

Make Washday Comfortable

Use Fels-Naptha soap. It washes splendidly in cool or lukewarm water—no boiling water, no steamy, uncomfortable laundry, no hard rubbing. That lessens the time and effort you give to washing.

The naptha does even more than hours of rubbing and boiling with ordinary soap.

Wash the Fels-Naptha way just once; you'll never go back to the old, uncomfortable method.

Fred Mangis Trying to Secure Uniform Grading for Potatoes

Potato dealers who ship in car lots to other states have been placed at a great disadvantage recently. It seems that while the inspectors for the Oregon food administration have found certain shipments entirely within the law, yet the food administration officials of Texas and Louisiana were working on entirely different lines and were in the habit of condemning shipments from Salem, although properly certified to here. To get some uniform method of judging potatoes Fred E. Mangis of the firm of Mangis Bros., is now in Washington,

D. C., and will present the case to the National Food Administration. He recently conferred with the Louisiana authorities at New Orleans in his effort to secure some uniform action by the different state food administrations. If the food administration and its decisions in one state are not to be recognized by those of another, shippers of potatoes and fruits from the northwest will have no protection whatever. Potato shippers from Salem have had some very unsatisfactory expressions and Mr. Mangis hopes to secure some uniform methods of judging shipments.

There are 1500 William Smiths in the United States service. And 100,000 just ordinary "Smiths." It's a grand old name.

Strike in Ireland Paralyzed Business

Dublin, April 24.—The nation wide paralysis of industry resulting from yesterday's strike, which worked with machine-like precision except in Ulster, was regarded today as having emphasized the well knit organization with which the anti-conscriptionists are working. There were indications that the strikers were remaining quiet today, although the streets in practically every city were still thronged. The demonstration yesterday was remarkably quiet. Anti-conscriptionists have not shown any animosity to date, parading the streets in their "Sunday best" along with the English, Irish and American soldiers. The situation, however, is not regarded as a joke.

The lord mayor of Dublin is reported to have asked Foreign Secretary Balfour for a passport to America.

FOUNTAIN OF YOUTH

It is not a myth, but a reality and women may find it in perfect functional health. Women who want to grow old gracefully should guard against all organic weakness and derangements, and at the first symptom of such conditions resort to Lydia E. Pinkham's Vegetable Compound, nature's own root and herb remedy, to restore health. For three generations women of America have depended upon this successful remedy and have found no other medicine to equal it.

MOONEY CASE TO (Continued from page one)

fair consideration but in orderly fashion. Time is necessary to review the evidence and read the briefs. In the meantime I shall pay no attention whatever to organized sending of telegrams and letters nor to strikes or other demonstrations designed to influence me in the matter."

This is the first statement that Governor Stephens has made in the Mooney case which has attracted international attention. Heretofore he has declined to discuss the case, declaring that he desired to wait until the case came officially before him.

Dunne Defends Court

Washington, April 24.—Judge Frank H. Dunne of the superior court of California today presented to the senate through Senator Poindexter, Washington, a defense of California courts in their conduct of the Mooney trial. Judge Dunne said the president's mediation commission, appointed to inquire into the Mooney case, worked on false reasoning.

"Only radicals, anarchists, near anarchists and bolsheviks have taken any other attitude than yours," Dunne wired Poindexter in a telegram which was read into the record. "They have seized on the Mooney case as a new instrument with which to break down the faith of the country in law and order. Don't be fooled by the Oxman, camouflage. The conviction of Mooney did not come until after a large sum had been raised and a pitiless campaign started to break by publicity and terrorism all the witnesses for the state. Mooney's defense, like the German troops, picked on Oxman's testimony as their greatest danger point and fired at it with every kind of poison gas."

Dunne said he was the presiding judge in a case in which Oxman was tried for perjury and found not guilty. "One hundred thousand dollars was raised for Mooney's defense from sources which required receipts," said Dunne, "and it was reported \$100,000 was raised from sources requiring no receipts."

To Strike in Seattle Seattle, Wash., April 24.—The proposed one day strike May 1, as an expression from labor to obtain a pardon for Tom Mooney, was given almost unanimous support last night by the metal trades council, although several locals opposed the plan.

The gas workers voted unanimously against the plan. They say they will follow the instructions of President Samuel Gompers. The carpenters voted 151 to 21 against the strike.

The painters and butchers decided to take the stand of the Metal Trades Council. The electrical workers took no action.

The President's Position San Francisco, April 24.—President Wilson is "confident that Governor Stephens will be disposed to do the utmost justice" for Thomas J. Mooney, convicted premeditated murderer.

Today J. H. Beckeneyer, member of the machinists union received a telegram from President Wilson in a reply to one from workers here on April 17. The president's message follows: "I warmly appreciate the telegram of April 17 which you were kind enough to send me on behalf of the Mooney case. I have certainly tried

It Is Up To Michael to Prove Relationship or Lose the \$13,000

It is up to Michael O'Neill to prove that he is the brother of James Neil who died in Salem Dec. 2, 1916, if he is to inherit an estate of about \$13,000 left by the last will and testament of James Neil, dated Nov. 20, 1916.

In the will of James Neil, after bequeathing St. Joseph's Catholic church of Salem \$250 and Garrett Johnson \$100, he named as his heirs his brother Michael Neil and his two sisters Jane and Catherine Neil, whose addresses he did not know nor had he seen them for many years.

T. K. Ford was appointed by the court as executor of the will. One of the provisions was that if by diligent search he could not find, that at the expiration of ten years, the estate should be divided one fifth to each of the following: Garretta M. Julien, Marie Julien, Mrs. Martina, James Quirk and T. K. Ford, together with one fifth to St. Joseph's Catholic church and Patrick Ryan of Portland.

In a report today to the court, the executor states that both of the sisters had died before the death of Mr. Neil. However, Michael O'Neill, of Jersey City, New Jersey, made claim to the estate as a brother of the deceased and a provision of the will that should do all that it was my privilege to do and am confident that Governor Stephens will be disposed to do the utmost justice."

The men gathered quietly at 8 o'clock in front of a fire engine house and the horses were brought to them there. Two policemen were on hand. The horses were robed after the style of the Ku Klux Klan and the robed and masked men mounted and filed silently up the street without a word of command being spoken.

The three men in the lead rode abreast and were robed in black. One carried a large American flag and one flourished a sword. Each rider carried a small American flag. No one could be found to deny to admit a knowledge of who the riders were, what the organization was called or what its purpose is.

Stockton, Cal., April 24.—Thirty eight masked and robed men mounted on white robed horses paraded silently thru the main streets of Stockton last night and counter-marched in front of I. W. W. headquarters.
