

# Are you all played out after washday?

Does lifting the wash boiler tire you? Does boiling water hurt your hands? Will hours of hard rubbing exhaust you?

Take the tire out of washday. Wash with Fels-Naptha soap. It cleans the garments while you do something else. No boiling or hard rubbing is necessary.

Wash the Fels-Naptha way. It's a real saving in these days when savings are so important.

Remember the red and green wrapper.

Use Fels-Naptha to keep white clothes white.

## SEVEN NINTHS OF FIT GERMAN DIVISIONS HAVE BEEN IN FIGHT

### According to This Hindenburg Has About 450,000 Unused Troops

By William Phillip Stumm (United Press staff correspondent) With the British Army in France, April 28.—Practically seven ninths of the fit German divisions on the west front have appeared in the fighting, either on the Somme or the Lys, since Hindenburg loosed his drive March 21. About 35 fresh divisions (420,000 men) have been thrown against the allies on the northern front, and about 300 divisions (1,200,000 men) on the southern. As about twenty enemy divisions are unfit out of the 205 (2,400,000 men) on the west front, it is plain the majority of the Germans already have shared in the offensive. This explains the lulls in the fighting. The tired demand rest and these units which were smashed up must undergo repairs, the gaps must be filled with recruits from the field depots or the interior. The 1919 class now appears to be in the line and the 1920 class is ready to be called up. One must not get the idea the divisions mentioned are definitely used up, although at least 137 of the 185 fit divisions have been in the fighting. Hindenburg has been busy during April in grooming up and making fresh divisions from the battered ones. This is the meaning of the long quiet period on the southern battle front. Perhaps forty divisions which were used on the Somme are about to return to the line.

## Silverton News

(Capital Journal Special Service) Silverton, April 29.—E. D. Shea, who held a prominent position with the Silver Falls Timber company, died at a Portland sanitarium early yesterday morning. He had been ailing for several months but no one thought him to be in a condition, M. A. Shea, a brother-in-law, from him Saturday in which he stated that he was doing better. Shea was a highly educated man and one who made many friends. He leaves a wife and one child, a little boy of six years. The body will be brought to Silverton. Arrangements for burial have not yet been made.

Mr. and Mrs. Roy Kelsey and little daughter, Helen, visited relatives in Woodburn Saturday and Sunday. Miss Marie Jones, formerly of Silverton, but now a resident of Houghton Wash., is spending a few days in this city. She expects to return to her home next week, accompanied by her grandmother, Mrs. Mary Blackberry. Joe Warwick of Seio visited at the Grant Davis home a few days this week.

Miss C. Lowe and son, Elanath, motored up from Lebanon yesterday and are spending a few days with Mrs. Lowe's parents. Lieut. Chester Wolcott of Camp Lewis is visiting with home folks prior to his departure for the eastern coast. Miss Minsie Hobbs, one of the Salem teachers, spent Sunday at her home in Silverton.

## Rumored Czar's Son Is Proclaimed Emperor

Copenhagen, April 27.—While no telegrams have been received from Petrograd for several days, reports from Finland say that there is serious rioting in the Russian capital. There are also persistent rumors that Grand Duke Alexis, son of the former czar, is proclaimed emperor with Grand Duke Michael Alexandrovitch, his uncle, as provisional head of the government.

## Gervais Wins Opening Game!

Gervais, April 29.—The Gervais baseball team and North Howell crossed bats on the North Howell grounds Sunday at 2:30 o'clock. The game was very interesting and exciting from start to finish, as the teams were well matched. We can give the North Howell pitcher Schapp much credit for his work. He has the honor of not walking any man, but while he gets that credit we must not forget his opponent, who has the honor of striking out eighteen men. Sim the Gervais center fielder, carries the honor of the day for his star fielding and hitting. Game closed in the ninth, the score being 11-14. Umpires Johnson and Russ.

## WOULD INVADE INDIA

San Francisco, April 29.—Filed in her plans to foment a revolt in India, Germany now is planning to invade that territory via the Caspian sea with an army of 100,000 men according to Lieutenant Colonel I. Thord-Gray of the British army, who was in San Francisco today. The Germans are working on the assumption that the British element would join the invading army.

## GUTZUM BORGLUM IS NOT SATISFACTORY AS EXPERT WITNESS

### Senator Brandegee Thinks Artist Not Qualified for This Job

Washington, April 29.—Demand that congress look into charges of "shameful profligating, criminal neglect and gross inefficiency" in carrying out America's air program, was made in the senate today by Senator Brandegee, Connecticut. The report of Gutzum Borglum, President Wilson's personal investigator, was submitted by Brandegee and was immediately made the subject for hot debate. "If the situation as to aircraft production is anything like what is described in these blistering words," said Brandegee, "it is time for the legislative department of the government to act. I have already urged the senate military affairs committee to act, to learn whether Borglum's report is true or false.

"The truth about it ought not to be longer squelched or camouflaged," Senator Phelan, California, asked what Borglum's business is. "He's a sculptor," said Brandegee. "Has he any qualifications for judging airplanes?" continued Phelan. "Well, since president selected him, I am inclined to think he has not," answered Brandegee. Senator McCumber, North Dakota, asked Brandegee or "somebody" to tell what the American people have got in exchange for the money they gave for aviation.

## INFANTRY ATTACKS

(Continued from page one) Today. There was heavy artillery firing on both sides of Villers-Brottonneux and in the region of Lassigny, Noyon, Bois Des Fosses and Bois Des Courieres. A German surprise attack failed north of Gravennes. French forces penetrated German lines near Corbeury and in upper Alsace, and brought back prisoners. It is Final Push. Rome April 29.—"The Germans are preparing for a final push," declared the Zurich correspondent of the Corriere D'Italia. "They are ready to sacrifice one of their men. All available troops have been drawn from their positions. The enemy is determined to stake all on a great effort before the full strength of America materializes."

## GIANTS WILL MEET SOME STRONG TEAMS

### They Have Not Been Up Against the Leaders Yet This Season

By H. C. Hamilton (United Press staff correspondent) New York, April 29.—Today should turn out the real low down on the Giants. The series starting this afternoon in Philadelphia will be the hardest test to which the National League champions have been exposed. If they can weather the storm that will shower over them in the next few days, hopeful ones will have to pull hard, for their early season spirit looks doubtful, to say the least, for the rest of the league. There is but one bright rift in the cloud enveloping the champions and it is that the champions haven't yet been called on to meet a club figured to run strong. Their opponents have been the Braves and the Dodgers, two clubs ripped to pieces during the winter. The Phillies have recovered handsily from their mid-winter afflictions. Erskine Mayer, Bradley Hogg, Joe Bensch and other flingers have made Philly fans wonder if Alexander's loss hurt so much after all. In addition to this, Pat Moran has gained strength in the infield and out field by the acquisition of Muesel and M. Gaffigan, the latter to supplant Bert Niehoff at second base and the former to take the place of Dodo Paskett. Early spring depe makes Moran's club the dark horse in the National League if a sun at dawn can pass this obstacle he will be well set for a challenge to the western clubs. If he fails to pass in good form the race will narrow down to a hard battle.

Some Fast Pitching. San Francisco, April 29.—Del Croppi today was the proud possessor of a record of pitching two successive no-hit, no-run games. A week ago he let down the army quartermasters with a hitless, runless game and repeated yesterday against the Goat Island Sailors. He twirls for Crockett. Beat Norman Ross. Alameda, Cal., April 29.—Perry McGilivray had a firm hold on his position among swimming champions today following his defeat of Norman Ross in the 100 yard national event here yesterday. McGilivray finished in 55.25, with Ross a fifth of a second behind.

Girl is a Swimmer. Oakland, Cal., April 29.—Charlotte Boyle, who hails from the east, drew attention from western swimming fans today as a result of her victory in the 50 yard national swim here yesterday. Her time was 31.15. "Dode" Burns came in second and Miss Claire Galligan was third.

## SAYS POTATOES ARE GOOD POULTRY FOOD

### Properly Mixed With Mill Feed the Low-Priced Tuber Makes Egg Builder

Corvallis, Or., April 29.—Potatoes may be liberally fed to laying hens at a profit at present prices, says Prof. James Dryden, head of the O. A. C. experiment station poultry work. One dollar will buy 133 pounds of potatoes, or more. The same dollar will buy about 30 pounds of corn. The hens will help to save loss in potatoes, and the potatoes will help the poultry-keeper to get a profit from the hens. A hundred pounds of potatoes contains 21 pounds of dry matter, and a hundred pounds of corn 89 pounds. At 75 cents a hundred a dollar will buy 25 pounds of potatoes, minus the moisture; and at \$4 a hundred for corn, a dollar will buy 25 1/4 pounds corn. The chemical composition of potatoes does not vary greatly on a dry matter basis, from corn or wheat. The potatoes should be boiled and then mixed with bran and shorts, the whole fed as a mash once a day. After boiling, pour off most of the water and mix as much bran and shorts as the moisture will take up. This mash should be fed preferably in the evening about 30 hours before dark. The hens should have all they will eat. In the morning give them a light feed of coarse grain-corn, oats or barley, just what they will clean up in an hour or two when it is thrown in a litter of straw 8 or 10 inches deep. About three times as much mash by weight as of dry grain should be fed after the fowls become accustomed to the ration.

## Undertone of Strength Develops In Market

New York, April 29.—The New York Evening Sun financial review today said: While trading was restricted in today's stock market, there was an undertone of strength which reflected confidence in a satisfactory over-subscription to the war loan. Buying of the steel and kindred stocks relatively active, was predicated on the showing as to earnings and disclosure as a dividend action at tomorrow's quarterly meeting of the United States Steel directors. Railroad shares were generally firm. American Telephone was weak feature, and so was American Sumatra. Central Leather and Corn Products Refining were in good demand. Price movements were irregular through the mid-day period, but in the afternoon the general list was substantially above the Saturday closing. Business, however, almost came to a standstill, in the last hour.

## ARCHBISHOP EXHAUSTED.

St. Paul, Minn., April 29.—The condition of Archbishop John Ireland was unchanged today. He is suffering general exhaustion and extreme fatigue, following his journey from Florida to his home here. Members of his household insisted that they are not alarmed. At the same time they said that the archbishop may live for years or may die shortly.

## Names Capital Issues Committee and War Board

Washington, April 29.—President Wilson today nominated members of the war finance corporation created by congress to determine on and render financial aid to war industries. Those named were: William P. G. Harding, Alabama, present governor of the federal reserve board, for a term of two years; Allen B. Forbes, New York, for two years; Eugene Meyer, Jr., New York, for a term of four years, and Angus W. McLean, North Carolina, for four years. At the same time the president nominated seven members of the permanent capital issues committee, which licenses the issuance of securities to private corporations, municipalities and in-

## IN COLLISION AT SEA.

Washington, April 29.—Two American transports were damaged in a collision at sea, the navy department announced. Both vessels have returned safely to an Atlantic port and no lives are reported lost. The two vessels were under convoy and running without lights when the accident occurred, the official announcement stated. Neither was seriously damaged, but both were ordered back for repairs. A board of inquiry will be appointed to make a thorough investigation of the accident, Secretary Daniels announced.
