THE GERMAN DRIVE FOR PEACE

There seems no reasonable doubt but Germany is making the drive into Russian territory in order to annex large slices of that unfortunate country. In addition to this indemnities will be exacted of the Slavs, either directing portions coming under German control. It is evident that the most important work for Russian and Rumania.

## INSULTING THE FLAG

Not so very long ago a professor in a well known edu- on real patriots who make good soldiers. cational institution said that it is less of an insult to the flag to spit on it than to spill American blood on it. No if they possessed the courage.

Very likely he believes it would be a deep disgrace if it washed. became necessary for him to shed a little of his own academic blood in defense of the flag and what it stands for. And very likely he thinks it no disgrace for the flag would do to this country. for him to spit on it -- as he does, virtually, in making such

But one man's opinion doesn't prove whether any particular thing is an insult or not. An insult is purely a matter of sentiment, and it's the sentiment of the many that determines the matter. Therefore, if any professor wants to make a scientific test of whether spitting on the flag is an insult, let him take the flag out on the college campus and spit on it in full view of his students, who to a certain extent at least, represent the American public. What happens to the professor will probably settle this

Or better still, let this or any learned professor subject the stars and stripes to such an expectorant experiment in the streets of any American city, with an ordinary American crowd looking on.

If we had our way about it every I. W. W., anarchist, Bolsheviki agitator and radical socialist who spends his time abusing the nation that gives him protection, would be sent to a front line trench in France. Every time they opened their mouths then, and naturally it would be often, they would have an opportunity to breathe the poisonous gases their German friends are sending over the Amer-things like those. I go to bed at 10 o'clock, and feel no ican lines in dense clouds at every opportunity. The youth of America is fighting to keep this nation free but I am snug and warm. Some soldier, on a windswept while thousands of swivel tongued agitators (mostly lazy moor, this night is stricken low; that I may rest in bed and worthless) are staying at home in safety abusing the secure, he's bleeding in the snow. He's wounded, dying, liberty the blood of these soldier boys makes sacred. It's in the night, no loving voice he hears; I'm truly sorry for a shame-don't intern the traitorous gang in this country, his plight; I'll shed nine kinds of tears. But do not ask send them to the front lines in France!
