Week's Mission Opened at St. Paul's Last Night. The Rev. J. Attwood Stansfield opened a week's mission at St. Paul's Episcopal church last evening with an impressive address, emphasizing the personal relation of the individual soul to God, telling as the speaker put it "the old message in as simple a way as possible."

The missioner is a unique type of vocational evangelist in that he fails to employ the usual eccentricities, his

Make Your Own Cough Syrup and Save Money

Better than the ready-made kind. Easily prepared at home.

The finest cough syrup that money can buy, costing only about one-fifth as much as ready-made preparations, can easily be made up at home. The way it takes hold and conquers distressing coughs, throat and chest colds will really make you enthusiastic about it. Any druggist can supply you with 2 1/2 ounces of Pinex (60 cents worth). Pour this into a pint bottle and fill the bottle with plain granulated sugar syrup. Shake thoroughly and it is ready for use. The total cost is about 65 cents and gives you a full pint—a family supply—of a most effective, pleasant tasting remedy. It keeps perfectly.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the inflamed or swollen throat membranes, and gradually but surely the annoying throat ticks and dreaded cough will disappear entirely. Nothing better for bronchitis, spasmodic croup, whooping cough or bronchial asthma. Pinex is a special and highly concentrated compound of genuine Norway pine extract, and is known the world over for its prompt healing effect on the throat membranes.

Avoid disappointment by asking your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

his eloquence lying not so much in fine flights of rhetoric as in an obvious earnestness; not so much in sparkle and "jazz", as in deep sincerity. He uses no form of service, confining himself to his preaching, and to the singing of the old and familiar hymns. Except for a cassock, he conducts his service without vestments.

Dr. Stansfield has had a wide experience in mission work on both sides of the Atlantic, in this country and in Canada, where for five years he preached as a lay evangelist. Since coming west on this trip he has been offered opportunity to conduct several missions in coast cities, which it was necessary to decline, in order to return east to fill engagements there, in Baltimore and New York city.

Preaching services will be held at St. Paul's every evening this week, except Saturday, the mission concluding on Sunday. There is also a celebration of the holy communion at 7 each morning, a devotional service at 10 a. m., and a service for children at 4 each afternoon.

STRIKE WANING

(Continued from page one)

and Scheidemann himself undertook leadership. From all the mass of rumors and reports received here, it appears there were very few excesses by the strikers. Lighting and heating in the cities apparently was unaffected. The gas workers and electricians did not join the strike.

Prominent Germans here doubt that any collaboration will continue between the socialists—adherents of Haase as well as Scheidemann—and the government liberals and center party members henceforth. One thing the strike emphasizes is that the food situation in Ger-

many is not as bad as last year, but that the hardships of constant food economy are in the long run beginning to weigh heavily on the public.

As to the injection of peace demands into the strike situation, the impression is prevailing in Germany that the annexationists are influencing the conduct of negotiations at Brest-Litovsk. Socialists in the empire are convinced that the German delegates would have been more successful if they had given the impression that Germany was serious when she said she was willing to permit self-determination of the Poles, Lithuanians, Letts and peoples of other Baltic provinces. Foreign Minister Kuehlmann's explanations before the main committee may have satisfied the

socialist members of the reichstag—but they did not convince the workers of Germany, whose mistrust was strengthened by General Hoffman's speeches. Though the German people have an impression that Bolshevik Minister Trotsky is dishonest, they believe his influence at Brest-Litovsk would have been much less if the central powers had clearly shown they really wanted peace.

The fact also that the German government will not declare open war against the fatherland party—the Junkers supreme—has increased general dissatisfaction. Professor Delbrueck explains the government's action on the ground that "so long as the party's doings do not conflict with the law the government must remain faithful to the imperial word of August, 1914, voicing the belief there were no parties in Germany."

General discontent has likewise been fomented by the delay in constitutional reform on the part of the Prussian diet and the main committee of the reichstag. Reform has been promised but so far withheld. The reason is the German conservatives understand they can not fight reform openly—therefore, they are trying to delay it by first discussing the whole matter in the upper house. On account of all these factors the strike would have been greater if it had found the ground fertilized by the Russian revolution. But even the most radical of the socialists express the belief that chances of a revolutionary movement seem small—partly due to conviction that the allied demands on Germany are in the interest of world imperialism.

MILITARISM VICTORIOUS

By Ed L. Keen (United Press Staff Correspondent) London, Feb. 5.—German militarism is still supreme in the central empire. Its iron heel today had crushed out practically the last vestige of resistance by the starving, enslaved common people.

Cowed by the threat of the firing squad and fearful for the fate of their women and children, through reduction of their already meager rations, the protesting workers had practically all returned to the factories.

Only one isolated case of continued resistance was reported. That was at Jena, where the Tageblatt said a third of the men employed there had walked out Saturday.

There is a disposition among officials

and students of economies here to regard the waning of the general strike as only a temporary surcease of the central empires' industrial and political problems.

The work of the extraordinary court-martial at Berlin, in imposing severe penalties on strike leaders, is expected to provide fuel for further trouble.

Wilhelm Dittmann, socialist member of the reichstag, was sentenced to five years imprisonment for "inciting to high treason and was given an additional two months for resisting public authority." Imperial Chancellor Hertling previously had refused to intervene in Dittmann's case, declaring he could invoke no civil procedure so long as the military was supreme in the capital.

Henrich Schultz, another popular leader, is under six months sentence for distributing strike literature.

Returning to Work

Amsterdam, Feb. 5.—Semi-official dispatches received here from Germany today confirmed reports from other sources that junked men has achieved another victory in the central empires by putting down the general strike.
