HOME GUARDSMEN MAY WEAR UNIFORMS

County Court May Be Asked to Pay Expense of Furnishing Same

At the drill last evening of one of the companies of the Oregon state militia there was a discussion as to the advisability of members of the battalion here wearing uniforms. In several counties of the state, the home guards have been given uniforms and this is true of Linn and Lane counties. It is thought probable that members of the home guard will put the proposition up to the county court and commissioners as to whether they will vote enough funds to properly uniform the battalion to be formed in Salem and other points.

In speaking of the matter this morning, Judge Bushey said it was up to the court and commissioners to act on the matter. However, personally he was much in favor of not only putting uniforms on the home guards, but in doing all that could be done to encourage them.

The judge referred to the time when \$6,000 was given by the county for the armory in Salem and \$7,500 for the Woodburn armory and how many people thought at that time that the county was throwing away money. He also noted the fact that right now the Salem and Woodburn companies are in France when there is the greatest need and that these two companies were the first to respond in full equipment to the call.

Judge Bushey believes that the best investment the county ever made was in helping build the Salem and Woodburn armories and that today it will be a good investment for the county to do what it can in encouraging the Oregon state militia. "The government is asking for the organization of home guards," said Judge Bushey, "and the expense of helping them is immaterial, considering the good that can be done."

Public Is Nibbling In Wall Street Today

New York, May 7.—The New York Evening Sun financial review today said:

That the public has again begun to nibble at the tempting bait of rising prices was apparent in today's securities market. Trading was on a broader scale than at any time recently and commission houses were livelier as well. United States Steel added a gain of another three points or more to almost the same gain of Monday, that is, advancing above 103, the highest in many months. Bethlehem A and B issues, Republic and Crucible were not far behind and the others made a good showing. The coppers were at first backward, but they, too, moved forward at mid day. In the railroad department movements were mixed.

Both strength and activity were substantially maintained through the afternoon with a few exceptions just before the closing.

New Books Received at Public Library

The following new books are being placed on the shelves at the public library this week:

"Women's work in war time," how they have replaced men in industry in Great Britain.—Bellard.

Three volumes of "The international library of technology"—"Automobile carburetors and automobile operation," "Carpet, wall paper and architectural design," and "Copy for advertisement, type and proof reading."

"Technical equipment of the signal corps" U. S. War department.

"Gill's dictionary of the Chinese jargon," John Gill.

"Dictionary of electric short hand" Cross.

"Miracles of science," readable descriptions of such miracles as the "weighing of the world" and the "banishing of plagues."—Williams.

"Electricity for young people," Jenks.

"Assurance of immortality," a brief but eloquent presentation of the reasons for belief in the immortality of the soul. Fosdick.

"Woodcraft for women," a handbook on suitable clothing for outing, preparing the packs, camping, canoeing, hunting and fishing. Pinkerton.

"Touring afoot," another of the outing handbooks which covers footwear, carrying the pack, shelters, and map reading. Forester.

"Dance, drills and story plays for every day and holidays."—Lann.

"Anthology of magazine verse for 1917." Braithwaite.

"Familiar ways," charming essays by the author of "The worn doorknob." Sherwood.

"The Inn of disenchantment," pleasing sketches. Lisa Yasue Tar.

"Tales of California yesterday."—Eberle.

"Lanier book, selections from his writings in prose and verse.

"Winning lady," and other short stories by Mary Wilkins Freeman.

"Billy Topmull, M. D.," a tale of adventure with Doctor Luke of the Labrador. Duncan.

"The Ford," Austin.

Books for the Children

"Chel, a story of the Swiss mountains," by the author of "Heidi." Spurr.

"Stories from the Norseland." Edmiston.

"Ned and Nan in Holland." Olmstead.

If you are helping to win the war by using your backyard for poultry or for a war garden, there are books at the library which will be helpful to you.

Former Governor West, who is a candidate for United States senator is in the city presumably replying weak spots in his political fences.

St. Mary College Is Partially Burned

Oakland, Cal., May 7.—St. Mary's College, one of the best known Catholic institutions on the Pacific coast, caught fire this afternoon.

An hour later it seemed likely that the firemen would be able to confine the blaze to the northern and east sections, most of which were occupied by dormitories.

Panned by a high wind, the flames spread rapidly and a general fire alarm was sounded. At first the concentrated efforts of the Oakland fire department could make no headway against the fire which was almost under control.

Evidence as to the cause of the fire was widely variant. Some said an explosion near the roof on the north side of the five story building started the blaze. Others said it was caused by chemicals with which students were experimenting.

Japanese Are Burned In Laundry Fire

Tacoma, Wash., May 7.—Three Japanese were burned to death early today in a fire that destroyed the Eagle steam laundry on South Fourth street and gutted the Hoffman apartments adjoining. Tenants of the apartment house escaped from the burning building, losing the greater part of their household effects.

The fire started in the laundry, the second floor of which was used as sleeping quarters by about 25 Japanese employees, and in a few minutes the laundry was a mass of flames. The fire spread to the Hoffman and before the occupants could be warned, had made great headway.

The loss is estimated at \$50,000.

United States Shipping Food to Switzerland

Berne, May 7.—Pleasant A. Stovall, American minister to Switzerland, has sent a note to the Swiss government declaring that the United States challenges Germany's alleged blockade of Switzerland. He said American warships are escorting two American merchantmen to France, laden with grain destined for Switzerland.

DEPORTATION OF IWW ARE INVESTIGATED

Inside Story of Bisbee Affair Will Be Told In Federal Court

Washington, May 7.—The inside story of the deportation of 1200 I. W. W.'s from Bisbee, Ariz., last year will be told before the United States district court of Tucson, Ariz., by Assistant Attorney General W. C. Flitts and Attorney Oliver Pagan today. For many months special agents of the justice department have been developing the inside history of this deportation with a view of determining whether or not the criminal code of the country was violated, which provides that in case "two or more persons conspire to injure, oppress, threaten or intimidate any citizen in the free exercise of his rights and privileges secured to him by the constitution, they shall be fined not more than \$5000 or imprisonment for not more than ten years."

The two attorneys from Washington will present the government's views on the subject and it is expected that precedents will be established for the future handling of I. W. W. cases. Whether or not there will be an actual criminal prosecution of the person or persons responsible for this deportation, it was not stated.

Austrian Workers Strike for Shorter Hours

Copenhagen, May 7.—All work in Austria-Hungary ceased on May Day, according to information received here today. The workers passed a resolution demanding an eight hour day.

California Special Anti-Saloon Session

Los Angeles, Cal., May 7.—A special session of the legislature to abolish California's saloons as a war measure will be called at once by Governor Stephens if pledges of sufficient votes to dry up the state are made. It is persistently reported here today. Already it is understood, southern California saloons are being sounded on the matter.

OPERATORS LOCKED OUT

Seattle, Wash., May 7.—Two hundred locked out telegraphers continued to sell thrift stamps today while awaiting the decision of the national labor board which will conduct a hearing on the situation tomorrow. Officials of the Postal and Western Union companies have been called to Washington, along with union representatives, to present the situation.

More than \$700 in thrift stamps were sold by the operators on the streets Monday.

Over Fifty Thousand Automobiles In Oregon

This story is especially for those who have been wondering why there is so much trouble dodging automobiles down town and in fact everywhere.

Five years ago there were only 9474 automobiles in the state. Today there are 50,796, according to the records of the office of secretary of state. One year ago, the number was 34,700, showing an increase for the one year of 16,094.

Four years ago there were 166 real chauffeurs while today the number is 256 which, rather shows that people are doing their own chauffeuring.

Five years ago the fees received for registering amounted to \$42,994. For 1917, the fees were \$196,787.50. For the month of April, 1918, the automobile business with its side lines, turned into the treasury of the state \$37,319.50. Of this amount motor vehicle registration fees were \$34,023, motorcycles \$1503, dealers, \$100, chauffeurs, \$12, motor vehicle transfers \$885, additional dealers' license plates \$77.50.

Incendiary Fire Destroys Much Grain

St. Louis, Mo., May 7.—The Union Stockyards here and an elevator containing \$300,000 worth of grain for the allies were destroyed early today in a fire which authorities say was incendiary. Hay and grain scattered over the pens fed the flames which spread rapidly from an unoccupied warehouse where the fire originated last night. Firemen rescued 2000 animals.

The property damage was estimated at \$500,000 by stockyard officials. Police appraised the loss at \$3,000,000. The authorities are investigating the mysterious cause of the fire.

Manufacture of Pleasure Cars To Be Curtailed

Washington, May 7.—To determine a plan for saving steel—even if production of pleasure vehicles is to be further sharply curtailed—a committee representing the automobile industries and the war board was named today.

It includes: John P. Dodge, Walter E. Flinders, John N. Willys, W. C. Durant, all representing automobile concerns, and George N. Peck, J. L. Bopple, Alexander Legge and Hugh Frayne, representing the war industries board.

At a conference today the government outlined its needs as to steel. Automobile representatives took exception to reports that the government would ask a drastic curtailment of pleasure car manufacturing.

Superior Holds Record

Phoenix, Ariz., May 7.—Superior, a town of 3000 in the Magna copper district, today holds the nation's record for oversubscriptions to the third liberty loan. It went 3400 per cent over the top.

The bond quota for Superior was \$7500. The town's bond subscriptions totaled \$260,000.
