The Answer To YOUR Sales Problems

Whether you are a manufacturer of a food product, clothing, furniture, automobiles or hair pins you have sales problems that are daily becoming more intense. Probably the most acute of all your problems today is transportation.

Markets that you have been developing have been suddenly shut to you because of transportation limitations. Traffic experts say it will be a long time before the railroads will be able to make prompt deliveries of allclasses of merchandise.

The salvation of the manufacturer facing this problem is the fact that there are certain markets that can be reached. A careful investigation will show you, as it has many others, that your distribution is scattered--very little consumer demand--and thus a small volume of business in proportion to the possibilities offered.

Right here is the answer to your sales problem, Mr. Manufacturer. Hunt those markets as you would a gold mine. Concentrate in them. Work them as you have never before worked a market--and in all your work calculations don't forget that the most powerful weapon you have to fight your battle with is newspaper advertising.

Never Before has a a chain of circumstances combined in such Startling Fashion to hammer home the truth that Newspaper Advertising is most efficient and economical.

Your jobbers and your retailers in your market know its power to produce sales for them. Your consuming public are responding to its appeal every day. You can buy it where you want it, when you want it and only as much as you need. No waste circulation in the markets you cannot now reach.

We, the Newspaper Representatives' Association of Chicago, are ready to help you find your market. We are ready to put all the resources of the newspapers we represent at your disposal. We are equipped to help you solve your sales problem. A letter will bring a man to your office ready to help you.
