What One Marion County Farmer Is Doing Now What's the Matter with Oregon?

R. N. Stanfield. Republican for United States Senator.

"I have a very strong conviction that Oregon has been discriminated against by the National Government in many ways. Mr. Stanfield shares this feeling and promises, if elected, to correct it as far as it lies in his power to do so. Senator McNary denies that any such discrimination exists. He was quoted in a dispatch from Washington to the Oregon Journal as saying that he took no stock in the statement that there had been discrimination against Oregon. Of course, if he believes there has been no such discrimination he will make no effort to remove it .-- S. B. Huston, who withdrew from the Senatorial contest and is supporting Stanfield.

Why do the Telegram and Journal complain that Seattle is always taking payrolls away from Portland and then attack Stanfield because he has built up an industry which benefits Oregon and Portland, creates a payroll and adds thousands of dollars to the tax list? . Why has Portland lost so much to Seattle---is it because there are elements in Portland always ready to knock anyone who tries to help the community?

Five lawyers comprise the Oregon delegation at Washington; there has not been a business man, farmer, or toiler in the delegation in a generation.

Why has the Chamber of Commerce felt it necessary to hire a special representative at a senator's salary of \$7500 a year to look after Oregon's interests?

Stanfield never represented a corporation at Salem. Stanfield is no man's man.

Stanfield will not be dictated to and controlled by a political boss, by corporations or by newspapers, but he

will serve all the people of his state, playing no favorites and giving a square deal. No one has ever said that Bob Stanfield is a double-

crosser, or that he is selfish or not liberal with his resources or his friendship. There isn't a lazy bone in his body. He has been a toiler all his life and never held a cushy job.
