How careless it is to accept alcoholic medicine for children when everybody knows that their whole health and growth depends upon correct *nourishment*. If your children are pale, listless, underweight or puny, they absolutely need the special, concentrated food that only

gives, to improve their nutrition and repair waste caused by youthful activity. During school term all children should be given *Scott's Emulsion* because it benefits their blood, sharpens their appetite and rebuilds their strength by sheer force of its great nourishing power.

### FLANDERS DRIVE

(Continued from page one)

quo reported, "severe continuous fighting" in the neighborhood of Merville and Neuf-Berquin last night. Merville is on the north bank of the Lys, three miles east of Estaires and seven miles west of the Lays along which the line ran at the beginning of the battle. Neuf-Berquin is a mile and a half southeast of Merville.

Fighting has started in the vicinity of Arras. Haig reported the Germans capturing a post near Tilloy-Les-Mofflaines, a mile east of Arras, from which they were later ejected.

Merville, according to Haig, was captured by the enemy last night. Neuf-Eglise, where the British fell back to new positions, is nearly three miles west and north of Ploegsteert. This retirement increases the salient immediately south of Ypres.

### HINDENBURG PLANS

(Continued from page one)

tion by the Germans would give Hindenburg an opportunity to swing his attack farther north, were progress of about five miles would compel the evacuation of Ypres.

The British positions in this sector are admirably constructed for defensive fighting. They can be made into death traps for the Germans, whose systems of massed attacks is particularly liable to slaughter before the ridge on which the British defenses are based. If these ridge positions should fall to Hindenburg, however, the district beyond would present less difficulties, because it is down hill to Ypres.

The capture of Ypres is chiefly desired by the Germans, not so much because of any special military value, but because of the moral effect the capture of Ypres would give Marshal Haig a splendid opportunity to administer the second major defeat to the Germans in the course of their recent drive. The first defeat came with the abandon-

ment of further operations against Amiens. If Hindenburg is soon compelled to cease the slaughter of German troops in the Ypres sector, the result cannot fail to be highly disheartening to the Germans at home, counting up their dead.

### Coming of The Sunbeam

How to Avoid Those Pains and Distress Which so Many Mothers Have Suffered.

Too much cannot be said for a wonderful preparation, familiar to many women as Mother's Friend.

It is more effective in its action than all the health rules ever laid down for the guidance of expectant mothers. It is an internal application that spreads its influence over the cords, tendons and muscles of the abdomen, rendering them pliant, and they expand gracefully without that peculiar wrenching strain.

The occasion is, therefore, one of unbounded joy and anticipation and too much stress cannot be laid upon the remarkable influence which a mother's happy prenatal disposition has upon the health and fortunes of the generations to come.

The pain at the crisis is infinitely less when Mother's Friend is used during the period of expectancy for the muscles expand easier and with less strain when baby is born.

Mother's Friend is for external use only; it is entirely safe and may be had of your druggist. It is prepared by the Bradford-Rose Co., 1521 Broadway, New York, N. Y. Write them to mail you their interesting "Mother's Friend" book. They will send it very helpful. Do not neglect for a single day and morning to apply Mother's Friend according to directions around the bottle, and thus fortify yourself against pain and discomfort.

### LANDING OF MARINES

will be offset, however, by an American statement as to the necessity for the action. Anarchy has been rife at Vladivostok and it is assumed that Americans would join the Japanese and British only in case of extreme necessity.

The reported landing does not mean that this country has changed her policy toward the reds, the proposed Japanese intervention in Siberia, it was stated officially today.

A landing of American troops was expected soon.

The landing of Japanese marines met no resistance. One party of the Japanese is guarding the Japanese consulate and another the residential section. The commander of these forces issued a sympathetic statement, declaring the purpose of the landing is only to protect life and property.

Three Japanese were killed in the attack on the ship which preceded the landing of marines.

### Oregon Life Subscribes For Liberty Loan

The liberty loan drive can go over the top in Salem and Marion county very easily if every citizen here will do as well as J. D. Hartwell has done. Mr. Hartwell is the district manager of the Oregon Life Insurance company, and is located in 210 Masonic building. As captain of one of the teams Mr. Hartwell conceived the idea of writing to the home office of his company and asking them to apportion a part of their subscription to this district. A prompt response in the shape of a commendation letter from the general manager, C. S. Samuel, authorizing Mr. Hartwell to subscribe for one thousand dollars worth of Liberty bonds for the Oregon Life Insurance company, was the result.

Mr. Hartwell says that this is in line with the company's policy of investing all of its money in Oregon. They now have invested in Salem and Marion county a substantial amount of money thus contributing to the upbuilding of this community.

gium—for this is the corner of Belgium still intact—whose sons had gone to war. Every spring time they have done their own plowing, pulling the drag with ropes fastened to their own belt shoulders.

The communists don't say whether Hill Co. is still sheltering this little colony of Belgian folk who live at the edge of Ploegsteert wood. Most of them perhaps, have gone by this time to join the line of refugees that must be getting out of the way of the German fury.

### FURIOUS BATTLE

(Continued from page one)

Fresh German divisions were beaten off Estrom and the Loise, and a British counter attack resulted in the recapture of lost positions.

The German war office, in its statement late yesterday claimed more than 10,000 prisoners in the fighting around Armentieres, including a Portuguese general.

British positions on the south bank of the Lys and the east bank of the Lawe were captured, together with Heilebeke and the British first line south of that place, Berlin announced.

Messines height was said to have been stormed and to be held by the Germans as far as Ploegsteert wood.

South of Estaires the Germans claimed to have reached the Lawe.

Merville Captured.  
London, April 12.—The enemy captured Merville last night, Field Marshal Haig announced today.

"We fell back to new positions in the neighborhood of Neuve Eglise."  
Near Tilloy-Les-Mofflaines (a mile and a half east of Arras) the enemy entered one position but was driven out by a counter attack.

"Astride the Somme there was in-

creased artillery fighting."  
"Between the Loise and the Lawe rivers and also to the north hostile attacks were repulsed."  
"From the LaBasse canal, as far as Ypres) fighting continued."  
"South of Arras there were strong local attacks, in the neighborhood of Neuville-Vitasse, which were repulsed."

Some Ground Gained.  
London, April 12.—The British by a counter attack have regained their positions north of Pestubert (a mile north of Givenchy), into a part of which the enemy had forced its way, Field Marshal Haig reported today.

"In the neighborhood of Merville and Neufberquin, there was severe, continuous fighting last night," the statement continued.

"The enemy's pressure is continuing his progress."

French Successful.  
Paris, April 12.—Successful surprise

attacks north of the Ailette river and west of Butte Du Mesnil (in the Tahure sector, where American artillery is engaged), resulted in the talking of some enemy prisoners, the French war office reported today.

French patrols took some prisoners in the Noyon and Canny-Sur-Metz sectors.

Nursery Is Shelled.  
Paris, April 12.—Four persons are dead and twenty one wounded, mostly children, as the result of a shell striking a day nursery during the long range bombardment of the city late yesterday.

The long range bombardment was resumed today.
