British Repulse Attack Northwest of Albert

By William Philip Simms, (United Press Staff Correspondent.)
With the British Armies, April 24.—An attack by Germans on the British lines northwest of Albert was repulsed by the British. Following half an hour

of intense shelling, the German infantry kneped from their trenches and advanced to the assault. British rifles and machine guns drove the enemy back.

Astride the Lawe river north of Bethune the enemy deluged the British positions with high explosive shells for half an hour early today.

Northwest of Merville masses of enemy troops were observed concentrating for an attack, but the British artillery opened on them with such deadly effect that the attack was given up.

BACKS OVERMAN BILL

Washington, April 24.—Senator Chamberlain of Oregon this afternoon threw his support behind the Overman empowering bill. In a speech to the senate, Chamberlain announced he would vote for the bill if it is amended to exclude the interstate commerce commission and the federal reserve board from the reorganization contemplated by the measure.

Constipation and Indigestion

These are twin evils. Persons suffering from indigestion are often troubled with constipation. Mrs. Robert Allison, Mattson, Ill., writes that when she first moved to Mattson she was a great sufferer from indigestion and constipation. Food distressed her and there was a feeling like a heavy weight pressing on her stomach and chest. She did not rest well at night, and felt worn out a good part of the time. One bottle of Chamberlain's Tablets corrected this trouble so that she has since felt like a different person.

CONFECTIONERS WILL HAVE SUGAR REDUCED

Must Conserve 1,680,000 Tons For Use by Women in Canning Season

Washington, April 24.—Rationing of confectioners and manufacturers using sugar is coming soon, it was learned today.

This step, to follow closely the sugar card or certificate for housewives, is believed necessary to provide sugar for the canning season about to begin.

Over 1,680,000 tons of sugar are used every year for canning fruits and vegetables, sugar experts declare. All except 30,000 tons of this is used by the housewives in the millions of American kitchens.

Hoover's sugar card while not so drastic as those issued in Europe, pledges householders buying sugar on the card to use it only for canning and preserving. Surplus sugar must be returned.

Rationing of confectioners, manufacturers of soft drinks and other large sugar users dovetails with the whole war program of the nation reflected in the fuel administration's announcement today that commercial greenhouses must cut their coal consumption fifty per cent. Wealthy estates must reduce coal used in their luxurious lighthouses, also. Private yachts are to suffer an equal cut. Passenger car manufacture, it is indicated, may be cut down to 2 per cent of the 1917 output.

Shipping shortage is cutting off considerably from the Cuban sugar importation. Food administration officials are counting on 250,000 tons of Cuban sugar a month for the ten months period which began March 1.

GAR STRIKE ENDED

Detroit, Mich., April 25.—Detroit's streetcar strike, which has tied up all surface lines here for two days, ended at noon today when both sides agreed to accept federal arbitration.

The men will return to work immediately on the old scale of wages, pending federal adjustment.

THE COMIC OPERA CHIMES OF NORMANDY

To Be Given by the High School Chorus Directed by Miss Minnetta Magers

Those who enjoy good music with a lot of fun mixed in will enjoy the comic opera "The Chimes of Normandy," to be staged by the High school chorus under the direction of Miss Minnetta Magers Monday evening, May 6. It is a story of peasant life in France, in a quaint old fashioned Normandy town during the 17th century. The old fashioned dress is quaint and picturesque from the rough plain dress of the servant to the handsome peasant dress used at the fair and by the village belles. The costumes will be rented from a Seattle house—which furnished the elegant costumes used in "First Lady of the Land," under direction of Mr. Clark. The stage setting will be entirely in the hands of Mr. Bounell of the manual training department, which insures the best in stage effects. While Mr. Clark has full control of the business management and is proving himself very efficient indeed, the opera will be staged by about 40 selected from the chorus of 150. Miss Joanna James who was leading lady in the Mikado two years ago, when staged for a local lodge by Mr. Wilson of Medford, has the part of Gormaine, leading lady.

Henri, the principal man's part, is well sustained by Wm. Harris, who it will be remembered took the part of Scarrin' in Roblin Hood, Grenelaux, the fisherman in love with Germaine, is taken by George Durs, Serpette the merry mischief maker of the village by Florence Jones, Gaspard the old miser a very difficult part is well sustained by Charles Douglas. The fat and pompous old Bailiff, by Phil Elliott. The notary and clerks by Ira Cave, Donald Davidson and Lloyd Waite. These with a grand chorus of selected voices as peasants will give an evening of good music. Full of action everything moving right along, and full of fun, Miss Lilian Siegel will insure the best in the orchestra accompaniment. Remember the date May 6, and remember the entire amount above expenses will go to the Liberty Loan Fund. Enjoy an evening of fun and help Uncle Sam.

Recovered Her Health Without An Operation

Found Remedy That Made the Use of the Knife Unnecessary

After enduring the agony of an acute attack of gall stones, and being threatened with an operation as the only cure, Mrs. William McLaren, 1024 Niagara Ave., Niagara Falls, N. Y., found relief by using a simple, inexpensive remedy that is sold in drug stores and that anyone can buy. In telling of her experience Mrs. McLaren says: "I was examined by several doctors at the Falls and they agreed I had a severe case of gall stones and would have to undergo an operation to get relief. I had read of people who claimed to have been cured of gall stones by a medicine called Fruitols, so I tried it and today I am well and strong. Fruitols did it, and saved my life, I believe."

Fruitols and Traxo are compounded from the original Ebsall formulas at the Pinus Laboratories in Monticello, Ill., and can be purchased at Fry's Drug Store, 280 North Commercial St., a doctor's prescription is not necessary. Fruitols is a pure fruit oil that acts as an intestinal lubricant and disintegrates the hardened particles that cause so much suffering, discharging the accumulated waste to the sufferer's intense relief. One dose is usually sufficient to indicate its efficacy. Traxo is a tonic alternative that is most effective to rebuild and restore the weakened, run down system.

A booklet of special interest to those who suffer from stomach trouble can be obtained by writing to the Pinus Laboratories, Monticello, Illinois.

Simpson For Governor Makes Steady Progress

Portland, Ore., April 25.—L. J. Simpson, the North Bend candidate for the republican nomination for governor, has jumped into the front rank as a contender for the nomination. With the solid support of Coos and Curry counties he started with a formidable following which has grown as the result of his tour through eastern Oregon and the Willamette Valley. Wise politicians now predict he will carry Multnomah county. Mr. Simpson is strong with favor having the endorsement of thousands of Coos Bay workers in the sawmills, shipyards and logging camps. In nineteen years as an executive at the head of large lumber mills and shippers, Mr. Simpson never had a strike or a personal injury suit, and although he built many houses on time for his men, never foreclosed on a mortgage or sued on a promissory note. Mr. Simpson not only understands the importance of securing friendly co-operation between labor and capital, but having developed and put on a paying basis his large ranch at Shoreacres, understands the problems and difficulties of the farmer. Having built up the industries of North Bend he believes in home industry and appeals to the business men as a builder and a developer.

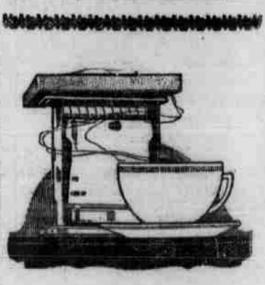

Since the entry of the United States into the war he has devoted his time to patriotic endeavor in working for the Liberty Loans, Red Cross and War Saving Stamp activities. Mr. Simpson is winning the support of republicans everywhere who believe not only in vigorous support of the nation's war activities, but also in having at the state's head a trained business executive who will pursue an active war-winning policy of developing the state's latent resources and giving an active, energetic, constructive, businesslike administration.
