PROSECUTION OF I. W. W. GANG IS NOW BEGUN IN EARNEST

Prosecutor Nebeker Tells of Conspiracy In Opening Address to Federal Jury

Chicago, May 2.—The government's first wholesale prosecution of alleged war obstructors was finally to get under way here today with Special Prosecutor Frank N. Nebeker's opening address to the jury in the trial of 112 I. W. W. leaders charged with sedition and sabotage.

The defendants "were continually stirring up labor troubles, obstructing government war measures and bidding their time to overthrow existing society and place themselves in power," Nebeker's prepared opening statement declares.

Nebeker planned to read the I. W. W. jargon from their publications and songs. Reference to sabotage and its methods as "direct action" and "milk for the kity" according to Nebeker disclosed the organization's plans. "Kity" is I. W. W. code for saboteur, he stated.

The prisoners ranging from Windstried writers and agitators to huge stolid laborers, were again marched handcuffed through the crowded streets to the federal building. Nebeker planned to spray their ranks in the courtroom with verbal bombs for several hours. From tons of evidence he had selected I. W. W. communications alleged to be orders for commitment of sabotage. Many of their acts had the effect of obstructing war plans, he claimed in his opening statement.

"They called themselves conscientious objectors," said Nebeker today. "They threatened sabotage if compelled to enter army or navy and if necessary they planned to tie up the industries of the country to prevent munitions manufacture."

Completion of a jury yesterday after four weeks' effort came simultaneously with federal indictment of L. C. Russell, I. W. W. worker, on a charge of tampering with venemen. Russell has not been captured.

Round Up Slackers

Detroit, Mich., May 2.—Forty four alleged slackers were in jail here today following a raid on an I. W. W. May Day meeting yesterday in which the entire audience of 1200 was arrested and transported piecemeal to the police station.

Police and state troops made the haul when it became evident the big mass meeting was turning into an I. W. W. demonstration. There was no resistance. The raiders confiscated much literature.

Stock Market Strong In Wall Street Today

New York, May 2.—The New York Evening Sun financial review today said:

Today's stock market was strong, but the trading was dull after a more or less expansive first hour. News developments at home and abroad were distinctly favorable. Steel and equipment shares were the leaders in the upward movement with gains of one or two points. The demand for steel was consistently good, that issue crossing 98, a new high level for the period since February 1, when it touched 95 1/2. Superior Steel achieved a gain of three points or so. The sugar stocks also were outstanding features. The copper lagged and were but slightly changed. Short selling it would appear, has been reduced to a minimum because of the growing prejudice against it.

Naturally there was a broader market for rails. The afternoon trading was of proportions, with gradually increasing strength through most of the list. The steels maintained their lead. United States Steel duplicating the high of the year at 98 1/2. The rails held well.

In the last hour business picked up to some extent and prices receded slightly from the top.

May Day Exercises at Willamette University

The program for the May Day exercises at Willamette university for Friday is as follows:

12 o'clock, noon—Dedication of new cement walk.

Death and Sickness Declining in Camps

Washington, May 2.—Death and sickness rates at the different army camps in the country are declining, Surgeon General Gorgas announced today.

Deaths last week were 251 as compared with 278 of the preceding week. Of these, six were aero accidents and three from other accidents in the aviation section.

Camps Beauregard and Logan report the highest sick rate and Camp Wheeler has a slight epidemic of pneumonia, the surgeon general reports. Otherwise, continues the report, pneumonia cases are declining in number.

Food Good, Says Keppel

Camp Grant, Rockford, Ill., May 2.—"The food is better here than I can afford to buy in Washington," Assistant Secretary of War Frederick Keppel, constituted rookie, declared today. Keppel has been leading the national army life for a week in order to better equip himself to handle cantonment problems.

Nagle in Engine Room of Cruiser

C. J. Nagle, formerly employed with the Salem Iron Works of Salem, is

Declaration of War Will Be Postponed

Washington, May 2.—Following a conference with Secretary of State Lansing today, the senate foreign relations committee decided to hold up action on the King resolution calling for a declaration of war against Bulgaria and Turkey.

Senator Hitchcock said that in addition to other reasons against a declaration now, Lansing indicated it might result in further Tanton reinforcements on the west front—from Bulgaria and Turkey.

The draft treaties with Great Britain and Canada are about completed Lansing declared.

German Officer Escapes Violence of Recruits

San Francisco, May 2.—Having escaped possible violence from a party of twenty army recruits, through quick action by the officers guarding him, Lieutenant Wilhelm Von Brincken, former military attaché of the German consulate, was en route to McNeil's Island today to serve a two year sentence for his part in the Hindu revolt plot.

District Fire Warden Assigned to Duty

F. A. Elliott, state forester, announced today that district wardens had been assigned to duty in the counties of Columbia, Clatsop, Douglas and Josephine. These wardens will spend the greater part of this month in going over the old trails, inspecting telephone lines and in seeing improvements to be made this summer.

German Officer Escapes Violence of Recruits

In the district included in Marion and Clatsop counties, the fire warden, J. W. Ferguson, will take up his duties within a few days.

Besides taking note of what should be done to prevent fires and the establishing of additional telephone lines, the wardens will get into communication with men who formerly helped in patrolling the different districts. This year, on account of so many of the younger men going into the service, there may be some effort necessary in securing men, although for the past year or so, a majority of the patrolmen were over draft age.

Fire warning cards have already been printed by the state forester and will be issued to the district wardens at an early date. These placards are printed in red ink and read, "Take no chances with fire. Do not drop burning matches or tobacco." Smaller sequence placards of warning will also be posted along all trails.

"The fires last year were not caused so much by campers as by carelessness in logging camps," said Mr. Elliott. "In fact, campers cause us but little trouble as they have learned to take great precautions that no fire is left at their stopping places. This year, the number of soldiers from the signal corps, working in the spruce timber will greatly assist us in suppressing fires."
