### Good Sugar Substitute Is Sugar Beet Syrup

Corvallis, Or., May 1.—Save sugar by using sugar beet syrup and make the syrup yourself, is the possibility held out to Oregon citizens by their college chemist, R. H. Robinson.

Residents of the Pacific coast regions do not yet feel the sugar shortage now bearing hard on many parts of the United States as well as on the soldiers of America and its allies. But unless the supply of sweetening can be greatly increased the condition is expected to become serious here.

Syrup or raw sugar can be prepared in the home by growing a few bushels of sugar beets in the home garden or field and making them up. As matter heretofore from Oregon grown beets the syrup had a strong, beet flavor that rendered it unfit for table use. This can be overcome by the following method:

Scrub the beets until perfectly clean. Cut off the crown just under the lowest leaf scar, for the part above contains the salts that impart the bad flavor. Slice very thin and soak for an hour or more in water near the boiling temperature. Drain off the water and evaporate by heating until the desired thickness. Steam will rise and should be dipped off to keep the flavor. Slice very thin and soak for and wholesome for table use.

If the evaporation is carried still further a dark colored sugar will settle out, good for cooking.

Write Prof. Robinson for bulletins and other information on the making of sugar beet syrup.

### Germans Profess Not to Understand Protest

Paris, May 1.—Protests against the bombardment of churches by the Germans are regarded as "inexplicable" by Germany, according to the Cologne Gazette.

"Germany is sorry that shells from the 220 millimeter guns struck a church on Good Friday," the communique states, but inquires sarcastically "how Parisians could expect a guinea 120 kilometers away to differentiate between churches and other structures?" "Our pity is evidenced by the fact there was no bombardment on the day the victims of the Good Friday incident were buried," the Gazette asserted. "We certainly committed no sacrileges."

Cardinal Hartmann is preparing a full report on the incident to be submitted to the Vatican shortly.

#### VILLA BANDITS ACTIVE.

Jaurez, Mex., May 1.—Sixty five aged men, women and children have been massacred by Villa bandits, according to arrivals here today from Chihuahua City and other northern and central points in Mexico. General Francisco Murguia is said to have received \$10,000 recently from the German agents.

## SHORTAGE OF GAS DURING THE SUMMER IS NOW FEARED HERE

### Company Lacks Money to Make Necessary Repairs and Extensions

Salem may be short of gas for cooking and heating this summer and fall, according to statements made by W. M. Hamilton, manager of the gas plant.

It seems that the Portland Railway, Light and Power company, owners of the gas plant, are in financial difficulties due to greatly increased costs of labor and materials in the last year and a half, without any corresponding increase in the company's income. The surplus, or sinking fund, which the company was formerly able to maintain has been exhausted and no dividends have been paid.

On account of its financial condition the officers of the company are having great difficulty in raising enough money to provide for the necessary additions and enlargements to the company's various plants and distributing lines.

Coupled with this difficulty is the unusual condition of a great shortage of snow in the mountains this spring, which will cause a shortage in water this fall, and thereby reduce the capacity of the company's water power plants.

This means that additional boilers, engines and generators must be bought and installed in the steam power plants to provide the quantities of power required to meet the demands which have been greatly increased in the last year by the establishment of the shipyards in Portland.

The effect of these conditions upon the gas supply in Salem is that they form a big obstacle in the way of raising the necessary \$6000 which is needed to purchase and install an additional gas bench or generator which will be required this summer and fall to supply the demand for gas.

Three benches or generators have been required for the last two years to supply the maximum demand for gas which comes in the latter part of the summer and early part of the fall, due to the preserving of fruit and vegetables by the housewives.

One of the three benches used last year was finally worn out last winter, and as a result, there are but two left. Due to the increase in cost of coal 33 per cent and labor 30 per cent and possibly more, the gas plant will experience a deficit of \$1500 this year unless its rates for gas are raised to meet the increased costs of production.

It will be necessary, according to Mr. Hamilton, because of the foregoing conditions, for his company to petition the public service commission for an increase in its rates for gas, in order to provide sufficient revenue to meet the increased operating costs and to be able to secure the necessary money for the third gas bench.

### Equal Suffrage Coming to Prussia—Hertling

Copenhagen, May 1.—Chancellor Hertling, during a tempestuous session of the Prussian diet involving discussion of electoral reforms declared that "equal suffrage is coming to Prussia, and cannot long stand out against the progressive movement."

"It is possible, however," he added, "to arrange safeguards that will prevent too far reaching and radical consequences. The government has resolved to guard against harmful effects, but it is desirable that we come to a quick decision."

"We can give it now. If we refuse it may be wrung from us later, amidst severe convulsions of national life."

Previous to Hertling's speech, Count Spee proposed a postponement of the discussion until after the war. The liberals bitterly opposed him, pointing out that it would mean serious consequences.

Herr Hoffman, radical, amid cries of "traitor" said if the discussion were postponed he would ask the soldiers to cease fighting. Spee's proposal was rejected.

### Jury Is Completed To Try I. W. W. Agitators

Chicago, May 1.—A jury was completed this afternoon to try the 112 I. W. W. leaders charged with sedition. Complete a jury this afternoon or spend all night in court was the ultimatum of Federal Judge Landis when attorneys resumed examination of jurors this morning.

To break the hoodoo which has hovered over chair number 4 in the jury box, which could not be filled, juror number 3 was moved to that resting place today while the attorneys tried to fill his former seat. Eighteen men had been examined for chair number 4. Eleven men have been tentatively accepted by both sides.

### Michigan Goes Dry With No Celebration

Detroit, Mich., May 1.—Michigan went dry quietly at midnight. With New Hampshire which also became dry today, it was the twenty fifth state in the union to enter prohibition. Scenes of excess were noticeably lacking last night. Most of the bars closed in Detroit closed several hours before midnight. When the last coffee was called only one saloon remained to close.

### Conscription of Labor Only As Last Resort

Washington, May 1.—Conscription of labor for war work will be considered by the war department only in case the need becomes pressing, Assistant Secretary of War Crowell today wrote Senator Chamberlain, chairman of the military affairs committee.

Crowell wrote concerning the McCumber bill, providing that every man should be drafted for some sort of work.

"Should the need for conscription of labor become pressing," wrote Crowell, "the war department would not hesitate to request congressional assistance, but for the present it prefers to await the recommendations of other departments more directly connected with the labor situation."

Crowell added that the bill has been referred to the general staff.

### Grain Ships Will Sail For Holland

Washington, May 1.—Announcement of the sailing of grain ships to Holland to be made shortly, indicate differences between the United States and the Netherlands government concerning the proposal for rationing that country have been composed.

Officials today are asking what effect this will have on relations between Holland and Germany.

It is expected that three United States ships loaded with grain for Holland will sail in a few days. Their departure has been held up weeks because a corresponding number of ships did not leave Holland for the United States. Holland is reported now to be ready to make the exchange.

### What Germans Demand of Dutch Kingdom

Amsterdam, April 30.—George Bernhard, German publicist, writing in the Vossische Zeitung, declares:

"Germany demands from Holland—first, the right to send war material over the Limbery railway to Antwerp; second, the right to send foodstuffs for transmission from Antwerp, and third, the renewal of treaties relative to the importation of sand and gravel."

Bernhard said that Germany told Holland there could be no departure from these demands—that, as Holland had yielded to Anglo-American pressure in regard to the shipping, she must now yield to Germany, "to make things balance."

#### On Holland Border

Amsterdam, April 30.—German cavalry has been observed at Eschen, according to reports received today from Rosendaal.

Eschen is a Belgian customs town on the Holland-Belgian border 18 miles directly north of Antwerp. Rosendaal is five miles directly north of Eschen.

#### AUTOCRACY VS. DEMOCRACY

Impatiently we wait the while,  
With ever fluctuating breath,  
As Haig falls back by rod or mile,  
To save his men from meeting death  
Hot is the fight  
For freedom light;  
Yet it shall be  
Autocracy  
Must fall, at once, to rise no more.

For years we've seen this growing  
power  
Expanding, surely, day by day;  
Constructing well a mighty tower,  
From which, o'er earth it might  
hold sway.

It planned for greed;  
With hurried speed  
It spread the net  
With which to get  
This world of nations in its grasp.

We saw the mighty armament;  
The many arsenals and stores.  
We saw the country fortified  
From mountain sides clear down to  
shores.

But we stood dumb  
While all this hum  
Was forging chains  
And training brains  
To conquer all the land and sea.

The mighty dreadnaughts one by one  
Sled down the well-greased North  
Sea ways  
As German flag swung in the sea  
Betokening many stormy days.  
Yet auroa stood  
In solemn mood  
And peaceful France  
In many dance,  
While Uncle Sam would scoff at war.

For forty years this game went on,  
While honeyed words and pleasant  
smiles  
Were "kultured" to perfection's  
charms;  
And war munitions high were piled.  
Yet all the while  
The Judas smile  
Held back a spike  
With which to strike  
For victory o'er Democracy.

When assassin's knife gave feint ex-  
cuse  
The hellish plan to put in force;  
The hydrophobed beast cut loose,  
And nothing seemed to stay his  
course.

He smashed all laws  
With massive jaws,  
He broke all covenants  
With murderous deeds  
Then claimed a partnership with God.

Oh! Blasphemy! No human thoughts;  
They've all been "kultured" clear  
away.

His minions have by millions sought  
To battle sacred rights away.  
Oh! new shall we  
Use cravens' fee!  
Or stand the shock  
Like solid rock!

Until this crazy beast is caged!

No man can die a better death,  
Nor in a greater, nobler cause  
Than in this war for all the earth,  
To put in force God's righteous laws

### New ARROW COLLARS FOR SPRING

CASCO-2 1/2 in. CLYDE-2 1/2 in.

Without delay,  
Where they will stay,  
For human sake  
And help to make  
Democracy a living word.

O, many are the noble dead  
Who've shed their blood in years  
agone;  
Their spirits now lead on ahead,  
While we defend the rights they  
won.

We'll face the beast;  
Not let him feast  
On victory won  
By Boche or Hun,  
But lay him low on land and sea.

So let us wait with patient breath,  
While Foch and Haig work out a  
plan  
Which will in time beat back the  
beast,

'As righteousness must hope they saw,  
But hot's the fight  
For human right  
Yet we know that  
The Autocrat  
Must be put down at any cost.

# Spring Find You Worn and Achy?

"Every Picture Tells a Story"

DO YOU feel dull, tired, achy all over—back feel as if it would break? Are you "all played out"—feel as if you just can't keep going? Then it's time you looked to your kidneys! Winter with its chills and changes throws a heavy strain on the kidneys. Spring finds you full of mysterious aches and pains; you are nervous, dizzy, irritable and "blue." You may have kidney irregularities, too. Don't Wait! Help the weakened kidneys before serious kidney trouble takes hold. Use Doan's Kidney Pills, the remedy that has helped so many Salem people.

## Read These Salem Cases:

<p><b>N. Commercial Street</b></p> <p>A. J. Wood, 689 N. Commercial Street, says: "Kidney and bladder trouble got to a point with me about two months ago where I was obliged to take some steps in checking it or suffer some serious results. The worst time I had was just after getting up in the morning. The kidney secretions were very annoying. I began using Doan's Kidney Pills, getting them from Dr. Stone's Drug Store. My kidneys were restored to a normal condition and was freed from every symptom of the trouble." (Statement given January 20, 1906.)</p> <p>On April 11, 1916, Mr. Wood added: "I have had very little backache or other trouble from my kidneys since I got hold of Doan's Kidney Pills. I don't know of anything equal to them."</p>	<p><b>Mission Street</b></p> <p>Mrs. G. H. Deacon, 1498 Mission St., says: "It has been a long time since I have taken Doan's Kidney Pills but speaking from past experience can say that they are a fine medicine. I had a dull pain across my kidneys and at times it was very severe. After I had taken Doan's Kidney Pills a few days, that disagreeable ache disappeared. My back and kidneys have caused me but very little trouble since."</p>	<p><b>Lee Street</b></p> <p>J. H. Penton, 1405 Lee street, says: "On several occasions a cold settled in my back across my kidneys, causing pain that extended into my loins. I know that my kidneys were to blame and started using Doan's Kidney Pills. I found them just the thing to rid me of the pain and disorders." (Statement given December 11, 1912.)</p> <p>On April 12, 1916, Mr. Penton said: "I have never found a more reliable medicine for backache and kidney disorders than Doan's Kidney Pills. Whenever my kidneys get out of order Doan's soon puts them right."</p>
<p><b>N. Church Street</b></p> <p>Mrs. Elsie Kuescher, 1293 N. Church Street, says: "Several years ago I suffered a great deal with rheumatic pains in my back and more or less through my whole body. I ached all over. My kidneys were congested and irregular and I concluded they were the cause of the trouble. I took Doan's Kidney Pills and they stopped that pain in my back and I have been troubled very little since. Whenever I have noticed my kidneys needed attention, I have taken Doan's Kidney Pills and they have always helped me. I couldn't recommend a better remedy."</p>	<p><b>High Street</b></p> <p>Joseph Wint, retired blacksmith, 608 High Street, says: "My back and kidneys bothered me. My kidneys were disordered and my back was weak. Doan's Kidney Pills soon put me right." (Statement given December 12, 1912.)</p> <p>On April 11, 1916, Mr. Wint said: "My opinion of Doan's Kidney Pills is just the same today as it was when I gave my first endorsement. I haven't had any kidney trouble now for several years and I give them credit for bringing such lasting results."</p>	<p><b>South Thirteenth Street</b></p> <p>Mrs. Emily Edwards, 1107 South Thirteenth street, says: "I couldn't speak too highly in praise of Doan's Kidney Pills for I have never found anything to equal this old, reliable kidney medicine for regulating the kidneys and stopping backache. I am only too glad to tell others who are subject to backache, as I used to be, that Doan's Kidney Pills are very reliable and effective for that trouble."</p>
