

They're Deadly Foes to Gas Waste—the Chalmers Hot Spot and Ram's-Horn Manifold

These are days when the sagacious person is cutting out all forms of waste in his shop and in his home.

No doubt a condition that has sent thousands to see the new Chalmers with its two great devices that Hooverize gas.

One of them is the now noted Hot Spot, which cracks up and heats up the raw gas into a cooked condition for wonderful power results.

The other is the Ram's-Horn Manifold, which of the two is probably an even greater device.

For it takes the gas vapor from the Hot Spot and carries it 14 inches equi-distant to each cylinder without sharp turns, angles or pockets where the vapor might lodge.

So that at the moment of sparking, the gas is (like the charge in a large projectile) ready for 100% results.

There's so little that comes out of the exhaust in the form of unburned gas as to be negligible.

All the power goes into the crank-shaft and out of the rear wheels. And such a soft, luring power that it casts a spell of intense satisfaction the moment your foot touches the accelerator.

NOTORIOUS CONVICT

(Continued from page one)

shortly after Murphy took charge of the prison. A determined stand by Disobey Murphy's injunctions resulted in Baldwin's being chained for several hours to the bars of a solitary cell. Finally Baldwin sent for Murphy and promised to be good. For many months he was one

of the best prisoners of the institution until he won the privileges of the honor gang.

About seven months ago he staged a spectacular escape on the same day with some other convicts.

Baldwin was recaptured not far from Albany by a Linn county deputy sheriff on the way to Albany after the capture of the bars of a solitary cell. Finally Baldwin sent for Murphy and promised to be good. For many months he was one

made his escape in a desperate fight on a lonely road. Baldwin was finally overpowered and stood trial at Albany for the assault on the officer. He now has 14 years more servitude at the prison hanging over his head.

TRY JOURNAL WANT ADS

To the Gas Customers of the Salem Gas Plant Gas Rate Talk No. 5

With regard to the physical condition of our gas plant, three gas benches or generators have been required for the last two years to supply the maximum demand for gas during the latter part of the summer and early fall. We installed the third bench in 1916 at a cost of \$4,590.41 and replaced one of the old ones which had worn out in 1917 at a cost of 5,330.97.

The other old bench became worn out and useless by the end of 1917, and it is now necessary to purchase and install a new bench to replace it at a cost of \$6,200.00.

The financial condition of the company as a whole, has been impaired by greatly increased costs of material and labor in all of its departments, without any corresponding increase in revenues, thereby preventing any reasonable returns being made on the investment.

The effect of these conditions upon the gas supply in Salem is that they form a big obstacle in the way of raising the necessary \$6,200, which is needed to purchase and install an additional gas bench or generator which will be required this summer and fall to supply the demand for gas.

We are therefore forced to apply to the Public Service Commission for permission to increase our rates sufficiently to offset the increased costs of materials and labor and to justify the purchase of adequate facilities for manufacturing all gas required to supply the inhabitants of the City of Salem.

LABOR COMMISSION HAS NARROW ESCAPE

German Torpedo Missed Their Vessel and Struck Near-by Cruiser

Milwaukee, Wis., May 13.—A German torpedo barely missed the vessel carrying the American labor mission abroad and struck a cruiser conveying the ship, according to a censored letter from Henry M. Hyndman of the British food commission, received by A. M. Simons here today. The cruiser was not badly damaged. The attack occurred in the Irish channel. Simons, director of publicity for the Wisconsin loyalty legion, is a personal friend of Hyndman. The letter did not state whether it was an American cruiser.

After describing the incident briefly, relating that the torpedo passed within ten feet of the boat carrying the mission, Hyndman closed a denunciation of the Germans with a proposal for a permanent league of nations—headed by France, England and America.

"Now, even if the Germans do get the channel ports," he wrote, "they can see, nevertheless, nemesis glaring at them close ahead under the Union Jack, the Tri-Color and the Stars and Stripes. That is the alliance, offensive and defensive, in peace and war, I want to see. That is what I hoped and worked for nearly fifty years ago. Let that be the league of nations to start with."

REORGANIZATION OF NATION'S LABOR BUREAU

Felix Frankfurter Has Formed President Taft As of Associates

Washington, May 13.—General reorganization of the government labor agencies under Felix Frankfurter, new war labor "co-ordinator," neared completion today.

Decision was made to compose the labor advisory council as follows: Felix Frankfurter, chairman; William Howard Taft and Frank P. Walsh

News From the Police Department

A police department is one of the principal organizations of a city through which the moral, social and business interests of a city are preserved, and for this reason, the head of the department, as well as each member, should be composed of individuals, whose ability, character and good judgment in the maintenance of the law and ordinances, commands the respect and approval of all who are interested in the welfare of the community. Because of the fact that I will not be able to meet personally with every voter who is interested in the nomination of a city marshal, and that I am depending upon my record as a peace officer guarding the public safety, for the nomination on May 17, for the purpose of information, I submit the following statements: I was born in Huntsville, Mo., 1869; was converted to the Christian faith at Heppner, Oregon, 1887; came to Salem 1903; was in government service during the war with Spain and the insurrection in the Philippines, from May 1st, 1898, to March 1st, 1902. I here quote from endorsements of such service:

"From personal observation of Sergt. Wright, I can recommend him most highly; he has exhibited commendable courage in the field and in the performance of his duty as a non-commissioned officer and soldier, showing that he possesses ability which qualifies him for a higher position. I believe that it would be to the interest of the service to grant him a commission."

(Signed) C. D. Dudley, 2nd Lieut. 4th cavalry.

"His services with the scouts was excellent indeed. He accompanied the expedition to Bayombong, and by his bravery and skill, gaining the rear of an insurgent trench, saved the command from what might have been a destructive fire, while passing the summit of the Caraballo. I can endorse Lieut. Dudley's statements." J. N. Monroe, 1st Lieut. 4th cavalry.

"From personal observation of Sergt. Joseph E. Wright, while he was on duty as chief of regimental scouts, during the recent campaign in the north, I can concur in the preceding endorsements, and recommend him for a commission."

E. M. Hayes, Lieut. Col. 4th Cav. Comdg.

"Character excellent, service honest and faithful."

John O'Shea, captain 4th cavalry.

"Greater love hath no man than this, that a man lay down his life for his friends; our two best friends are our country and our God, and in this, the hour of our country's greatest need of loyal men and women, let us stand united, for our God, for our country and for the blessings of democracy triumphant. I respectfully ask your support for the nomination of city marshal. Yours for a clean city. JOSEPH E. WRIGHT, 208 Bush St., 7th Ward. Night desk sergeant police department. (Paid Adv.) May 13-14-16

BORGLUM'S LATEST LETTER IGNORED BY PRESIDENT WILSON

Aircraft Adventurer Has Already Been Given Ample Notoriety

Washington, May 13.—It appeared unlikely today that President Wilson would permit himself to be drawn further into the aircraft imbroglio by the latest open letter of Gutzen Borglum involving Secretary of War Baker.

It was stated officially today that President Wilson would not reply to the Borglum letter and that if any notice whatever is taken of the missive, Secretary Baker will do it.

Baker was under fire today from Gutzen Borglum in the latter's efforts to clear himself of charges that he intended to use his influence with President Wilson to further private aircraft interests.

In an open letter to President Wilson, Borglum announced his intent to place new documentary evidence before the senate in an effort to cleanse himself of these claims. In his letter Borglum accused Secretary Baker of balking his efforts at aircraft probing.

"Never, I believe, in the history of this country," Borglum wrote, "has a group of men been given so completely a nation's resources, together with the administration's and peoples' confidence as have the aircraft group and never have such confidences been more wantonly abused. I refer here to Major General Snijer, Howard E. Coffin, Colonel Deeds and Colonel Montgomery . . . they appear everywhere in the fine net work of falsehood and camouflage and they include Mr. Baker as their partner in the common statements to the public; they deliberately lied to you and framed up their statements, particularly their false, misleading statements before the senate military committee and they directly are responsible for no engines, no planes, no propellers and our vanishing appropriations."

Senate probes, along with the justice investigators, will continue their trail into the aircraft situation this week.

POLK FARMERS ARE ALERT

Rickreall, Or., May 13.—A great industry is looming in Polk county. The Independence district has led the way. With the growing of beans and beets found inadequate to replace the hop industry, a dehydrated vegetable evaporating plant has been erected on Horse Brothers' hop ranch, between Independence and Salem, and is now in operation.

While the plant is busy on its first material, growers around Independence Buena Vista and Rickreall, are planting various crops—potatoes, celery, carrots, cabbage, tomatoes and others. It is planned to have a run lasting through the entire year, and both early and late crops have been arranged for.

Monmouth Planning For Great Red Cross Sale

(Capital Journal Special Service) Monmouth, Or., May 13.—Great preparations are being made for the success of the Red Cross sale which will be held next Saturday, May 18. A fine lot of blooded livestock, including a number of splendid sheep, several fine heifers, dozens of chickens and a Shetland pony. There will be a varied assortment of articles besides the livestock for sale and every one is expected to attend. There will be a cafeteria dinner served at noon in the grove on the Normal campus. The sale will be held at the same place, beginning at 10 a. m. and lasting until every article is sold. Everybody come and enjoy the fun and the good dinner and help in this worthy cause.

The student body play "Miss Hobbs" given last week in the Normal chapel netted the neat sum of \$50 for the Normal Red Cross auxiliary. The girls are doing a great deal of Red Cross work, especially for French war orphans, and this money will go to buy materials.

On Tuesday, Mr. W. H. Burton represented the faculty in chapel in a very interesting manner, taking for his sub-

Joint chairmen of the national war labor board; Dr. Royal Meeker, chief of the bureau of labor statistics; Commissioner Canning of the United States immigration service; Richard K. Campbell, commissioner of naturalization; Miss Julia Lathrop, chief of the children's bureau; Otto Edlitz, chief of the housing division of the labor department; Roger W. Babson, chief of the education and information division and John P. Denmore, chief of the United States employment service. To these heads of the various labor department bureaus will be added the heads, or their representatives, of the war and navy departments and the shipping board.

COREGA Holds False Teeth Firmly In Mouth

It Prevents Sore Gums

Gums shrink or swell and plates become loose, which is no fault of the Dentist. An application of COREGA lifted evenly on the Dental Plate relieves these conditions. It holds the plate firmly and comfortably in position. Also promotes mouth hygiene. 25c at Drug Stores and Dental Supply Houses. Your Druggist can get it from his wholesaler. Free sample from Corega Chemical Co., Cleveland Ohio.—Adv.

TODAY

LIBERTY

ject "The Work of the Teacher During and After the War." He stressed the importance of teachers getting the right ideals, especially as regards democracy so she may be able to wield an influence for good to all her charges. In his opinion Germany has been made the victim of a wrong set of ideals in her educational system; this being the case she must give way to nations who stand for right and justice and the true principle of democracy, which takes in all humanity.

It is expected now that the enrollment for summer Normal will reach the 400 mark. There are about 300 now the number being considerably less than at the beginning of the semester as many are dropping out to take up positions left by teachers who resign to do war work of some kind.

The total amount subscribed for the third Liberty Loan for the Monmouth district up to date is \$50,800—this was subscribed by 456 persons, and the average amount per capita is \$111.40.

The children of the training school have solicited or subscribed about \$1,500 for war work during the school year. The girls have finished a fine quilt and the boys a handsome rug for the Red Cross sale. These will probably be raffled off at ten cents a chance.

At the Parent-Teacher's association held on Tuesday evening a very interesting program was given. The little play "Chanticleer," was presented by 5th and 6th grade pupils under the able direction of Miss Parrot and Miss Radabaugh. Several spirited songs were rendered by the High school double quartette under the direction of Miss Morris. Prof. Gentle addressed the audience briefly, asking the earnest co-operation of all the parents in urging the children to do their best with the gardens and other war work, including economy.

He and Miss Parrot caused a bit of laughter when they mentioned some of their special economies. Mr. Gentle said he had decided to wear out his old clothes so he hunted up an old coat that had been laid away for six years and was going to wear it until it was worn out. Miss Parrot said she could beat that; as the dress she had on was made from two old ones that she had had for eight years and the fur she wore was made from a coat she had worn ten years ago. This we think is true patriotism.

A letter from Roy Pitzer to the local Odd Fellows lodge, states that he was stationed in England and that when he crossed the ocean was very rough.

SICK WOMAN NOW WELL

Took Lydia E. Pinkham's Vegetable Compound. Read Her Letter.

Pottsville, Pa.—"For a long time I was bothered with pains in my side, and was so weak, and from my trouble that I could not do any lifting or hard work of any kind. If I tried to straighten out when lying down it seemed as though something would tear loose. Lydia E. Pinkham's Vegetable Compound has restored my health and I am quite myself once more."

Thousands of women drag along from day to day in just such a miserable condition as was Mrs. Chubbuck, or suffering from displacements, irregularities, inflammation, ulceration, backache, headache, nervousness, or "the blues."

Such women should profit by Mrs. Chubbuck's experience and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, and find relief from their sufferings as she did.

For special suggestions in regard to your ailment write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.
