

# Fiery Irritations of the Skin Show Your Blood Needs Purifying

## A Sluggish, Clogged-Up Circulation Causes Skin Eruptions.

Eczema is called a skin disease because the tiny little germs which cause the disease set up their colony on some portion of the skin's surface, and here spread their irritation that soon begins to burn like flames of fire.

There are other forms of so-called diseases of skin, such as tetter, boils, pimples, acne, erysipelas, scaly eruptions, blotches and rough irritations, that are a source of much pain and annoyance.

And, while these disorders are generally referred to as skin diseases, they are really traceable to a disordered condition of the blood, and they are never experienced by anyone whose blood is free from impurities.

If you are a victim of any form of these painful and irritating disorders of the skin, causing, as they do, such constant annoyance, you cannot expect any real benefit from the local treatment so generally used, such as lotions, ointments, salves, etc.

You are simply postponing a cure

and adding to your days of torturing discomfort when you waste time on such remedies applied to the surface. You must reach the cause of the disorder, the actual source of the pain, before you can hope to stop the pain itself.

The cause of all of these so-called skin diseases is in the blood, and you cannot reach the blood by external remedies applied to the surface.

Give your blood a thorough cleansing with S. S. S., the great old blood purifier, and you in this way eliminate all impurities which cause skin diseases and other derangements.

This is the logical treatment, and it has proven its great worth in hundreds of cases because it is a purely vegetable remedy and cleanses the blood of all foreign substances, and fills the veins with a fresh supply of rich, red and vigorous blood.

Go to your drug store and get a bottle of S. S. S. today, and get on the right treatment, and waste no further time on washes, ointments and lotions, that cannot reach below the surface.

If your case needs special medical advice, it can be had without cost by writing to Medical Director, Swift Specific Co., 83 Swift Laboratory, Atlanta, Ga.

The local delegates plan to leave Salem Sunday and will probably be accompanied by other interested Red Cross workers, who will attend the institute as visitors. Each chapter in the northwest will send five delegates.

A large number of Salem visitors will attend the dedication exercises of the Pioneer Memorial building at Champoeg tomorrow, in commemoration of that historic meeting of pioneers, who by a dramatic majority of one vote, declared that Oregon should belong to the United States and not Great Britain.

The program arranged embraces an instrumental concert between 11 and 12 o'clock by the Pervin band of Yamhill county; basket dinner and exchange of greetings from 12:30 to 1 o'clock; invocation; dedication address, and songs by veteran quartet of Portland. All addresses are limited to five minutes.

This will be the seventy fifth anniversary of Pioneers' day, and the eighteenth annual celebration of the event. Pioneers, their relatives and the public generally are invited. Among those who are planning to attend the dedication ceremonies from Salem will be Judge P. H. D'Arcy, Miss Teresa D'Arcy, Mr. and Mrs. J. D. Sutherland, Mr. and Mrs. A. N. Moore, Mr. and Mrs. R. R. In Mexico are planning to leave the country as a result of anti-American agitation by German agents, according to travelers from Mexico today. Using money freely, the Germans are inciting the Mexicans to insurrection on the west coast and the Carranza government has not been able to cope with the situation, the travelers declared.

## CRUDE RUBBER

(Continued from page one)

All sale contracts of crude rubber in clause which gives the government the option of buying the rubber at its own standard price. This is the price fixed in today's order.

The option clause thus gives the government complete control of all crude rubber from the time it reaches an American port until it is delivered to the manufacturer.

Under the option clause, the government can take over crude rubber at any time speculation is forced. The government then can go into the market and undersell the speculators.

The option clause plan of price control first used in fixing wool prices. But the rubber clause goes much farther than the wool clause because the government's option in the wool contracts was for a limited time. Also rubber is 100 per cent imported, while wool is not.

Officials say the action taken will prevent any attempt of manufacturers to raise prices because the price at which they buy raw products is fixed and not subject to fluctuations.

That is why it is denied the order will cause an increase in the price of automobile tires. It is probably, however, that there will be a shortage. Stocks of crude rubber now on hand and in transit are sufficient to maintain the market for three months.

## PRESIDENT WILSON PLEADS FOR BONDS

Wants One Million Americans To Purchase On Installment Plan

Washington, May 1.—President Wilson today called upon 1,000,000 Americans to match him with a \$50 liberty bond—\$5 down and \$5 a month.

Inaugurating a "buy an hour bond" campaign starting today, the president after purchasing all the bonds he felt he could, got another \$50 one on the installment plan, providing a million people in the country will go with him on the proposition.

With about a half billion dollars yet to go, the president believes that at least \$50,000,000 can be raised through the co-operation of a million Americans willing to get "another bond" with him.

To date 12,000,000 Americans have purchased bonds—three million more subscribers than in the second loan. But \$50 per capita subscription, owing to the failure of the wealthy to respond, has failed to put the loan "over" to date.

The field has been combed for all except the banks who so largely floated the first and second loans. Only extra effort and further sacrifice by individual will prevent turning the banks for most of the balance now.

This loan, with its vast subscription list, is leaving the country in splendid financial condition, according to officers of the federal reserve board.

Official reports to mid-forenoon showed the final half billion dollars dwindling. The total was \$2,519,814,600 an approximate gain of \$60,000,000 over last figures.

Minneapolis was the first district to turn in a clean sheet of every state over-subscribed, with a total of \$135,000,000.

Overnight returns did little service for the eastern districts, all three of which dropped a notch in the percentage column. New York was crowded down to next to last place by a stout spurt by Richmond; Dallas wrested six place away from Boston, and Cleveland took eighth place from Philadelphia.

Chicago, leading in total honor flags awarded, had boosted this total to 3,237.

District Over Top. San Francisco, May 1.—The Twelfth federal reserve district "has apparently subscribed its minimum quota in the third liberty loan," according to an announcement by Campaign Canvasser George K. Weeks, today.

The smallest amount on which the district could pass muster is \$210,000,000. Last night the federal reserve bank had received \$194,938,900. Besides this about \$15,000,000 is en route to headquarters from various parts of the district. Weeks figured the total subscriptions to date at \$210,288,900.

However, four districts in the United States were ahead of the Twelfth in subscribing their minimum quotas. Oregon was still ahead of the six other states of the district, both in the percentage of over-subscription and the number of honor flags awarded.

## Von Linder Confesses He Is German Spy

Kansas City, Kan., May 1.—Wilhelm Von Linder, aged 31, yesterday afternoon confessed to United States District Attorney, Robertson here, of spy activities throughout the United States over a period of two years, during which he took numerous photographs of United States naval station barracks and other military establishments. To carry out his activities he had enlisted in the United States navy and army. He worked under the direction of the German embassy in Washington and gave the names of Captain Boy-ed and many other well known German agents in this country as directing his activities.

This man is now completing a year's sentence at Fort Leavenworth for desertion from the United States army. This is the first statement he has made to government officials covering his activities.

## CRUDE OIL HIGHER.

San Francisco, May 1.—An increase of 25 cents a barrel on crude oil became effective today under price changes announced by the Standard Oil company. This brings the price of the lowest
