Fruitland News Items

(Capital Journal Special Service)
Fruitland, May 3--The protracted meetings at the church have closed. There was a good attendance.

John E. Miller has employment at the Dublin dairy farm east of Salem. The school board has again employed H. C. Todd as teacher, at a small advance of salary. Mr. Todd has given efficient service.

Salem butchers are combing Fruitland for beef cattle. Fruitlanders are speeding the domestic and patriotic hog. Today I saw a frugal housewife thumping the clods of the valley while the husband stood locking on. Send him to the firing line.

Sunday, Mr. Tastout of Salem and family visited their 10 acre property here. Mr. T. is employed with E. C. Cross & Son.

Hindenburg will reach his journey's end before he crosses the straits of Dover, is my guess.

The L. B. S. A. of eastern Oregon, or one of them, came near being lynch by some hot headed people who think they were patriotic. Mobs are very dangerous because they lack sense and a cool brain. Our edition laws are like legs of gunpowder, any fool can do immense mischief with them. In 1798 those laws became so unpopular that congress repealed them.

Geo. Sturges has purchased a 5 pinger Briscoe car. Price \$950.

When this war is over an international court of the allies and others who love justice and humanity should condemn the kaiser to perpetual banishment as was Napoleon I. because of brigandage, murder and spoliation.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, gas, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water and a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poison toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have scallous skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Corns Lift Off

Doesn't hurt a bit to lift any corn or callus off with fingers.

No humbug! You truly can lift off every hard corn, soft corn or corn between the toes, or a callused callus on the bottom of feet without one bit of pain.

A genius in Cincinnati discovered Freestone. It is an ether compound and tiny bottles of this magic fluid can now be had at any drug store for a few cents.

Apply several drops of this Freestone upon a tender, aching corn, or a callus. Instantly all soreness disappears and shortly you will find the corn or callus so shriveled and loose that you lift it off with the fingers. You feel no pain while applying Freestone or afterwards.

Just think! No more corns or calluses to torture you and they go without causing one twinge of pain or soreness.

Ladies! Keep a tiny bottle of Freestone on the dresser and never let a corn or callus ache twice.

GRANDMA NEVER LET HER HAIR GET GRAY

Kept Her Locks Youthful, Dark and Glossy with Common Garden Sage and Sulphur

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready to use preparation, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger. This ready to use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure, mitigation or prevention of disease.
