, "what a cinch these actors have who only have to make people cry."

And the little man ought to know. For this was Chester Conklin, one of the stars of the Mack Sennett Comedies.

"I never could figure why it is," said Conklin, "but people cry more easily than they laugh. They say they want to laugh, and ask for plays with laughs in them, but if you hand them a laugh and a cry, they pick out the cry."

"Any lame old sob stuff will get the handkerchiefs. They will cry over the same old things time and time again. But the man who is in the business of selling laughs to the public has a strenuous job."

"One of the toughest tasks I know in the world is to think up a really new situation with a real laugh in it. In my next reincarnation I am going to be a very thin young lady with sad blue eyes. Then I will make my living easy."

Several changes and modifications in demurrage rules are contained in an order received today by the public service commission from W. G. McAdoo, director general of railroads.

Free time for loading or unloading cars on all commodities is increased from one day to two days. The average agreement rule is permitted, but it is to apply solely to cars held for unloading.

The demurrage charge on all cars, after the expiration of the free time allowed, is to be \$3 for each of the first four days, \$5 for each of the next three days and \$10 for each succeeding day.

The bunching rule is reinstated, with modifications which are set forth as length in the order.

Both were committed from Multnomah county, and it is the belief of asylum officials that they will endeavor to make their way back to Portland.

Arlie Palmer, a patient who eloped Sunday from the Cottage farm, was caught last night at Turner and was returned to the asylum today.

Colonel Disque, who is in charge of the government's spruce division in the northwest, has made a request of the highway department for assistance in building a road in Clatsop county to tap a stand of spruce timber. It is understood that Clatsop county is ready to give assistance in building the

Disloyal Federal Judge Requested to Resign

Forythe, Mont., Feb. 4.—A request that he resign is to be made to Charles L. Crum, presiding judge of the Fifteenth judicial district, tonight by the Rosebud county Committee of One Hundred, following an examination of the jurist as to his loyalty today. The committee holds he failed to prove himself sufficiently loyal to the nation.

Crum appeared as a character witness in Helena recently for a man charged with seditious utterances, and the federal prosecuting attorney alleges that Crum drew a gun and threatened to kill him during a conference in the attorney general's office.

In addition to hearing Crum's statement that the federal authorities had accused him of being pro-German, the

General Pershing Tells of More Soldier Deaths

Washington, Feb. 4.—General Pershing today cabled the war department a death as the result of explosion and three from natural causes.

Private Carl Hansen, Chicago, was killed in the explosion.

The three deaths from illness follow: Second Lieutenant Lawrence Dwight, Boston.

Private William C. Boosing, of Silver Lake, Plymouth, Mass.

Private DePriest Young, of Sumner, S. C.

NEW TRICKS IN THE U-BOAT WAR—The photograph shows a submarine periscope, camouflaged with mirrors which reflect the surrounding water, making it practically invisible. The diagram shows how a submarine can sink a ship without even showing a periscope within range of the vessel, and how one vessel escaped. Copyright Underwood & Underwood
