RED CROSS DIVISIONS INSTITUTE AT SEATTLE

Head of Various Departments of Work in This City Will Attend

The Division Institute of the American Red Cross, to include delegates from Oregon, Washington, Idaho and Montana, to be held in Seattle this week will be attended by the following from Salem:

John H. Todd, of the Civilian Relief and Junior Regiment department; Mrs. Carrie Buell, secretary of the Civilian Relief; Mrs. B. C. Seauking, president of the Civilian Relief department of Red Cross; Mrs. M. L. Meyers of the surgical department; Mrs. L. T. Harris, of the Military Relief and Educational department Red Cross; Mrs. Arthur Cason, secretary of Willamette Chapter Red Cross, and Mrs. Henry Daney of the supply and distributing department.

The week's institute is to be held that Red Cross workers may receive general instructions in the various departments of the work and to hear speakers who have had an extensive experience. Also for a general conference and exchange of opinions as to how to best carry on the Red Cross work in the various departments.

The meetings will be held at the University of Washington. Monday will be given to addresses by C. D. Stimson, division manager and others of practical experience. Tuesday morning will be given to conferences among the delegates and the afternoon for discussions on the heads of bureaus in the civilian relief work Junior membership, development and publicity.

Wednesday there will be continuance of the general discussions. Thursday the delegates will spend visiting Camp Lewis. Friday and Saturday of this week will be given to instruction in general work and especially to those interested in surgical dressings. This institute is the first of its kind when Red Cross workers throughout the northwest where Red Cross workers have called together for a general exchange of views.

Gas Company Will Ask For Higher Rate

At the meeting of the city council to be held this evening, the Portland Railway, Light and Power company will present a resolution asking for the endorsement of the city officials.

This resolution states that on account of the increased cost of labor, coal and other materials, as well as the cost of labor, the company will show a deficit of \$5100 for the year unless it secures an increase of rates. Also new machinery will be required to supply the gas required during the fruit and canning season, and that additional revenues must be provided to the company by an increase in rates.

The resolution will ask that the council endorse the request of the light company in its endeavor with the public service commission in securing permission to increase its rates. The resolution to be presented tonight also reads: "Resolved that the common council of the city of Salem does hereby request the public service commission to investigate the claims of the Portland Railway, Light and Power company. And, if the commission finds that an increase of rates is necessary to permit the company to earn a reasonable return upon its investment and provide sufficient funds for the purchase of adequate facilities for manufacturing all gas required to supply the inhabitants for the city of Salem, that the public service commission authorize and put into effect such increased rates as it may deem necessary. Resolved, also, that the city recorder notify the commission of the action of the city council."

Court House News

A marriage license was issued Saturday to John Bogynski, age 33, of Salem, a farmer, and Mabel Clair Bass, age 36, of Salem. He was born in Austria and this is his first marriage, while she was born in Iowa and this is her second.

A summons was issued against the defendant in the case of Gladys Stutesman Mackeson against John D. Mackeson, whereby he is called to answer the complaint in the divorce suit against him within six weeks from May 3. In the complaint, Mrs. Mackeson asks the custody of a minor child.

In the county court, the inventory of the estate of Lewis Anderson, deceased, was filed Saturday. The value of the property is estimated at \$9062.36. The appraisers were O. A. Lee, O. E. M. Sorenson and S. A. Ness.

In the matter of the estate for three minors, Ira, Elma and Dillman Amstutz, the appraisers found property to the value of \$1760.

The appraisers of the estate of William Fred Olson, deceased, reported to the county court property to the value of \$7480. The valuation on the property was by T. K. Ford, Guy O. Smith and Roy F. Shields.

The inventory of the estate of John Werner, deceased, showed property valued at \$17,754.62. Two tracts of land were included in the appraisal. The 97 acre tract in township 6, range 2 west, was valued at \$7900 and the 45 acres in township 6, range 1 west at \$4500. The cash in bank was \$1890. The appraisers were Alfred Kneudt, William Kaufman and H. H. Keuzel.

Oregon City and Corvallis Want River Boat Service

Corvallis and Oregon City especially do not appreciate the fact that the boat service is a thing of the past. It is understood that the commercial clubs of these cities, as well as the business men of St. Paul, Wheatland and other points will take the matter of river transportation up with Senator McNary and the congressmen from this district, in an effort to have them present the matter to proper officials and if possible have the government take over the boat line.

The Grahamona made its final trip this morning and will tie up tonight at the dock in Portland where it will be sold along with other boats of the Oregon City Transportation company. Since the announcement that the service would be discontinued, farmers along the river near landing points have been calling up the office here in regard to shipping cattle and hogs to Portland.

The office and warehouse will be closed either this evening or tomorrow as soon as merchandise now on hand can be delivered.

Stock Market Strong In Wall Street Today

New York, May 6.—The New York Evening Sun financial review today said:

Today's stock market was strong in a fair volume of trading, although most of the activity spent itself in the first hour.

After the first rush of buying was over, business lapsed into just such a dull affair as those with which Wall Street has now been long familiar.

Prices held well, however. There was no desire to sell and in consequence the supply of stocks was limited. Short covering was also a factor in the advance to some extent.

United States Steel was the most heavily bought stock on the list. It crossed 99 for the first time this year, the best previous price having been 92 1/2. The other steel shares were also in brisk demand. The rails were thin. There was a slight reaction from the top toward midday.

TO SUPPRESS I. W. W. Washington, May 6.—The senate today passed a bill designed to drive the I. W. W. and kindred organizations out of existence.

Fifth Annual Corn Show Next December

The fifth annual corn show for Salem, probably the second week in December, is an assured fact, according to announcement made by Luther J. Chapin, head of the agricultural bureau of the Commercial club.

The corn show has held the last four years has been an increasing success, and this year ought to show better than ever. Early announcement is made, in order that corn may be grown with a definite view of display. Heretofore this has not been the case. No announcement has been made and the show has had to get along with what it could get. In spite of this drawback, it has been, in the opinion of many observers in a position to know the best thing of its sort in this neck of the woods.

Mr. Chapin is laying his plans so as to be able to announce the preliminary list within a few days. The Commercial club it is expected will get back of the venture this year as usual.

Corn is one of the coming important crops of the valley. In Mr. Chapin's opinion, "The corn show has demonstrated that corn can be grown in the valley to commercial success," he states, "and the show has stimulated an interest in the growing of corn that otherwise would probably not have been possible."

CHICAGO'S LIBERTY LOAN

Chicago, May 6.—Latest figures on the liberty loan standing of the Seventh reserve district today showed a subscription of \$674,244,200 or 129.25 per cent of its quota.

State House News

F. A. Elliott, state forester, reports considerable work being done in slashing and cleaning up in the Black River section in Polk county and the Siletz basin. The work is being done largely by the Polk County Fire Patrol association and includes the clearing up of the debris from the 1910 burnt over sections. In Linn county near Berlin and also near Hamlet, in Clatsop county, the debris and old burns are being cleared. It has been found that many fires start from the old burnt over sections.

With the Corporation department the Triangle Lumber Co. of Portland filed articles of incorporation. The capital stock is \$5,000. The Coast Storage company of North Portland filed articles of incorporation, with \$5,000 capital stock.

Mrs. Pearl Gaddie of Atlantic City, N. J., writes the office of secretary of state asking information as to Henry Gaddie. He had not been heard from for eight years. It is understood he was formerly employed by Moran & Co., of Seattle.

At the meeting of the Board of Control yesterday afternoon Dr. F. L. Ditter was appointed official dentist for several state institutions. E. T. Moore, superintendent of the Oregon State school for the blind was granted a two weeks' leave of absence for the benefit of his health.

The Board of Horticulture appointed H. C. Atwell of Forest Grove and G. A. McCrum of Hood River as horticulturists in their respective parts of the state.

By order of the Public Service Commission, the City of Monmouth, Oregon, is relieved of the necessity of maintaining advance earnings signs on several streets at the crossings at grade with the Independence & Monmouth Railroad and at crossings at grade with the Arlie branch of the S. P. railroad. The Commission decided that such signs were not necessary by reason of present existing precautions.

Attorney General Brown has, at the request of Secretary of State Ocott, prepared the ballot title for a bill proposed by initiative petition and initiated by the State Council of Defense of Oregon. The bill proposes to raise by the levying of a one mill tax, funds for taking care of any and all war emergencies that may arise. It is submitted by H. L. Corbett, chairman of the council, and John K. Kollock, its secretary. The title as prepared by the attorney general is as follows: "Emergency War Fund Bill—Proposes to aid the government of the United States within the state of Oregon, in the protection of life, liberty and property during the period of the present war between the United States and Germany; to appropriate money herefor; to provide an annual one mill levy upon all taxable property within the state to meet the same; directing the administration and expenditure therefor by the Oregon State board of Con-

trol; terminating the levy hereto provided for at the conclusion of peace; directing the transfer of any unused money thereafter to the irrevocable school fund and providing maintaining the state's credit."

If this bill is passed, that it receives a majority of all votes cast for or against it at the coming election, it will, it is estimated, raise a fund of about \$208,000 yearly.

The Portland and Troutdale Electric Railway company has filed its annual report with the Public Service commission. It shows assets of \$21,746.32 and liabilities of \$21,000.65.

Articles of incorporation were filed today as follows: Emblem Club, of Bend, has property valued at \$6500 and its object is to maintain a club house for the use of its members.

The Ontario Canal company, of Ontario, Milheur county, capital stock \$5000 and object to establish an irrigation system and furnish water for lands of its stockholders.

Pacific Northwest Storage company of Portland capital stock \$5000 and object to conduct a warehouse and storage business.

The Nisbeth Sanatorium filed notice of dissolution.

In the matter of school districts 52 and 74, both at Brownsville, and both of which have heretofore maintained a high school, Attorney General Brown holds that as district 52 desired for the present to have district 74 maintain such high school to which district 52 would send her high school pupils, paying its proportion of the expense of conducting the school, that this could be done without district 52 forfeiting any of its rights as to again maintaining a high school when ever it so desired.

R. B. Teal, investigator for the United States, of irrigation and drainage districts, was a visitor at the state engineer's office this morning. He has been investigating several districts in the state that desire the consent of the board of issue to floating bonds, and especially some of those in eastern Oregon. He goes from here to investigate the districts at Talent, Gold Hill and Grants Pass. While not making any statement as to what recommendations he would make it was plain that he was very much pleased with the showing made by such eastern Oregon districts as he visited, and it is quite probable he will make a favorable recommendation for all such.
