Sime Water Business During Past Quarter Reported by Engineer

According to a report issued by the state engineer's office, 105 permits were issued during the first quarter

of this year. These permits include the irrigation of land aggregating 27,725 acres, the development of 501 horse power, and the water supply for one municipality. The estimated cost of these projects total \$423,390. The municipality to receive the water supply system under the proposed project is Crawford Point in Coos county. The Portland, Eugene and Coos Bay land company, which has charge of the project, proposes to divert the water of the several lateral branch streams of Will Branch creek through a pipe four and a half miles long at an approximate cost of \$48,000. The largest irrigation project undertaken during the last quarter was that by which E. R. Benham of Portland has undertaken to irrigate 18,000 acres in Lane county. He proposes using the

IRISH CONSCRIPTION "BY CONSENT" LATEST LLOYD GEORGE PLAN

May Call Englishmen Up to 50 Years—Plenty of Material in Ireland

By Ed L. Keen
(United Press Staff Correspondent)
London, April 1.—Great Britain is preparing to respond wholeheartedly to the army's call, "Send us more men." Premier Lloyd George's announcement of prospective drastic measures was received unflinchingly. They probably will include calling up for national service men up to fifty years of age, cancelling army exemptions up to thirty two years of age and a thorough combing out of military eligibles in war industries, with substitution of more women and aged men. It is also hoped there will be Irish conscription "by consent." The government appreciates the inconsistency of appealing for American man power when material for half a dozen divisions of the best material in Ireland is idle. With the Morning Post's and Colonel Repington's surrender to General Foch, the last vestige of Serious British opposition to the generalissimo idea was removed. It is now generally understood that Foch was virtually, though not actually, in this position since the battle started, which accounts for the splendid wedding of French-British forces at the critical junction point.

The Perfect Baby Of The Future

A Simple Method That Has a Wonderful Influence upon The Future Infant.

Before the arrival of baby knowing women for over half a century have used with regularity the time-honored preparation, Mothers' Friend. Here is a most wonderful application for the abdomen and breasts. It penetrates the muscles, ligaments and tissues, rendering them pliant to readily yield to nature's demand for expansion. By its use the anxious weeks of pregnancy are made comfortable. The usual weeping strain, bearing-down and stretching pains are completely relieved. The system is prepared for the coming event, and its use brings rest, repose and happy anticipation. By the regular use of Mother's Friend during the pregnancy, the mother's labor is made easier when baby arrives. It is naturally the pain and danger of labor is lessened. It is prepared after the formula of a family doctor by the Bradford Regulator Co., 1200 Lamar Bldg., Atlanta, Ga. It is for external use only. It is absolutely safe and entirely safe and wonderfully effective. Write them for their instructions and interesting Mother's Friend Book. There is a wealth of instruction and comfort to be derived in reading this little book. It is plainly written, just what every woman wants to know and will be a special little text book of guidance, not only for yourself but will make you helpful to others, and in the meantime obtain a bottle of Mother's Friend from the druggist, and thus fortify yourself against pain and discomfort.

Says He Will Fire On Americans If They Cross Border

Marfa, Texas, April 1.—United States cavalry returned here after a dash of more than 200 miles into Mexico in pursuit of Mexican bandits who several days ago raided the ranch of J. Neville near here, killing Neville's son, two women, two children and a Mexican ranch hand. Simultaneously with the return to this side of the border of the American soldiers, General Jose Murguia, commanding Mexican federal troops, at Ojinaga, sent word to Colonel Langhorne, in charge of the United States troops in the Big Bend district, that he will oppose will armed forces rather attempts of United States troops to cross the border. Captain H. H. Anderson, who commanded the United States troops in their chase into interior Mexico, said ten Mexicans were killed by his men during the chase. The United States soldiers brought back the body of Private Theodore Albrit of Pittsburg, Pa., killed during the battle.

Agricultural and Rural Life Day at Hubbard

An Agricultural and Rural Life Day was held at the White school near Hubbard Saturday, and about 50 teachers from Marion county were present. An all day program was presented, and a "Hoover Lunch" was served at noon by the ladies of the school district. In the morning Professor M. S. Pittman and Miss Gladys Carson of the Oregon Normal school spoke, and in the afternoon addresses were made by A. J. Smith of the school board, L. P. Harrington, of the state superintendent's office, Superintendent W. M. Smith, Mrs. M. L. Fulkerson, secretary of the Educational Board, and by Miss Corolla Marvick, state librarian, who spoke on "Books for the Country." The program was the close of a week's course given by Miss Florence Beardsley, teacher of the White school, in which agriculture was pushed exclu-

State House News

The application of the Rogue River Water company to establish a minimum charge on water furnished to the Southern Pacific and other concerns at \$150 per month was received by the public service commission. It is stated in the application that the railroad expects to establish a pumping system of its own at Grants Pass. The Southern Pacific has applied for permission to construct an additional track and a grade crossing over a street at Ashland. No action has been taken on either of these.

Safe, Gentle Remedy CLEANSSES YOUR KIDNEYS

For centuries GOLD MEDAL Hamlem Oil has been a standard household remedy for kidney, liver, bladder and stomach trouble, and all diseases connected with the urinary organs. The kidneys and bladder are the most important organs of the body. They are the filters, the purifiers of your blood. If the poisons which enter your system through the blood and stomach are not entirely thrown out by the kidneys and bladder, you are doomed. Weariness, sleeplessness, nervousness, dizziness, backache, stomach trouble, headache, pain in loins and lower abdomen, gall stones, gravel, difficulty when urinating, cloudy and bloody urine, rheumatism, sciatica and dumbago, all warn you to look after your kidneys and bladder. GOLD MEDAL Hamlem Oil Capsules are what you need. They are not a "patent medicine,"

with the company in trust. In regard to the Super-Davit company of Portland, two questions were answered in the negative. The first was whether the syndicate unit plan proposed establishes a relation of trustee and beneficiary between the syndicate and unit holder. The second was whether the proposed plan creates a relationship which would require the company to conform with the state laws. The state has rented 200 acres of land from Clifford Brown near Salem for the use of the state prison. One half of the land is in cultivation, and this will be sown to oats. A farm tractor is to be used on the farm. Will R. King filed his notice of being a candidate for the democratic nomination for United States senator with Secretary of State Oloffe Saturday. In his slogan he states that he proposes to "uphold the administration, support our soldier boys, and develop Oregon resources." In his platform he announces the unreserved support of President Wilson's war aims, the protection of property and human rights with human rights first, and he stands for government reclamation of arid lands, swamp and logged-off lands, stands for better roads, and the improvement of the national parks. The Southern Pacific railroad, in answering a complaint before the public service commission filed by the Oregon Portland Cement company et al, declares that the proposed junction between the railroad and the Oregon Electric at Jefferson street to create a through route from the cement plant to the place of delivery in Portland, was impossible. A statement of rates was also made, and the charges in the complaint were denied.

BAKERS JOIN STRIKE.
Kansas City, Mo., April 1.—Union bakers joined the general strike here today and the city is practically breadless. Only one "open" shop turned out breadstuffs, but fearing violence, attempted no deliveries. E. L. Keenan, strike leader, wired an appeal to the national war labor board. Speedy intervention by that body was hoped for. The employers association, whose refusal to deal with striking laundrymen caused the general walk out, stood firm on that decision. Food officials inspected bakeries early today to see that no unbaked dough was wasted.

MORE RULINGS.

San Francisco, April 1.—Monday's and Wednesday's hereafter are to be observed as entirely wheatless days and all meals served after five p. m. as wheatless meals in California restaurants and hotels, under new rulings of the state food administration sent out today. The arithmetic problems were of an agricultural nature, the songs were of the farm, and in every possible way the studies were turned toward farming and gardening. The plan is an innovation in Marion county school work.

Bell Telephone Volunteers

More than 7,000 employes of the Bell System are now enrolled or in actual military service, including fourteen battalions of Signal Corps reserves. Many Bell employes are members of the Federalized National Guard or of the Naval Coast Defense Reserve. Over ten per cent of the male employes of the company are now or soon will be engaged in active military service. A large proportion of these Bell System volunteers are telephone engineers and technically trained men. They leave gaps in the Bell ranks not easily filled. There is not a man of them who has not proved his loyalty in the service of the public, and not a man who will not give unreservedly the same large measure of devotion wherever the path of duty leads. One of our great problems, incident to the war, has been to readjust our organization and meet this heavy loss to our working forces, and at the same time to take care of the tremendous increase in telephone traffic with as little impairment to the service as possible.
